In this work Barry Gumm has focused on Biblical numerology, Astronomy and traditional astrology science. He focuses on specific chapters in the Book of Revelation. In his work he uses the above methods to define the future date of the end of the age.

As an evangelical theologian I acknowledge the Bible places significance on numbers (7 - perfection, 10 - complete, 40 – in all directions (North, South, East and West – High, Deep, Wide and Long) complete).

Much has been written about the truth there are no numbers in the Hebrew and Greek character set _ that context determines if a character is a letter or a number. A well known example is the Greek word for Our Lord Jesus (6k. iasou - - 1 - 10, a - 8, 5 – 200, 0 -70, u – 400) 5 – 200 = 888).

The Bible uses numbers for perfection, completeness, unity, divisions as mentioned.

Astronomy has been noted the alignment of planets in our solar system and the effect of star definition on human condition, affairs and relationships.

Barry's work clearly defines his concept and calculation on end times. We know from the Holy Scripture we are in the end times - especially when it is evident that attitudes to our Christian civilization, heritage and way of life are

Mystery Babylon The Great-er London

being disestablished (Romans 1:18-32); 1 Timothy 6:3-10; 2 Timothy 3:1-9; 2 Peter 2:1-22; 3:1-10).

Barry has spent a great deal of his work examining the evils of the love of money mentioned in the above references.

Given these scriptures, it is clear to me through the guidance of the Holy spirit that the end of the age is near.

Barry's calculations using the application of astronomical and astrological events is particularly interesting.

His calculations and analysis of the members of the Royal Family are his opinion. We do know the Queen is ignoring some of Her Coronation vows.

Ove the centuries astrological study has been used to predict seasons and affairs and attitudes of men. Barry has been careful in defining and avoiding the evil use of astrology given that traditionally those methods have had academic merit but modern use has unfortunately focused on horoscopes and soothsaying.

Personally I follow a simple approach to following Jesus and his words 24/7-.

Barry interrupting at this point, I follow simple approach to following Jesus, it just a subject like the one discussed in this book needed a different type of thought pattern and my financial background proved critical in the processes of determination of the actual and literal interpretations of

Mystery Babylon The Great-er London

organisations and people the bible is (was and is to come talking about).

Barry ending and Graham continuing:

“If you love me you will obey what I command” (John 14:15). Jesus encourages us to “Watch” (Mathew 24:42, 26:41; Mark 13:33, 35,37). Also to simply “Worship God” (revelation 19:10, 22.9). This is the One True God – Yahweh – Father, Son & Holy Spirit – The God of the Bible not any god! (Isaiah 41.14, 6,20; 45:1 (LORD – YAHWEH)).

Of great importance in this work is his in-depth research into the Banking System, The New World Order (NOW) – Global Government. His study of the history of how this is developing with the evils of global banking is overwhelming. Do bank have this power? We know the Kings of the earth in the end will continue to gather against Jesus (revelation 19:19).

Thus, his study and commentary on many chapter in the Book of Revelation encourages each true born again believer to keep praying and reading Holy Scripture and allow the Holy Spirit to continually guide and give new insights.

Introduction

For many years, this author has pondered who these symbolic creatures are and this Harlot & Mother of Harlots were in the book of Revelation, and for some time I thought the same as many thought that the Pope was the Beast.

The Pope however for the Beast just did not fit right with me from a financial aspect. To me the Pope certainly fitted the bill on a religious point of view and financially from the history of selling “apostles” bones and the various books that talked about the history of the Pope’s and the Roman church as a whole.

The word catholic means universal. Therefore, the Roman Catholic Church is really the Roman Universal Church. Every time one says Catholic Church, they are saying Universal Church and therefore one should address the Catholic Church as the Roman Catholic Church.

As I moved on in life and became an insurance advisor, financial planner then “stockbroker” and in Christian life I considered the whole financial system was the beast including the Roman Catholic Church at least in part.

Why I say in part is because I believe that John 3 v 16 is true, which reads “*God so loved the world that he gave his only begotten Son that whosoever should believe, would not perish but receive everlasting life.*” Now that is quite a deal, just believe – trust and obey and you get to live forever without pain, sickness and sorrow.

Mystery Babylon The Great-er London

Cannot buy it, cannot give it, cannot own it, cannot work for it, just believe, that is, trust and obey and life is yours no matter what you done in the past. What an incredible deal! Why everyone does not see that, is beyond this author.

Still I wanted to know what these signs meant, and have done for 32 years. Then in the last couple of weeks from around 1st May 2014 to mid-2014 it all came together for me in just two weeks.

God showed to me, lead me to places on the internet some of which I had physically been to when I was just 9 or 10 years old when growing up in England.

I can still remember seeing the Harlot's Cup on display in the London Museum and thinking why would you make or drink out of a cup that large?

Being just nine, the Cup looked enormous to me.

Off course the answer came some 41 to 42 years later, if you are going to cause that much hurt and harm to people you need a large cup and constantly refill it.

This is another book I am incredibly appreciative that the Lord God of Heaven and Earth and the ones to come should choose this author to write. In fact, one could have known most of what Revelation 17 was talking about in full from 1954! Why has so many missed the harlot's cup described in Revelation 17 including myself for so long.....

Mystery Babylon The Great-er London

Millions of people have seen it yet it is almost impossible to find one talking and unveiling it as it were to the world.

Why have millions of people and probably tens of thousands of Priests and Pastors missed it?

I do not have the answer. Maybe it has something to do with the words on the placard that says “Royal Cup” and they discounted the Images Gold and Pearls and did not compare to Revelation 17. One of the Images on the Cup is a Beast!

If I had lived in England past the age of 11 and become born again, I would have gone and found it a lot earlier, but never mind it is being declared to the world now.

This book is going to cover a lot of aspects mentioned in the book of Revelation. What I am **not** going to do is what most other Christian writers have done and that is “prove” their thoughts by quoting other scriptures, which may seem to relate but quite often do not.

Having said that I think there is one scripture that I may actually do concerning the above in this book. As I improved the introduction on the 21st June 2014, I brought a book at Lifehouse Church Coffs Harbour and devoured the book 250 pages in 2.5 hours. I took it back and said I would pay for it as I had read it.

What I read for the first 155 pages was confusion. I felt like throwing it in the bin! It was a New York best seller!

The chap that wrote it tried to prove his view with scriptures backing up scriptures.

Mystery Babylon The Great-er London

Now let me ask you a question and let's say you have an analytical personality and you are trying to access God is real.

You read a scripture, then another to back that up that sort of fits and then another to back up the last one, then another that backs up that one, but then you end up where you started. How do you know what is True?

And that is what this book that I borrowed was like. Then I thought about it. Well I have been around saved for 32 years, so this book may be alright for a person who has not been saved for as long as I have.

Then I remembered the words someone told me you have to read multiple books that have different views have a complete understanding. Sounds logical. Then comes the question well how many to prove what?

In the financial markets I discovered the No:1 Top Secret and I can mathematically calculate a projection, a future price with a greater accuracy than 99.????%. Yes I measure it to the fourth decimal point! Something I have not seen anyone do except those who have read my books!

Not one broker advertises his success rate. And for good reason they do not know the mathematical truth in the markets as related to what God has created.

This author can do that with the Law of Vibration and Harmony on the financial markets (anyone).¹ Then why can

¹ Matthew 7 v 12 KJV It is the Law

Mystery Babylon The Great-er London

I not do that with God and his Universe and more to the point his mathematical Musical Clock called our Solar System?

I can and you will see me prove it in this book. I mean God wrote the book of Numbers. God's Word the Holy Bible has been proven mathematically true by Ivan Panin and his Bible Numerics.² Then of course there is Bible Code that is said to unveil mathematical secrets (words and names) hidden numerically in the words of the Bible.³

Now if those things are true why quote scripture on scripture on scripture and end up with a book that is not proven mathematically and just end up with a lot of quotes. For some this is enough and certainly the best way to approach God is to ask him However either straight away or later it is nice to have proof.

Now God gives proof personally, just ask him and he will prove himself to you. However that is not the subject of this book, but rather, a look at Revelations and prove the scriptures TRUE with simple mathematics of the Solar System.

After all God said Genesis 1 V14 KJV And God said, ***Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years:***

Mystery Babylon The Great-er London

And there will be signs in sun and moon and stars, and on the earth distress of nations in perplexity because of the roaring of the sea and the waves. Luke 21 v 25 ESV.
God has made them for signs, in the Sun, Moon and Stars.

Now God has made them for signs. What signs. How can we use them? The Solar System has been there since Genesis chapter one.

Let's think about that. For thousands of years the planets of our Solar System have been going around the Sun and around the Earth (all but three) which are the Sun, Mercury and Venus and all are perfectly ordered or set up as it were. Therefore they have to comply with the mathematics that God has used to order their paths.

He could not have them bumping into earth could you imagine if Jupiter hit earth, bang everyone wiped out. NO God set them in cycles that were mathematically correct! Therefore the mathematics of the Solar System are far better to use for past present and future signs than any man made calendar.

Farmers today in 2015 still use the seasons and moons to plant crops, fisherman on fish on certain moons and so on.⁴ Therefore in this book everything where possible is backed up and proven and future events to come are mathematically analysed and that is totally different to most books on prophecies.

⁴ http://www.the-gardeners-calendar.co.uk/moon_planting.asp

Mystery Babylon The Great-er London

Why Mathematically? Numbers do not lie. There are a few different calendars that you can go by, but the mathematics of God's Musical Clock our Solar System cannot be altered or changed in any way unless God changes them! Which he has done twice, once with Joshua⁵ and once with King Hezekiah.⁶ AND with Hezekiah the Sun went backwards 10 steps or 10 degrees.

God has made a wonderful orchestrated clock for use to use and verify events in the past, present and future. Another reason I like this method so much is said so beautifully by a Scottish Physicist Lord Kelvin back in 1883.

7I often say that when you can measure what you are speaking about, and express it in numbers, you know something about it; but when you cannot express it in numbers, your knowledge is of a meagre and unsatisfactory kind; it may be the beginning of knowledge, but you have scarcely, in your thoughts, advanced to the stage of science, whatever the matter may be.

This author loves that quote, God has many numbers in his Holy Bible and every Number and Cycle can be found in the Solar System. Including 144 and 153 fishes. Let's consider Daniel,. Daniel was taken to Babylon when Jerusalem fell to the King of Babylon - Nebuchadnezzar's

Daniel Chapter 5 v 11-12 ESV

There is a man in your kingdom in whom is the spirit of the holy gods.

In the days of your father, light and understanding and wisdom like the wisdom of the gods were found in him, and King Nebuchadnezzar, your father your father the king made him chief of the magicians, enchanters, Chal-deans, and astrologers,

12 because an excellent spirit, knowledge, and understanding to interpret dreams, explain riddles, and solve problems were found in this Daniel, whom the king named Beltshazzar. Now let Daniel be called, and he will show the interpretation.

Now for Daniel to be put chief of the Astrologers he must have known Astrology and Astronomy. Knowing ten times more than other men.

Daniel 1 v 17 ESV 17 - 21 As for these four youths, God gave them learning and skill in all literature and wisdom, and Daniel had understanding in all visions and dreams. 18 At the end of the time, when the king had commanded That they should be brought in, the chief of the eunuchs brought them in before Nebuchadnezzar.

19 And the king spoke with them, and among all of them none was found like Daniel, Hananiah, Mishael, and Azariah. Therefore they stood before the king.

20 And in every matter of wisdom and understanding about which the king inquired of them, he found them ten times

Mystery Babylon The Great-er London

better than all the magicians and enchanters that were in all his kingdom.

Therefore do not be concerned to read this book that you may not know a lot of maths or indeed none, you do not need to. It is all here explained and done for you.

Instead rather be enthuse and empowered that God has proven and can prove future events by using the mathematics of the Musical Solar System he made to prove his Holy Bible is Accurate True and can be relied upon without hesitation.

God made massive objects (Sun, Moon, Planets and Stars) in order to reach people who want to know him but need a little more proof and within this book you have the proof that may help them.

I sincerely hope that you are able to look past the writing styles and the diction used and see that you are receiving from God not me, from God, knowledge of Revelation that God is faithful and true.

That He has made these scriptures penned by Daniel some 2500 years ago and John some 1900 years ago come alive because HE kept his promise down to the very tiniest detail in order that you might but the small amount of faith believe, and that you may receive everlasting love and life in him.

God made the Stars so that they can be used in Astronomy and get this one Astrology. Now before you put on the net or run out the door saying this guy is a nutter, think about this.

Mystery Babylon The Great-er London

In the book of Revelation Chapter Twelve a woman in the heavens is going to give birth. I ask you how can a woman in space give birth? Would she be dead because there is presumably no air to breathe?

Who is the baby going to breathe when it is born?

What about the doctors and midwife(s)?

Off course this has to be a sign. Revelation 12 verse 1&2 AMP.

1. And a great sign (wonder)—[warning of future events of ominous significance] appeared in heaven: a woman clothed with the sun, with the moon under her feet, and with a crown like gar-land (tiara) of twelve stars on her head.

2. She was pregnant and she cried out in her birth pangs, in the anguish of her delivery.

Now for all the people who say God dislikes Astrology you are **incorrect** because that woman is constellation Virgo or in Arabic constellations - The Undefended Maiden. God does not like Soothsayers, like for example your stars in the magazine, paper, or internet each day or month of year.

You will see Astrology used a little in this book and that is because some people like Astrology and to be all things to all people I have included it. I have used birth charts to be exact and there is a very good reason for that and it is in the Bible. Ezekiel 21v30 KJV

Mystery Babylon The Great-er London

Shall I cause it to return into his sheath? I will judge thee in the place where thou wast created, in the land of thy nativity.

Jesus said John 14 v 2 **In my Father's house are many mansions: if it were not so, I would have told you. I go to prepare a place for you.**

Bring it on Lord, a mansion I do not have to pay for, yes please! Oh and don't forget the Angel's....!

Did you notice the chapter and verse numbers 14 v 2 which is 2 times 14 equal 28 and in the heavens are 27 and sometimes 28 houses!

Land of your nativity (when you were born) that is Astrology and in The Fathers House (heaven) there are mansions, meaning both literal and Astrology.

Therefore Astrology as far as numbers are concern are great God made them for Signs, so that we may not be deceived Jesus said.⁸

The bible also says the following about soothsayers.

Holman Christian Standard Bible Levi 19 v 31

Do not turn to mediums or consult spiritists, or you will be defiled by them; I am Yahweh your God."

GOD'S WORD® Translation Levi 19 v 31

⁸ Mathew 24 v 5

Mystery Babylon The Great-er London

"Don't turn to psychics or mediums to get help. That will make you unclean. I am the LORD your God. American Standard Version Levi 19 v 31

Turn ye not unto them that have familiar spirits, nor unto the wizards; seek them not out, to be defiled by them: I am Jehovah your God.

NET Bible Levi 19 v 31

Do not turn to the spirits of the dead and do not seek familiar spirits to become unclean by them. I am the LORD your God.

The way this last scripture is worded is very important as you see, as the book unveils the Harlot and the Beast.

Depopulation of the Earth has been going on for quite a while, however I think it is soon going to pick up pace and definitely after The Woman in Heaven gives Birth. Rev 12

As you will see, a secretary was killed, a politician plane was shot down with other passengers and then recently MH370 disappeared in the field of focus when I said to some friends in February 2014 that there needs to be a marker between the 6th - 8th March 2014 to prove my calculations were correct.

In addition, we did which proved to me, my cycle analysis was right on or correctly worded God's orchestrated Solar System Musical Clock was right on the mark!

Of particular interest is flight MH370. Before I talk about that event, on the 16th September 2012 I published a book, which is now titled *The New World Order & The Woman in Heaven gives Birth*.

Two weeks later I had an appointment with a PhD patent lawyer. Who said my discovery on the Financial Markets, more specifically the algorithm could be worth AUD one

Mystery Babylon The Great-er London

hundred million. However I could not write my books and I would have to be quiet about it for up to 5 years while the Lawyers in AUST, USA, EU, Singapore, South Korea, Japan and no doubt a couple of others put the appropriate protections in place which would last 20 years.

I must admit that a one with eight zeros behind it was quite tempting⁹ the power of 1 amplified by 8 zeros!

The thing about it was that USA and EU were going to know about it, and because I had published my book (The New World Order & The Woman in Heaven gives Birth.) I knew time was short and I would no doubt be dealing with the beast himself or one of the beast family relations.

As it turns out there were four people on MH370 who had a particular patent and who held it with Jacob Rothschild, (remember the 1st & 2nd beasts is a man, as stated in the Book of Revelation chapter 13) due to the plane going missing and all crew and passengers assumed dead the patents only other shareholder is or was possibly going to be the beast himself.

It was then I finally realised I had made the right decision in releasing my No:1 Market Top Secret in a form of a book and not bothering going for the big dollars and the very valuable patent¹⁰.

⁹ <http://revampyourmind.com/index.php/investing-gods-way/dr-barry-d-g-gumm/secret-to-the-markets>

¹⁰ <http://revampyourmind.com/index.php/mh370>

Mystery Babylon The Great-er London

Let me explain, I am not disrespecting any of the families the people or relations to the people who have been lost on the flight of MH370.

My interest is this. In mid-February 2014, I said to a friend or two that I had worked out when the 42 months or 3.5 years finished after the “Mark of the Beast” / Warning sign in the heavens comes true in Revelation Chapter 12.

I went on to say that if one day is a thousand years and a thousand years is one day, and that Daniel second half of his week in Bible prophecy is a year for a day, then the start of the seven years is up on 6 - 8 March 2021.

Having said that if a year is for a day counting backwards that gives me the target of 6 - 8 of March 2014 and with that there should or will be a marker, something is going to mark that day in history. A couple of weeks after the 8th March we got together and ask each other, Okay what happened.

1. Earthquake in Bali Sea – that could happen any day or time – discounted was the result
2. Crimea situation – with Russia’s agreement ended they could reclaim it as Russian ground, Ancient underground Pyramids found, USA offers Crimea a billion USD so they could have a look around before Russians do. – Some-thing of substance there.
3. MH370 goes missing. It just occurred to me on the 23rd of April 2014 that this MH370 was or could be like September 11th 2001.

Mystery Babylon The Great-er London

At that time 2001, I received an email showing if you use a particular font, it would show two tower buildings and an aeroplane and a death pirates skull. In other words, it was coded, it was telling one not to get on this/that flight. Since then the online media have shown movies foretelling people 911 in different forms. In other words, “they” had this planned for many years!

This flight called sign intrigued me, the call sign MH370. Why not 360. 360 degrees was easy finality 360-degree circle divided by 7 days being 1 year for a day. I mean 360 would have been easy but 370 what is that? So I divided 360 degrees by 370.

$(360/370) - 1 =$ I came up with 0.027027027. Move the decimal point and you have 27 for example 27 Nakshatra’s sometimes 28. The moon travels 13 degrees and 20 minutes every day and during the course of the month, the moon travels through all the 27 or 28 houses “Astrology”.

In Astrology Nakshatra’s are houses. 27 houses and sometimes 28. Chinese Astrology 28 houses.

Okay can handle that because it is numbers and not soothsaying. So what? – well $370/360 - 1 = 0.027027$.

Just move the decimal point to see the number 360 is 1 the $10 = .027$ or 27. The thing to note that the decimal is removed – standard practice in Astronomy of this type cycle analysis and Astrology.

Mystery Babylon The Great-er London

Therefore one complete circuit around a 360 circle plus 10 degrees.

NOW THAT IS INTERESTING. WHY?

Because I said there would be a marker and there was 3 to be exact, but this last one gave a number one that one could see easily – everything is numbered¹¹.

Now we move on to the proof of the numbers. Also by seeing the 0.027027 number, I knew it was the Moon Cycle.

This first chart just shows you the start day and the degrees 13.33333 due to the 33333 splits the hour up into 20-minute parts i.e. 3×20 is 60 minutes or 1 Hour.

First, I prove the date is correct being the 23rd September 2017 and therefore 42 months in SPACETIME gives me a date of 6-8 March 2021. The tables above prove that, I also prove that this Marker MH 370 was based on the Luna Cycle of the Moon, and that is also in Indian, Chinese (in part) Astronomy and Astrology.

8th March 2014 the starting AND the marker date, when MH370 went missing.

From that date American based 7th March 2021, 13 degrees and 20 minutes (Moon's movement everyday) change from previous cycle 2520 rounded up degrees or 2 times 1260 days see third row on table.

I.1.2 Calendar days third row 2556. 2556 is 7 years plus one for leap year (7×365) + 1 = 2556 Calendar Days.

Therefore we have two lots of 1260 being

$(1260+1260)=2520$ days using God Musical Clock and 2556 Calendar days. God is exact and that is great!

In July 2014 it came to my attention that MIA370 was on last years Transformers Movie. On top of a bus MIA370.

Mystery Babylon The Great-er London

Transformers movie called it missing in Action 370. M370 was Malaysian International Airlines.

NOW we look at MH17 which happened yesterday on the 17th of July 2014 Australian time. 18th July 2014 I believe.

MH17 leave the MH off 17 = 6+6+6-1= 17

Another view is from an EU perspective

EU 12 Stars + 1 pentagram 5 points + 2 horn beast = 17 It was a 777 Jet. 7 is for Fatal #7 or Final. 777 is 7 amplified by 2 more 7s

And 21 is a Fibonacci sequence number as is 13 & 8. $13+8 = 21$ ($7+7+7$).

5, 8, 13, 21 are all Fibonacci numbers and all are therefore change numbers.

This was a planned attack I believe, as was MH370 to insight the Kings of the East, so that Daniel 8 will be fulfilled. See Appendix D. And also the song Xanadu, beautifully sung by Olivia Newton John, had a sinister code in it that pointed to the downing of MH370.¹²

First, some history going back a few thousand years.

Prelude

Some of the Prelude will be charts and a little cycle analysis, may I suggest you may want to revisit this prelude after you have read the book due to some cycle analysis and reasoning will be explained further in the book.

Expanded and continued watch on this subject can be found here <http://revampyourmind.com/index.php/23-24092017/> and in the blog of the same website.

The Scriptures used in this book and on the revampyourmind.com website will vary in versions this is has been done simply for the ease of reading and no other reason. I am used to reading the King James Version and I realised this is not always the best for me and others may find it very hard to read therefore the various versions of the Holy Bible have been resourced.

This author also says that when he was a teenager my sister brought a children's bible home and he would read it, the author was a poor reader for various reasons. The author read most of it but was disappointed when she had taken it back to school because the author of this book had not finished it.

Reading the simple words and looking reading 1000 words in every picture moved this author.

Mystery Babylon The Great-er London

Jesus was ministering to this author along with the Holy Ghost. He was reaching deep into the authors' heart a very hard heart it was even when he was 16. Not long after about 2 years this author was saved as mentioned above.

Therefore this author is a firm believer that God, Jesus and the Holy Spirit, brings to you and me the items and discussions, to every man and woman and child exactly what they need to hear.

When they are ready to hear what the spirit says to human beings via the human beings being the Church or other any medium that is fit for the purpose in the circumstance(s) the person is in. Let us begin with a dream.....and Daniel providing the interpretation of the Dream¹³.

31-36 “What you saw (in his dream), O king, (King Nebuchadnezzar) was a huge statue standing before you, striking in appearance. And terrifying. The head of the statue was pure gold, the chest and arms were silver, the belly and hips were bronze, the legs were iron, and the feet were an iron-ceramic mixture. While you were looking at this statue, a stone cut out of a mountain by an invisible hand hit the statue, smashing its iron-ceramic feet. Then the whole thing fell to pieces—iron, tile, bronze, silver, and gold, smashed to bits. It was like scraps of old newspapers in a vacant lot in a hot dry summer, blown every which way by the wind, scattered to oblivion.

¹³ Message 2: 31 - 46

But the stone that hit the statue became a huge mountain, dominating the horizon. This was your dream.

1.0 Picture Prelude Stature

7- 40 “And now we’ll interpret it for the king. You, O king, are the most powerful king on earth. The God of heaven has given you the works: rule, power, strength, and glory. He has put you in charge of men and women, wild animals and birds, all over the world—you’re the head ruler, you are the head of gold.

But your rule will be taken over by another kingdom, inferior to yours, and that one by a third, a bronze

kingdom, but still ruling the whole land, and after that by a fourth kingdom, iron like in strength. Just as iron smashes things to bits, breaking and pulverizing, it will bust up the previous kingdoms.

“The great God has let the king know what will happen in the years to come. This is an accurate telling of the dream, and the interpretation is also accurate.”

41-43 “But then the feet and toes that ended up as a mixture of ceramic and iron will deteriorate into a mongrel kingdom with some remains of iron in it.

Just as the toes of the feet were part ceramic and part iron, it will end up a mixed bag of the breakable and unbreakable. That kingdom won’t bond, won’t hold together any more than iron and clay hold together.

44-45 “But throughout the history of these kingdoms, the God of heaven will be building a kingdom that will never be destroyed, nor will this kingdom ever fall under the domination of another. In the end it will crush the other kingdoms and finish them off and come through it all standing strong and eternal. It will be like the stone cut from the mountain by the invisible hand that crushed the iron, the bronze, the ceramic, the silver, and the gold.

The Second Kingdom was in modern terms Iran.

The third Kingdom was Greek.

The fourth Kingdom was Rome.

The Kingdom which still is, is Roman and financial “clay”.

The last kingdom has many parts to it some of the strength of Rome and other parts of clay and therefore will not bond, the clay being EU European Union The Harlot, The Harlot of Harlots and the Beast and Second Beast and False Prophet.

Example of this is USA United States of America is not part of the Euro. Although it answers to the EU in law and during the Economic Crisis of 2007-2009 the USA gave EU Banks hundreds of Billions of USDollars via AIG.

AIG disclosed payments of \$105.3 billion between September and December 2008. And some of the biggest recipients were European banks. Societe Generale, based in France, was the top foreign recipient at \$11.9 billion, Deutsche Bank of Germany got \$11.8 billion and Barclays, based in England, was paid \$8.5 billion.¹⁵

In the first year of the reign of King Belshazzar of Babylon, Daniel had a dream. What he saw as he slept in his bed terrified him—a real nightmare. Then he wrote out his dream:

2-3 “In my dream that night I saw the four winds of heaven whipping up a great storm on the sea. Four huge animals, each different from the others, ascended out of the sea.

4 “The first animal looked like a lion, but it had the wings of an eagle. While I watched, its wings were pulled off. It was then pulled erect so that it was standing on two feet like a man. Then a human heart was placed in it.

King Nebuchadnezzar, lifted up in himself pride, so God made him dumb and he ate grass for seven years. I .e His wings were torn off him as it were. After seven years he

The thing this author has just talked about is, It is just the individuals, Have not gone into corporations and countries!

In 1974 the high price for Gold got to \$154.00 US an ounce. $\$60,000,000,000 / 154 = 389,610,390$ ounces. Therefore at today's (19th May 2014) price of \$1,300.00 per ounce that equates to \$506,493,507,000! However, people that believe in Jesus will be cared for both naturally and spiritually, even if they are killed naturally.

it dates back to the Jay Treaty. The modern history of international arbitration is, however, generally recognized as dating from the so-called Jay Treaty of on 19th November 1794,²⁹ between the United States of America and Great Britain.

This Treaty of Amity, Commerce and Navigation provided for the creation of three mixed commissions, composed of American and British nationals in equal numbers, whose task it would be to settle a number of outstanding questions between the two countries which it had not been possible to resolve by negotiation. Whilst it is true that these mixed commissions were not strictly speaking organs of third-party adjudication, they were intended to function to some extent as tribunals. They reawakened interest in the process of arbitration. Throughout the nineteenth century,

The United States and the United Kingdom had recourse to them, as did other States in Europe and the Americas.

The Alabama Claims arbitration in 1872 between the United Kingdom and the United States marked the start of a second, and still more decisive, phase. Under the Treaty of Washington of 1871, the United States and the United Kingdom agreed to submit to arbitration claims by the former for alleged breaches of neutrality by the latter during the American Civil War.

The two countries stated certain rules governing the duties of neutral governments that were to be applied by the

tribunal, which they agreed should consist of five members, (this number 5 is quite important as will be shown later in this book) to be appointed respectively by the Heads of State of the United States, the United Kingdom, Brazil, Italy (Rome) and Switzerland, the last three States not being parties to the case.

The arbitral tribunal's award ordered the United Kingdom to pay compensation and it was duly complied with.³⁰

It seems likely to me that a host of computers linked to EU & National Crime Agency and the USA will be able to keep watch if you will.

³¹The banking industry is dependent on IT (information and communications technology) for its operations and delivering quality customer service. High technology costs for secure systems and under-utilised hardware are additional obstacles that banks commonly face. Pay-for-use

cloud services can provide banks and other financial institutions opportunities to reduce costs by utilising hardware more efficiently and can give them the ability to scale operations as needed.

³²Over the past few years, the Australian Banks & the Commonwealth Bank have progressively moved to identify and utilise public, hybrid and private cloud solutions. The Commonwealth Bank has taken a selective approach: it has gone through the process of matching the right cloud service to different information security environments across its business.

For example the Commonwealth Bank stores sensitive information in a private cloud to retain maximum control, but uses public cloud services to access, store and protect non-sensitive information efficiently.

Benefits so far

The use of cloud services by the Commonwealth Bank has:

- resulted in a halving of data storage costs
- produced 40 per cent savings in software services that have been migrated to the cloud
- reduced testing and development costs by 50 per cent

The use of cloud services by the Commonwealth Bank has demonstrated that there are opportunities to realise

"Today Americans would be outraged if U.N. troops entered Los Angeles to restore order; tomorrow they will be grateful! This is especially true if they were told there was an outside threat from beyond whether real or promulgated, that threatened our very existence. It is then that all peoples of the world will pledge with world leaders to deliver them from this evil.

The one thing every man fears is the unknown. When presented with this scenario, individual rights will be willingly relinquished for the guarantee of their well being granted to them by their world government."

David Rockefeller saying everything is in place now, i.e. all the laws and such like for the One World Order to come into being. Notice also the word Trilateral. You will notice that the a lot of the words used in various documents around the world start with Tri;

This is because when you look at the Pyramid the first shape you see is a Triangle and/or 3 pillars. It is a dominate theme of Witch Craft and Satan worship. People forget that there is a Square and a Circle around the pyramid and contained within the Circle are the Square and the Triangle. In a Single dimension of God (a Circle) everything is contain and controlled.

French revolution. It has been the mainspring of every subversive movement during the 19th century. And now at last this band of extraordinary personalities from the underworld of the great cities of Europe and America have gripped the Russian people by the hair of their head and have become the undisputed masters of the enormous empire.” **Winston Churchill, stated to the London Press, in 1922.**

Now considering that Winston Churchill was Prime Minister to Great Britain the United Kingdom twice, he knew what a large empire was, and here he is calling the secret societies empire enormous!

“We are at present working discreetly with all our might to wrest this mysterious force called sovereignty out of the clutches of the local nation states of the world.” **Professor Arnold Toynbee, in a June 1931 speech before the Institute for the Study of International Affairs in Copenhagen.**

“We are not going to achieve a new world order without paying for it in blood as well as in words and money.” **Arthur Schlesinger, Jr., in Foreign Affairs (July/August 1995).**

They, the architects of the new world order have done all three, however I doubt it very much that their Sons and Daughters were in or on the actual battlefields of war.

5 But the Lord came down to see the city and the tower the people were building. 6 The Lord said, “If as one people speaking the same language they have begun to do this, then nothing they plan to do will be impossible for them. 7 Come, let us go down and confuse their language so they will not understand each other.”

8 So the Lord scattered them from there over all the earth, and they stopped building the city. 9 That is why it was called Babel—because there the Lord confused the language of the whole world. From there the Lord scattered them over the face of the whole earth.

People spread across the earth from there traveling in the groups of people they could understand and communicate with. Next we look at the primary scriptures we look at in this examination of the Great-er London, Mystery Babylon the Great.

Chapter 1 - Scriptures in Primary Focus

In this book, the chapters of the Canon Bible primarily in view are Revelation 13, 17 & 18

These are printed below and are referenced within this book as required.

In this book, we will be using the English Standard Version. Other texts may be referenced as well. ESV is used for the simplicity of reading for the greater majority.

A brief statement about the ESV from www.biblegateway.com⁴¹

The English Standard Version (ESV) stands in the classic mainstream of English Bible translations over the past half-millennium. The fountainhead of that stream was William Tyndale's New Testament of 1526; marking its course were the King James Version of 1611 (KJV), the English Revised Version of 1885 (RV), the American Standard Version of 1901 (ASV), and the Revised Standard Version of 1952 and 1971 (RSV). In that stream, faithfulness to the text and vigorous pursuit of accuracy were combined with simplicity, beauty, and dignity of expression. Our goal has been to carry forward this legacy for a new century. To this end each word and phrase in the ESV has been

⁴¹ <http://www.biblegateway.com/versions/English-Standard-Version-ESV-Bible>

Mystery Babylon The Great-er London

carefully weighed against the original Hebrew, Aramaic, and Greek, to ensure the fullest accuracy and clarity and to avoid under-translating or overlooking any nuance of the original text.

The words and phrases themselves grow out of the Tyn-dale-King James legacy, and most recently out of the RSV, with the 1971 RSV text providing the starting point for our work. Archaic language has been brought to current usage and significant corrections have been made in the translation of key texts. But throughout, our goal has been to retain the depth of meaning and enduring language that have made their indelible mark on the English-speaking world and have defined the life and doctrine of the church over the last four centuries.

The ESV is an "essentially literal" translation that seeks as far as possible to capture the precise wording of the original text and the personal style of each Bible writer. It seeks to be transparent to the original text, letting the reader see as directly as possible the structure and meaning of the original.

The First Beast

13 And I saw a beast rising out of the sea, with ten horns and seven heads, with ten diadems on its horns and blasphemous names on its heads.

2 And the beast that I saw was like a leopard; its feet were like a bear's, and its mouth was like a lion's mouth. And to it the dragon gave his power and his throne and great authority.

3 One of its heads seemed to have a mortal wound, but its mortal wound was healed, and the whole earth marvelled as they followed the beast.

4 And they worshiped the dragon, for he had given his authority to the beast, and they worshiped the beast, saying, "Who is like the beast, and who can fight against it?"

5 And the beast was given a mouth uttering haughty and blasphemous words, and it was allowed to exercise authority for forty-two months.

6 It opened its mouth to utter blasphemies against God, blaspheming his name and his dwelling, that is, those who dwell in heaven.

7 Also it was allowed to make war on the saints and to conquer them. And authority was given it over every tribe and people and language and nation,

Mystery Babylon The Great-er London

8 and all who dwell on earth will worship it, everyone whose name has not been written before the foundation of the world in the book of life of the Lamb who was slain.

9 If anyone has an ear, let him hear:

10 If anyone is to be taken captive, to captivity he goes; if anyone is to be slain with the sword, with the sword must he be slain. Here is a call for the endurance and faith of the saints.

The Second Beast

11 Then I saw another beast rising out of the earth. It had two horns like a lamb and it spoke like a dragon.

12 It exercises all the authority of the first beast in its presence, and makes the earth and its inhabitants worship the first beast, whose mortal wound was healed.

13 It performs great signs, even making fire come down from heaven to earth in front of people,

14 and by the signs that it is allowed to work in the presence of the beast it deceives those who dwell on earth, telling them to make an image for the beast that was wounded by the sword and yet lived.

15 And it was allowed to give breath to the image of the beast, so that the image of the beast might even speak and might cause those who would not worship the image of the beast to be slain.

Mystery Babylon The Great-er London

16 Also it causes all, both small and great, both rich and poor, both free and slave, to be marked on the right hand or the forehead,

17 so that no one can buy or sell unless he has the mark, that is, the name of the beast or the number of its name.

18 This calls for wisdom: let the one who has understanding calculate the number of the beast, for it is the number of a man, and his number is 666.

Revelation 17

Then one of the seven angels who had the seven bowls came and said to me, “Come, I will show you the judgment of the great prostitute who is seated on many waters,

2 with whom the kings of the earth have committed sexual immorality, and with the wine of whose sexual immorality the dwellers on earth have become drunk.”

3 And he carried me away in the Spirit into a wilder-ness, and I saw a woman sitting on a scarlet beast that was full of blasphemous names, and it had seven heads and ten horns.

4 The woman was arrayed in purple and scarlet, and adorned with gold and jewels and pearls, holding in her hand a golden cup full of abominations and the impurities of her sexual immorality.

5 And on her forehead was written a name of mystery: “Babylon the great, mother of prostitutes and of earth's abominations.”

6 And I saw the woman, drunk with the blood of the saints, the blood of the martyrs of Jesus. When I saw her, I marvelled greatly.

7 But the angel said to me, “Why do you marvel? I will tell you the mystery of the woman, and of the beast with seven heads and ten horns that carries her.

8 The beast that you saw was, and is not, and is about to rise from the bottomless pit and go to destruction. And the dwellers on earth whose names have not been written in the book of life from the foundation of the world will marvel to see the beast, because it was and is not and is to come.

9 This calls for a mind with wisdom: the seven heads are seven mountains on which the woman is seated;

10 they are also seven kings, five of whom have fallen, one is, the other has not yet come, and when he does come he must remain only a little while.

14 They will make war on the Lamb, and the Lamb will conquer them, for he is Lord of lords and King of kings, and those with him are called and chosen and faithful.”

15 And the angel said to me, “The waters that you saw, where the prostitute is seated, are peoples and multitudes and nations and languages.

16 And the ten horns that you saw, they and the beast will hate the prostitute. They will make her desolate and naked, and devour her flesh and burn her up with fire,

17 for God has put it into their hearts to carry out his purpose by being of one mind and handing over their royal power to the beast, until the words of God are fulfilled.

18 And the woman that you saw is the great city that has dominion over the kings of the earth.”

“Fallen, fallen is Babylon the great! She has become a dwelling place for demons, a haunt for every unclean spirit, a haunt for every unclean bird, a haunt for every unclean and detestable beast.

3 For all nations have drunk the wine of the passion of her sexual immorality, and the kings of the earth have committed immorality with her, and the merchants of the earth have grown rich from the power of her luxurious living.”

4 Then I heard another voice from heaven saying,

“Come out of her, my people, lest you take part in her sins, lest you share in her plagues;

"A Study of Mithraism"

[13 September-23 November 1949]

[Chester, Pa.]

During the first semester of his second year at Crozer, King wrote this paper for Enslin's course on Greek religion. Mithraism, a sect of Zoroastrianism characterized by the worship of Mithra as the defender of the truth, was a monotheistic mystery religion prevalent in the ancient Roman empire before the acceptance of Christianity in the fourth century.

Followers of Mithra became less common after the Roman emperors banned their cults, and Christianity gained the popularity once belonging to Mithraism. Enslin gave the essay an A and wrote: "This is an exceedingly good paper. You have given a very complete picture of the essential details and you have presented this in a balanced and restrained way. And furthermore you know how to write. You should go a long way if you continue to pay the price."

The Greco-Roman world in which the early church developed was one of diverse religions. The conditions of that era made it possible for these religions to sweep like a tidal wave over the ancient world. The people of that age were eager and zealous in their search for religious experience. The existence of this atmosphere was vitally important in the development and eventual triumph of Christianity.

Mystery Babylon The Great-er London

These many religions were not alike in every respect; to draw this conclusion would lead to a gratuitous and erroneous supposition. But it is to be noticed that they possessed many fundamental likenesses;

- (1) All held that the initiate shared in symbolic (sacramen-tal) fashion the experiences of the god.
- (2) All had secret rites for the initiated.
- (3) All offered mystical cleansing from sin.
- (4) All promised a happy future life for the faithful. ⁴⁴

It is not at all surprising in view of the wide and growing influence of these religions that when the disciples in Antioch and elsewhere preached a crucified and risen Jesus they should be regarded as the heralds of another mystery religion, and that Jesus himself should be taken for the divine Lord of the cult through whose death and resurrection salvation was to be had.

It is at this point that we are able to see why knowledge of these cults is important for any serious New Testament study. It is well-nigh impossible to grasp Christianity through and through without knowledge of these cults.

That there were striking similarities between the developing church and these religions cannot be denied. Even Christian apologist had to admit that fact. For an instance, in the mystery-religions identification between the devotee and the Lord of the cult was supposed to be brought about

⁴⁴ \[Footnote:] Enslin, Christian Beginnings, pp. 187, 188.\

Mystery Babylon The Great-er London

by various rites of initiation; the taurobolium, or bath of blood; the eating of flesh of the sacrificial beast and the like.

Now there was something of this in Paul too, for he thought of the believer as buried with Christ in baptism and as feeding upon him in the Eucharist. This is only one of many examples that I could give to prove the similarity between the developing Christian Church and the Mystery Religions.

This is not to say that a Saint Paul or a Saint John sat down and copied these views verbatim. But after being in contact with these surrounding religions and hearing certain doctrines expressed, it was only natural for some of these views to become a part of their subconscious minds. When they sat down to write they were expressing consciously that which had dwelled in their subconscious minds. It is also significant to know that Roman tolerance had favoured this great syncretism of religious ideas. Borrowing was not only natural but inevitable.

One of the most interesting of these ancient cults was Mithraism, which bore so many points of resemblance to Christianity that it is a challenge to the modern student to investigate these likenesses and learn more about them. Mithraism is perhaps the greatest example of paganism's last effort to reconcile itself to the great spiritual movement which was gaining such sturdy influence with its purer conception of God. \[Footnote:] Dill, Roman Society From Nero to Marcus Aurelius, p. 585. \ Ernest Renan, the French philosopher and Orientalist, expressed the opinion that Mithraism would have been the religion of the modern

world if anything had occurred to halt or destroy the growth of Christianity in the early centuries of its existence. This section follows closely Halliday, p. 282. All this goes to show how important Mithraism was in ancient times. The present study represents an attempt to provide a survey of the general character of the Mithraic religion. The main source of reference for this study was the magnificent work of Cumont. In order to give a comprehensive picture of this mystery cult, I will discuss four points:

- (1) The origin and dissemination of Mithraism
- (2) The doctrines of Mithraism
- (3) The liturgy of Mithraism
- (4) The influence of Mithraism on Christianity

The Origin and Dissemination of Mithraism

The history of Mithraism lies deep in the roots of the past. Documents which belong to the fourteenth century before Christ have been found in the Hittite capital of Boghaz Keui, in which the names of Mithra, Vanuna, Indra, and the Heavenly Twins are recorded.

It is also known that they were written long before the separation of the Indian and Iranian races. But to give the exact origin of this cult and to determine exactly where Mithra came from would be merely conjecture.

Many have held the opinion that Mithra came originally from the high plateaus of the Hindukush; and the differences in his nature, when he is found later in India and Iran, were due to environmental influences in the two distinctly different areas. In the Vedas Vedas: the four collections of

the sacred literature of the Aryans. These hymns, prayers, and liturgical formulas are the foundations of Vedic Hinduism.

DOPR. he was associated with Varuna "Varuna is the supreme cosmic deity and guardian of the cosmic order...[he] is the Vedic equivalent of the Avestan Ormuzd. Horse sacrifices and the soma were originally offered to him." DOPR and was invoked together with him as a light god. The Iranians, however, placed Mithra in the position of Archangel. Although Ahura Mazda "Ahura Mazda:

In the Zoroastrian religion Ahura Mazda, which means Lord of Knowledge, was the beneficent Spirit of Good, leader of the powers of light, his other name was Ormuzd." DOPR was the supreme god, he created Mithra equal to himself and made him chief among the yazatas. "Yazatas:

In Zoroastrian religion, the divine powers of lower rank than Ahura-Mazda and the Amisha Pentas." DOPR Evidence of his exalted position lies in the fact that the longest yasht, "Yashts: In Zoroastrian religion, these were Avestan hymns of praise, glorifying the divine Zoroastrian beings.

Some of these deities, particularly Tishtrya, Mithra, and Anahita, were ancient Iranian deities." DOPR eight times longer than that in honour of Ahura Mazda, is dedicated to Mithra⁴⁵.

⁴⁵ \[Footnote:] Dhalla, History of Zoroastrianism, p. 183.\

He possessed many attributes, the most important being his office of defender of truth and all good things.

In the Avesta, \[Footnote:]

This is the sacred book of the religion of Iran.

\ Mithra is represented as the genius of celestial light.

He emerges from the rocky summits of eastern mountains at dawn, and goes through heaven with a team of four white horses; when the night falls he still illumines the sur-face of the earth "ever walking ever watchful." He is not sun or moon or any star, but a spirit of light, ever wakeful, watching with a hundred eyes. He hears all and sees all: none can deceive him.

\[Footnote:] Cumont, Mysteries of Mithra, pp. 2, 3.\

Mithra was the god of wide pastures and the giver of gifts. He was worthy of sacrifice and worship and desired the respect and prayer of the faithful, on whom he bestowed bounteous gifts.

On the other hand, he was a warrior of violent and bitter nature; the forces of evil were his enemies, and he joined with Sraosha (Obedience) and Rashnu (Justice) in opposing them.

The fame of Mithra spread as the Persian empire expanded, and he became particularly strong in Asia Minor. Many of the Persian Kings grew very fond of Mithra and sponsored worship of him.

Mystery Babylon The Great-er London

It was during this time that the worship of Mithra developed into an independent religion. It is interesting to know that as Mithraism was spreading through the Persian empire, it was constantly borrowing ideas from other cultures.

When it came in contact with Semitic star worship, it assimilated much of it as well as some of the mythology of Chapter 2 - Rome in London & Temple Mithras ancient Babylon.

I removed a footnote which referred to King's source -- Dhalla, p. 302. CC Also the cult incorporated many local practices and ideas from Asia Minor. Finally it was influenced to a certain extent by Hellenistic culture.

After having consolidated its theology and drawing into its ranks x many converts in Asia Minor and Persia, Mithraism had almost reached its climax. It was, however, the latest religion of its kind to become popular in the Roman empire.⁴⁶

The greatest agency of propagation of Mithraism was the army.

Under the Roman policy of conscription troops from conquered lands were sent to serve in other parts of the empire. Among the forces which were drawn up in that fashion were soldiers from such places as Cappadocia, Commagene, Pontus and Armenia, where Mithraism was

⁴⁶ \[Footnote:] Mithraism was not popular in the Roman empire until ca. A.D. 100.\

Mystery Babylon The Great-er London

extremely popular. When these men were sent out to foreign outpost to serve in the Roman army they did not forget their religious customs. Converts were quickly gained within the army. King's source is Dhalla, p. 302 Evidences of the diffusion of Mithraism by the army has been found in Scot-land, Africa, Spain, Germany, and almost every locality where Roman troops were sent.

A second means of spreading Mithraism in the empire was through slaves who were sent to Italy from Asia Mi-nor. Many of these slaves became public servants in the great bureaus of the government. It was these slaves who were missionaries for Mirtha in Italy and who practiced his mysteries in the very heart of the Roman world.

There was a third group which spread the Mithraic religion. This group consisted of Syrian merchants who established trading posts throughout the empire. Cumont is of the opinion that most of these Syrians belonged to the upper classes and were not the true worshippers of Mithra.

He argues that it was the slaves and servants of these merchants who were followers of Mithra; and they introduced the religion to the inhabitants of maritime towns where their masters engaged in trading.⁴⁷

The great expansion of Mithraism in the ancient world can be traced to these three sources in almost every case. The slaves were forever looking for a better day, and they

⁴⁷ \[Footnote:] Cumont, op. cit., p. 63.\

Mystery Babylon The Great-er London

believed that through worshipping Mithra that day would eventually come.

As for the soldiers they found Mithraism very appealing because it offered them the protection of a deity who they believed would help them to be victorious in combat. After seeing these facts it is very easy to understand why these worshippers were so zealous in spreading their religion. It was a part of their total make-up. To argue that many were drawn into this cult through curiosity alone is certainly an unwarranted assumption. To be sure, the initiatory rites (as we will see later in the paper) were so strenuous that only the sincere and earnest converts would have wished to take part in them.

After the cult became popular throughout the Roman Empire, it received many converts from the upper classes. It had been spread by slaves and freedmen for the most part, but it did {not} remain a religion of the lower classes alone. As stated above, even the emperors gave it their approval.

Whether the religion of Mithra gained great influence in Greece is still under discussion by many scholars. There seems to be many conflicting statements about this question. Cumont writes, "It may be said, in a general way, that Mithra remained forever excluded from the Hellenic world. The ancient authors of Greece speak of him only as a for-eign god worshipped by the kings of Persia."

Mystery Babylon The Great-er London

⁴⁸Dhalla says that Mithra "is the only Iranian divinity who won popularity for himself in Greece."⁴⁹

George Foot Moore says of Mithraism that "it never took root in the lands of Hellenistic culture."⁵⁰

The majority of opinions seem to support the fact that Mithraism was excluded from Hellenized countries. It is probable that the name of Mithra was well-known in these lands, but the inhabitants declined to worship him.

The worship of Mithra, which had had its very first introduction into the western part of the empire only a short time before the birth of Christ and had not begun to expand until the end of the first century, became widespread and popular in a remarkably short time. It was during the same period, of course, that Christianity was beginning to develop and reach out into new territories. The question immediately arises, why did the two religions not conflict?

One reason that the two religions did not conflict in the early years of their growth in the Roman Empire is that their activities for a while took place in different geographical areas. Another reason why these religions did not clash with each other was because each thought the other was too insignificant for serious competition. It is apparent, therefore, that geographically and socially these religions did not clash for a while. have been synthesized in the scholarly work of Cumont. From this work we are

able to get with a degree of certain-ty the mythological and eschatological teaching of this cult. For the moment let us look into these teachings.

First we turn to the cosmogonic views of Mithraism. It is interesting to know how Mithraic preachers sought to explain the origin of the world. They explained it in terms of a series of successive generations. The first principle be-got a primordial couple, the Heaven and the Earth; and the Earth, who was impregnated by her brother, gave birth to the vast Ocean. This group formed the supreme triad of the Mithraic Pantheon.

At times these cosmic divinities were personified in quite different names from their original ones. The Heaven was called Ormazd or Jupiter, the Earth was identified with SpentA-Armaiti or Juno, and the Ocean was called Apam-Napat or Neptune.

As was stated above, Jupiter (Heaven) and Juno (Earth) were the sovereign couple. They gave birth not only to Neptune (Ocean) who became their peer, but to many other immortals. Shahrivar or Mars, Valcun or Atar, Bac-chus or Haoma, Silvanus or Drvaspa, Diana or Luna are but a few of the long line of immortals. These innumerable multitude of divinities composed the celestial

court.⁵¹ This in short sums up the cosmogonic views of the Mithraic religion.

⁵¹ \[Footnote:] Cumont, op. cit., pp. 111, 112.\

The doctrine of the immortality of the soul was another view which was very prominent in Mithraism.

The Doctrines of Mithraism

Unfortunately, there is practically no literary evidence for the inner history of Mithraism. A few scattered facts may be gathered from the remains of Christian polemics, a great deal of information about the overall character of the ideas to which they gave expression may be gotten from the writings of Neo-Platonists and a close examination of mystical papyri. Fortunately, these numerous monuments Mithraism insisted that the soul was immortal and its temporary sojourn in a body was a period of trial. The worshipper's action determined the posthumous fate of his soul. Of course, he was not alone in his attempt to attain purity and truth; Mithra stood by his side as a divine helper.

The background of Mithraic eschatology was provided by that theory of the relation of the soul to the universe. It was believed that the soul descended at birth {from} the eternal home of light through the gate of Cancer, passing down through the seven planetary spheres to earth. As the soul passed through each stage it accumulated more and more impurity. It was possible for the initiate, while in his trial period on earth, to gain purity through the practice of courage and truth.

After death there was judgment of the soul. Mithra, the protector of the truth, presided over the judgment court. If the soul had lived an impure life, it was dragged down to the infernal depths, where it received a thousand tortures. If, on the contrary, its good qualities outweighed the bad, it

Mystery Babylon The Great-er London

rises through the gate of caprocorn, passing in reverse order through the planetary sphere. At each stage the impurities which the soul picked up in its downward flow gradually diminished. The end of this great rise was supreme happiness and eternal bliss.

The doctrine of resurrection of the flesh was also a basic belief in the Mithraic circle. It was believed that the long struggle between the principles of good and evil would one day end. At this time a great bull would reappear on earth; and Mithra would redescend and reawaken men to life. All would come forth from the tombs with the same appearance they had on earth.

All mankind would unite into a great union, at which time the god of truth would separate the good from the bad. Then the great bull would be sacrificed. The fat of this bull would be mingled with the consecrated wine, and would be offered to the just. From this they would receive immortality.

After this great event, Jupiter-Ormazd would cause a great fire to fall from heaven which would destroy all the wicked. The Spirit of Darkness would be completely destroyed. The universe would then enjoy eternal happiness and peace.

There was another doctrine which remained fundamental to Mithraism throughout its history. It was the doctrine of dualism. This doctrine was taken from Zoroastrianism.

This doctrine accounted for the problem of evil by supposing that the world was a battleground between the

Mystery Babylon The Great-er London

Good Principle, Ahura Mazda, and the Evil Principle, Ahriman. The powers of good were identified with Light or Day, and the powers of evil were identified with Darkness or Night. These two powers were in a state of perpetual war.

It was Mithra, the spirit of light and truth who became naturally a celestial warrior on the side of Ahura Mazda.⁵² It was many of these doctrines that became very influential in later years to the Christian religion. They moulded the thinking of the ancient world.

Mithraic Liturgy

According to a text of St. Jerome, there were seven degrees of initiation which the Mithraic convert passed through. At each stage he assumed a different name:

- (1) Raven,
- (2) Occult,
- (3) Soldier,
- (4) Lion,
- (5) Persian,
- (6) Runner of the sun,
- (7) and Father.

⁵² \[Footnote:] Halliday, The Pagan Background of Early Christianity, pp. 285, 286.\

Mystery Babylon The Great-er London

It is probable that there were slight variations of names of the grades from East to West. Each grade had its appropriate mask and costume.

The taking of the first three degrees did not authorize the status of full participation in the Mysteries. These initiates were called the Servants.

Only the Mystic who had received the Leontics could become a "Participant". At the top of this structure were the Fathers, who probably presided over the sacred ceremonies and had command over the lower classes.

It was possible to enter the lowest grades at infancy. Whether or not the initiate had to remain in each grade for a fixed length of time is not known. Cumont is of the opinion that the Fathers decided when the initiate was sufficiently prepared to move to the higher grade.

\\[Footnote:] Cumont, op. cit., p. 156.\\

One of the prominent features in the ceremony of initiation was the sacrament (sacramentum) or military oath of loyalty to the service of the god and to the fellow members of the brotherhood.

In this oath the initiate promised to depart from certain sins and follow a life of moral behavior. Moreover, he promised not to reveal to the uninitiated the rites and knowledge he was about to learn. Halliday,

Pagan Background, p. 303: "the sacramentum of a pagan sect included an oath of secrecy and a promise not to re-

Mystery Babylon The Great-er London

veal to the uninitiated the rites and knowledge which the neophyte is about to behold and learn."

Although our knowledge of the liturgy of Mithraism is inevitably fragmentary, we know that there was a form of baptism designed to wash away the sins of the initiate.

This rite was probably carried out by sprinkling holy water, or in an actual immersion. At another stage in the development the initiated was sealed with a brand in his fore-head. It appears that this mark was burned with a red-hot iron. This ineffaceable imprint was always a reminder to the initiate of what he had vowed. In the grade of soldier, the initiate was offered a crown which he caused to fall on his shoulder, saying that Mithra was his only crown. In the grade of Lion, the initiate's tongue and hands were purified with honey.

Another important Mithraic ceremony was the celebration of a communion service which was in memory of the last meal which Helios and Mithra partook together upon earth. Here the celebrant took consecrated bread and mingled it with the juice of Haoma. It is quite obvious that only the initiate who had attained the degree of Lions could take this communion.

The worship services were carried on in chapels or Mithraea. These chapels were technically called "caves" spelaea. They were probably called "caves" because they were either constructed in natural caves or in subterranean buildings.

Mystery Babylon The Great-er London

In most of the Mithraea there was a portico which led into a second sacristy, where the ritual dresses were probably kept. Beyond the sacristy lay the shrine. It was here that most of the ritual was performed.

On each side were benches where the new converts were probably seated. At the end of the building there was an apse, in which stood the relief of Mithra slaying the bull. It is probable that this was veiled with curtains.

The walls of the building were very fascinating; they were covered with paintings and mosaics of mystical designs.

The worship period was conducted by the priest, who bore the title of sacerdos. The priest was considered the intermediary between God and man. It was his duty to administer the sacraments.

He also presided at the formal dedications. He probably had to see that a perpetual fire burned upon the altars. He addressed a prayer to the sun three times a day, at dawn, at noon, and at dusk. This, in short, gives the overall function of the priest.

It was a characteristic of Mithraism to be organized in small and apparently independent communities. In this community the individual had a right to hold property. For the management of the affairs of the community, officers were selected.

The officers were masters (magistri) or president, the curators (curatores), the attorneys (defensores), and the patrons (patroni).

Mystery Babylon The Great-er London

Mithraism possessed a characteristic that was unique and which for a time may have been an asset but in the end was probably a weakness.

It was a cult for men only. In some cases young boys were taken into the lower orders, but under no circumstances were women admitted.

Women were compelled to seek salvation in some other cult, for Mithraism excluded them entirely. "It has been surmised that the frequent juxtaposition of Mithraea (places of worship) and temples of the Magna Mater was due to the fact that the wives and daughters of the Mithraists were addicted to the worship of the latter."

\[Footnote:] Moore, op. cit., p. 600.\ In the exclusion of women Mithraism missed "that ardent religiosity and fervent proselytism of devout women which had so large a share in pushing the fortunes of Isis and Cybele or in propagating the tenets of Christianity."⁵³

The Influence of Mithraism on Christianity

When Mithraism is compared with Christianity, there are surprisingly many points of similarity. Of all the mystery cults Mithraism was the greatest competitor of Christianity.

The cause for struggle between these two religions was that they had so many traditions, practices and ideas that were similar and in some cases identical.

⁵³ \[Footnote:] Halliday, op. cit., p. 310.\

Mystery Babylon The Great-er London

Many of the similarities between these two religions have already been alluded to, but there are many others of greater or lesser significance.

The belief in immortality, a mediator between god and man, the observance of certain sacramental rites, the rebirth of converts, and (in most cases) the support of high ethical ideas were common to Mithraism as well as to Christianity. In fact, the comparison became so evident that many believed the Christian movement itself became a mystery cult. "Jesus was the divine Lord. He too had found the road to heaven by his suffering and resurrection. He too had God for his father. He had left behind the secret whereby men could achieve the goal with him."⁵⁴

There were many other points of similarity between these two groups. Let us look at a few of them:

- (1) Both regarded Sunday as a holy day.
- (2) December 25 came to be considered as the anniversary of the birth of Mithra and Christ also.
- (3) Baptism and a communion meal were important parts of the ritual of both groups.
- (4) The rebirth of converts was a fundamental idea in the two cults.
- (5) The struggle with evil and the eventual triumph of good were essential ideas in both religions.

⁵⁴ \[Footnote:] Enslin, op. cit., p. 190.\

Mystery Babylon The Great-er London

- (6) In both religions only initiates who passed through certain preliminary phases of introduction were admitted to the mysteries which brought salvation to converts.

There were many more similarities between Christianity and Mithraism--most of them purely superficial. These which have been mentioned are largely only surface likenesses because the reasoning behind them is quite different, but the general effect is almost startling.

The sacraments of baptism and the eucharist have been mentioned as rites which were practiced both by Christians and pagans. It is improbable, however, that either of these {were} introduced into Christian practices by association with the mystery cults.

The baptismal ceremony in both cases (Christian and mystery) was supposed to have the effect of identifying the initiate with his saviour. But although baptism did not originate with the Christians, still it was not copied from the pagans.

It seems instead to have been carried over from Jewish background and modified by the new ideas and beliefs of the Christians.

The Eucharist, likewise though similar in some respects to the communion meal of Mithraism, was not a rite borrowed from them. There are several explanations regarding the beginning of the observance of the Lord's Supper. Some held that the sacrament was instituted by Jesus himself.

Mystery Babylon The Great-er London

Others saw it as an out-growth from Jewish precedents. Still others felt that, after the death of Jesus, the disciples saw in their common meal an opportunity to hold a kind of memorial service for him.

On the whole, early Christians were not greatly concerned about the likenesses between the Mithraic cult and their own. They felt at first that these competitors were not worthy of consideration, and few references to them are found in Christian literature.

When Mithraism became widespread and powerful, it attracted so much attention that certain Christian apologists felt the need to present an explanation for the similarities in their respective characteristics.

The only one they could offer was quite naive, but it was in keeping with the trends of thought in that age. They maintained that it was the work of the devil who helped to confuse men by creating a pagan imitation of the true religion.

The greatest influence of Mithraism on Christianity lies in a different direction from that of doctrine and ritual. It lies in the fact that Mithraism paved the way for the presentation of Christianity to the world of that time.

It prepared the people mentally and emotionally to understand the type of religion which Christianity represented. It was itself in varying degrees, an imperfect example of the Galilean cult which was to replace it.

It encouraged the movement away from the state religions and the philosophical systems and toward the desire for

Mystery Babylon The Great-er London

personal salvation and promise of immortality. Christianity was truly indebted to Mithraism for this contribution, for it had done this part of the groundwork and thus opened the way for Christian missionary work.

Conclusion

That Christianity did copy and borrow from Mithraism cannot be denied, but it was generally a natural and unconscious process rather than a deliberate plan of action. It was subject to the same influences from the environment as were the other cults, and it sometimes produced the same reaction. The people were conditioned by the contact with the older religions and the background and general trend of the time.

Many of the views, while passing out of Paganism into Christianity were given a more profound and spiritual meaning by Christians, yet we must be indebted to the source. To discuss Christianity without mentioning other religions would be like discussing the greatness of the Atlantic Ocean without the slightest mention of the many tributaries that keep it flowing.

⁵⁶The Temple of Mithras, Walbrook is or was a Roman temple whose ruins were discovered in Walbrook, a street in the City of London, during rebuilding work in 1954. It is perhaps the most famous of all twentieth-century Roman discoveries in the City of London.

⁵⁷The Bank of England, formally the Governor and Company of the Bank of England, is the central bank of the United Kingdom and the model on which most modern central banks have been based.

Established in 1694, it is the second oldest central bank in the world, after the Sveriges Riksbank, and the world's 8th oldest bank. It was established to act as the English Government's banker, and is still the banker for the Government of the United Kingdom. The Bank was privately owned by stockholders from its foundation in 1694 until nationalised in 1946.

The Bank's headquarters have been in London's main financial district, the City of London, on Threadneedle Street, since 1734.

It is sometimes known by the metonym The Old Lady of Threadneedle Street or “The Old Lady”, a name taken from the legend of Sarah Whitehead, whose ghost is said to haunt the Bank's garden

with mistress or kept woman. Off course kept woman is another appropriate term because that is what a bank is, when you pay interest along with fees these days. She is kept!

The Old Lady, is a model for all other banks world-wide! Could it be that she is the Harlot and the mother of Harlots as the Holy Bible says?

Chapter 3 - History of Modern Babylon

Cycle Analysis

Mystery Babylon The Great-er London

Babylon the Great - London. Off course we know the city of London is Greater London housing over 9,000,000⁵⁸ people.

Greater London was formally named Greater London when it was created by the London Government Act 1963, which came into force on 1 April 1965.⁵⁹

As there is a definitive date we should find that if God is against this City if it is the Mystery Babylon- Babylon the Great. The cycle analysis should prove this.

We will use Jupiter and Mercury because Jupiter is the 666 clock in the Musical Clock called our Solar System which will be proven later. Jupiter was worshipped in London in the early to middle ages.

Also Mercury was a god they were worshiping in the Temple of Mithras of London. Starting date will be midday on the 1st of April 1965. It should match close to 180 degrees Opposition to the 23rd of September 2017 when the Virgo gives Birth to the 671 week planet Jupiter. This is the sign in Revelation 12 versus 1& 2. Take of 5 weeks for Grace / Death or Grace over Death then you are left with the change and cycle warning of 666 weeks. $(671-5) = 666$.

This is Woe two according to Revelation 9 & 12.

However there is another sign before this one and that is WOE:1. This will be on the 8th November 2015. When

⁵⁸ http://en.wikipedia.org/wiki/Greater_London

⁵⁹ http://en.wikipedia.org/wiki/Greater_London

Jupiter bruises his Heel. We will look at this in the next chapter.

To my surprise, Jupiter cycle it not only fitted with September 2017 but also with the 6-8 of March when the 1260 days are finished in Revelation 12.

3.0 Table Mercury & Jupiter 2017 Match

Axis	Planet	Longitude	Date	Hour	Minute
425	Mercury	132°27'24.106"	6/28/2017	15	23.79
	Jupiter	204°25'33.200"

429	Mercury	145°59'37.937"	12/24/2017	3	10.82

The above cycles of Jupiter and Mercury matches on the 25th of September 2017 which is a Monday and business starts on a Monday for the western world. I.e. it is the first day of trading and banking after the “New World Order” beast is born at 7:36AM on the Saturday the 23rd of September 2017 Israeli time. It needs to be on a weekend, as that is when the Western Central Banks are closed and therefore the best time to introduce new Policies and Systems worldwide.

Greater London which is the home for the Bank of England, the Stock Exchange, and the Temple of Mithras that the Original Bank of England was built over, and the London Museum keeps the Harlots/Royal Cup on display.

God has Identified that the Great City, London, is Babylon the Great, the Harlot, is the Bank of England. In addition, God is against it all, it is moving away from God in a 180-degree direction, to God.

In Wikipedia link below is a small interesting video about the original Babylon.⁶⁰ Interesting in terms of worship was the following Statue of the Goddess of Love. Also this has two Owl's. This is not so much a common aspect that is referred too much in Modern times.

V 2 And he called out with a mighty voice,

“Fallen, fallen is Babylon the great! She has become a dwelling place for demons, a haunt for every unclean spirit, a haunt for every unclean bird, a haunt for every unclean and detestable beast.

10 They will stand far off, in fear of her torment, and say, “Alas! Alas! You great city, you mighty city, Babylon! For in a single hour your judgment has come.”

Mystery Babylon The Great-er London

11 And the merchants of the earth weep and mourn for her,
since no one buys their cargo anymore,

12 cargo of gold, silver, jewels, pearls, fine linen, purple
cloth, silk, scarlet cloth, all kinds of scented wood, all kinds
of articles of ivory, all kinds of articles of costly wood,
bronze, iron and marble,

13 cinnamon, spice, incense, myrrh, frankincense, wine,
oil, fine flour, wheat, cattle and sheep, horses and chariots,
and slaves, that is, human souls.

14 “The fruit for which your soul longed has gone from
you, and all your delicacies and your splendours are lost to
you never to be found again!”

15 The merchants of these wares, who gained wealth from
her, will stand far off, in fear of her torment, weeping and
mourning aloud,

16 “Alas, alas, for the great city that was clothed in fine
linen, in purple and scarlet adorned with gold, with jewels,
and with pearls!

17 For in a single hour all this wealth has been laid waste.
And all shipmasters and seafaring men, sailors and all
whose trade is on the sea, stood far off

18 and cried out as they saw the smoke of her burn-ing,
“What city was like the great city?”

19 And they threw dust on their heads as they wept and
mourned, crying out, “Alas, alas, for the great city where

Mystery Babylon The Great-er London

all who had ships at sea grew rich by her wealth! For in a single hour she has been laid waste.

20 Rejoice over her, O heaven, and you saints and apostles and prophets, for God has given judgment for you against her!”

21 Then a mighty angel took up a stone like a great millstone and threw it into the sea, saying, “So will Babylon the great city be thrown down with violence, and will be found no more;

22 and the sound of harpists and musicians, of flute players and trumpeters, will be heard in you no more and a craftsman of any craft will be found in you no more, and the sound of the mill will be heard in you no more,

23 and the light of a lamp will shine in you no more, and the voice of bridegroom and bride will be heard in you no more, for your merchants were the great ones of the earth, and all nations were deceived by your sorcery.

24 And in her was found the blood of prophets and of saints and of all who have been slain on earth.

Verse two I think we have dealt with.

Verse 11 to 13 All the merchants weep England is a Great Trading house and has been for more than two thousand years. Also there is 60-70 million people living in the UK.

List of stocks/company and their wares that are traded on the FTSE Shock Exchange would fill this book easily.

49London Stock Exchange Group

Mystery Babylon The Great-er London

Reprinted the first paragraph of their website. “London Stock Exchange Group (LSE.L) sits at the heart of the world’s financial community. The Group operates a broad range of international equity, bond and derivatives markets, including London Stock Exchange; Borsa Italiana; MTS, Europe's leading fixed income market; and Turquoise, offering UK and Russian derivatives trading, pan-European and US lit and dark equity trading. Through its markets, the Group offers international business unrivalled access to Europe’s capital markets.

Did you notice the owls in the picture? You can find an owl on the American greenback \$1.00 note. I see the owl popping up more and more in people’s homes including Christian homes as they think they are a nice decoration they do not realise what they actually mean.

Dark trading is what the managed funds trade into and out of. This way their massive buying and selling are not affecting the everyday buying and selling of equity shares on each index. (stock indexes).

Now within that it is easy to visualise verse 11-13. Verse 14 -19 are saying the people of Earth are going to be distressed because no longer will they have a system to trade with easily. However, what will happen is their companies stock values worth into the trillions will all of a sudden be worthless. Now to the people have not or have been hurt by this system it will be a happy day but for most they will be very miserable.

Verse 20 Saints, Apostles and Prophets be happy this financial beast is no more.

Mystery Babylon The Great-er London

Verse 22 is in reference to Court Jesters and to the Royal Cup in Chapter 7 where there is music being played along with Dancers ribbons and so on. London is full of Colour and various musician and street performers.

Verse 23. Well the London Stock Exchange and the London Bank of England will cease to exist!

No more celebrations good and not so good and no more people as well. The second part of this verse is particularly interesting and matches' up with the first paragraph of the London Stock Exchange Group (LSE.L)50

The first item and reason the Bank of England was, was to issue a Bank note. 1.2 Million Pound in 1690 was is-sued and the bank of england had 12 investors.

The government spent that money on rebuilding its navy as we read before. What this also meant is that as soon as the bank had money it spent it. If those 12 investors wanted their money back the next day, it would have bankrupted the bank. Therefore, immediately the bank became an IOU organisation. IOU (as I owe you). From day one!

Since that time as people and population has grown and the Empire grew, when more and more IOU's were created.

United States - Board of Governors of the Federal Reserve System

From these 13 Jurisdictions are an additional 34 banks participating in the Triennial reporting.⁶⁴ (there's that Tri-thing again)!

The number 13 is a change number. People do not like number 13 because things change at number 13. These 13 Jurisdictions I have no doubt will change.

In the next chapter we share some light on how cycles change on Earth, in Astrology & Astronomy and everywhere else the Law of Vibration and Harmony exists.

Chapter 4 – Bruising of the Heel

There is an alignment on the 8th November 2015 that everyone has missed at this point in time including myself I

⁶⁴ http://www.bis.org/publ/otc_hy1311.pdf

Mystery Babylon The Great-er London

realised it at the end of September 2015 just 40 days before it is about to happen.

This alignment is incredibly important and to demonstrate that God is using four Constellations out of the normal 12 therefore it is $\frac{1}{4}$ of the immediate night sky or 25%. These constellations are Leo the Lion, Virgo, The Scales and the Scorpion!

This alignment if the first alignment to square out or balance out the transgressions made in the Garden of Eden.

Genesis 3 v 15 And I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel.

4.0 8th November 2015 Alignment

Mystery Babylon The Great-er London

Working backwards then the bruising of his heel must come true first. As you can see by the chart Jupiter is

Mystery Babylon The Great-er London

bruising LEO the Lion heel first. Then it moves on to become the object that is Virgo's or "The undefended Ones" gives birth to after being in her womb for 43 weeks.

Again as stated before the cycle change number for Jupiter is 671 weeks less 5 for Grace of Death is 666 weeks. As this is a Major Planet the change is going to be massive.

Looking at the woman, Mars being Man is involved but Mars is also the Roman god of war. Trouble is on its way!

Then we have Venus so Woman is involved as well.

The Moon is involved and the moons number is 18 or 6+6+6 which means there is a cycle change coming up. The Moon is the minor 666 cycle. I.e. Ezekiel 1 Wheel within a Wheel.

¹⁶ The appearance of the wheels and their work was like unto the colour of a beryl: and they four had one likeness: and their appearance and their work was as it were a wheel in the middle of a wheel.

At her feet is mercury with is poison, and God is going to seal up the poison that is being leaked into the North Pacific and he will seal it up so it stops destroying the world in which we live. Offcourse I am talking about Fukushima Japan. Jeremiah 51 v 25

25 Behold, I am against thee, O destroying mountain, saith the Lord, which destroyest all the earth: and I will stretch out mine hand upon thee, and roll thee down from the rocks, and will make thee a burnt mountain.

Mystery Babylon The Great-er London

The chapter is talking about Babylon but I think there is a joint meaning in God fixing Fukushima because if he does not fix it, then indeed it will eventually kill everything by nuclear radiation.

Next we have the Sun in the Scales, the Sun's number is 19 and its Satan's Trump Card in the Tarot's.

4.1 The Sun NO:19 Satan's trump card.

Mystery Babylon The Great-er London

The Sun (number 19) in the scales is changing the balance of things!

Next we have the Scorpion and the Planet Saturn is in Scorpion on its left side near the heart of the matter. Saturn is Satan's planet.

As you can see we have four constellations in play. This is a very important time in SPACETIME – THE LORD GOD ALMIGHTY IS BALANCING OUT OR SQUARING OUT PART OF GENESIS 3V15!

This squaring out has taken 5495⁶⁵ years to come too. Don't think God is not going to do it. He is and He has too, to make all things in order Legally, Morally, Ethically and Financially!

Yes Financial as Jesus died that a debt would be paid for all of us because we all fell short of the mark of the high calling of Jesus & God & Holy Spirit.

When Adam and Eve fell God said to Adam that 5&1/2 days will pass before they will be risen from the dead. A day in God's Eternal frame is 1000 years there 1&1/2 days is 5,500 years, This expires 1260 days after Virgo or the Undefended maiden gives bith, which is 23/09/2017 Plus 1260 days in Space-time brings on to the 8-9th of March 2021.

What will happen on the 8th November 2015?

⁶⁵ <http://revampyourmind.com/books/>

Mystery Babylon The Great-er London

A lot a real lot! Revelation 9, Apollyon will come through the Star Gate being CERN in Geneva. Trumpets 1 to 5 and maybe 7 and Isaiah 24 v 20 and 1st Thessalonians 5 v3. Should all be fulfilled.

This Author has a lot about this on his website following are a few links for your perusal, and then we turn to something most people on Earth do not know and that is how cycles change!

Alignment 25th November 2015

This is the date that the Woman in Heaven gets pregnant and the Heel of the Snake Charmer (Arabic Constellation) is struck by Planet Saturn or Satan's Planet.

Indeed the book ends of Genesis 3 and Revelation 12 are coming together.

Chapter 5 – How Cycle Change

This is now an age-old question, I certainly would have liked to figure this out.

However, I read the books from Bradley Cowan and it is to him credit must be given for simply explaining how cycles change.

The vast majority over 99% of the Brokers, Lawyers, Accountants, Insurance Agents, Financial Planners, Financial Advisers, Finance Advisers, Economists, Market Analysts, do not know YET they provide "financial advice" in one form or another and I was one of them in the past.

That's why clients lose money consistently and why so many Christians lose their life savings when trusting there advisor with their money over time.

The Planets do not go round the Sun in circles with the exception of Mercury which is almost a perfect circle & therefore still a cycle however the cycles still change. All the other planets of our solar System cycles are an elliptical pattern on top of is they also speed up and slow down.

At certain points in their cycles they even appear to be going backwards which is called retrograde motion.

With the outer planets like Uranus and Neptune taking over a human's life span to orbit the Sun, it becomes harder to see the major cycles that is taking effect on the Earth.

Mystery Babylon The Great-er London

For example let's look at the "Impossible Weather Patterns" or are they?

In 1974 March the 11th, I embarked on a ship to Australia from South Hampton in England. We were due to disembark in Brisbane Queensland Australia. We could not due to the massive Floods at that time. We disembarked in Sydney on April the 11th 1974 and stayed there six months and then unbelievably went to the small city of Whyalla in South Australia at its peak it had 37,000 people living there but by 1978 I think it started to decline until 2002 when the mining boom hit. But since then the population has been over 20,000.

On the 24th December 1974 cyclone Tracy hit and flattened Darwin in the Northern Territory. I remember people in January 1975 driving down from Darwin to "escape" the devastation. They had to pay exorbitant petrol prices at Pimba (near the USA's) base at Woomera outback South Australia.

Pimba is approximately a little more than half way from Coober Pedy and Port Augusta. A distance of some 540 of Arid Land and not much in between and therefore one had to fill up the car or be stranded. With temperatures reaching 50 Degree centigrade it is wise to fill up. Although from time to time I would pick up people who had run out of petrol, even people with babies in their cars! Move on to the year 2011 when there were floods in Brisbane (January/February) the worst since 1974 then in December the 26th, 2011 there was a cyclone 200 kilometres from Darwin in the Sea.

Mystery Babylon The Great-er London

When I heard there was a Cyclone of the coast of Darwin, I realised the weather pattern for the whole of 2011 was very close for the whole year to 1974. I decided to do a few minutes research using the Market Analyst Software.

In the Study of W.D. Gann⁶⁶ methodologies he points out that everything is squared out and in balance and he also points out certain areas of support and resistance in Time and Space for example 90 degrees is a strong point in Time and Space.

Knowing that the Lord squares all things out as per W.D.Gann Studies. He makes all things right all things balanced; I knew that one or some of the planets must be 90 degrees from where it was in 1974. For further information on squaring out go to <http://revampyourmind.com/index.php/investing-gods-way/squaring-out-of-time-and-price/>

Here's what I found in the charts 1974 vs 2011. Table 5.0 Position.

Now in 1974 the cyclone struck on Christmas Eve the evening of the 24th December. The Cyclone in 2011 was on Boxing day the 26th of December 2011.

Basically 37 years and 18 hours apart.

5.0 Table 1974 to 2011

⁶⁶ <http://revampyourmind.com/index.php/investing-gods-way/w-d-gann/>

Mystery Babylon The Great-er London

Name	Position 1974 Longitude	Position 2011 Longitude	Difference in degrees
Sun	272.38	272.40	0.02
Moon	33.42	270.20	238.78
Mercury	275.09	250.70	335.61
Venus	284.07	304.70	20.73
Mars	249.66	168.10	278.44
Jupiter	342.13	30.37	48.24
Saturn	106.47	207.78	45.75
Uranus	211.62	0.73	149.11
Neptune	250.18	328.70	78.52
Pluto	189.16	277.06	87.90

Notice how Pluto is almost at 90 Degrees. A corner of a Square and a circle is 90 Degrees. Only 2.1 degrees out. 1974 - 2011 is 37 years yet Pluto takes 248 years to orbit the Sun!⁶⁷

This means Pluto was in a very fast part of its orbit. Another point to notice also is that the displacement factor on the Great Pyramid 2.28 degrees. Relative to the wobble in the Earth's and AAOen Axes among others.

This would easily account for the Cyclone being off the coast of Darwin in 2011 by a couple of hundred kilometres instead of being right on top of Darwin like the cyclone struck Christmas Eve 1974. We add 2.28 displacement factor to 87.90 which adds up to 90.18 degrees. 90 degrees the angle of a corner in a square and a circle.

Pluto had squared out Australia's weather in 1974 and 2011. It will now slow down its speed greatly.

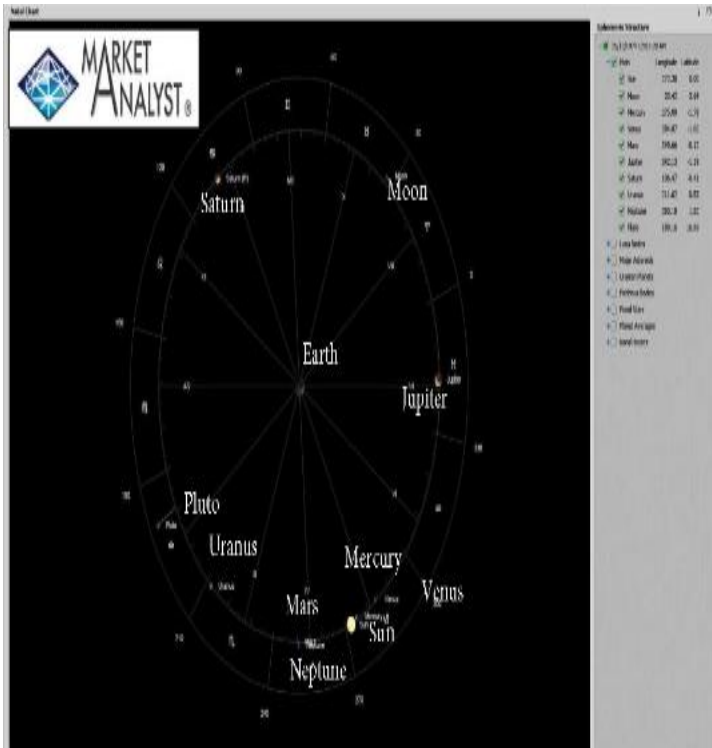

⁶⁷ <http://www.universetoday.com/44191/how-long-does-it-take-pluto-to-orbit-the-sun/>

Mystery Babylon The Great-er London

Hence I believe that Pluto Squares out Australia's Weather on the long term cycle. While Bradley Cowan mentions in his cycle Analysis books that Neptune may square out America's weather.

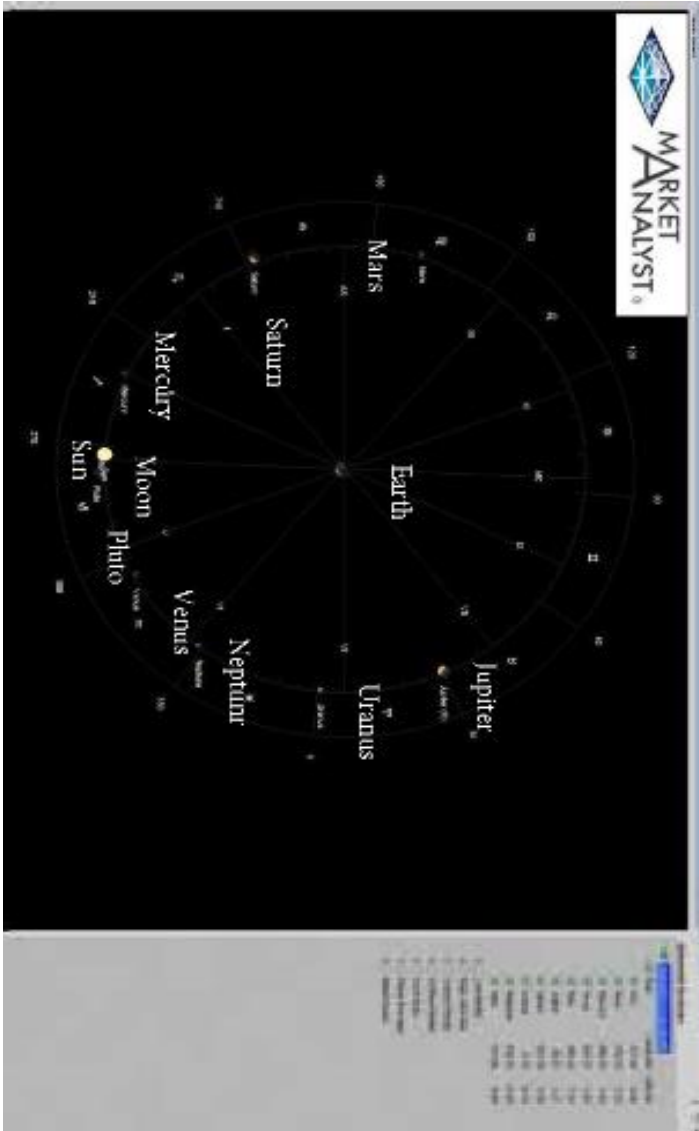

If it were not so then one has to ask the question why were the weather patterns in 2011 very similar to the weather pattern in 1974? I believe this explains why. Understanding this means farmers can predict more accurately droughts and floods and maybe pestilence.

4.1 Chart 1974 Alignment of Planets

Mystery Babylon The Great-er London

4.2 Chart 2011 Alignment of Planets

Mystery Babylon The Great-er London

The above proves that the speed of the planets can change the timing of cycles on Earth, however this is the obvious.

How else do the cycles change has always been a mystery, until one realises and counts the weeks and days it takes for each planet to move through a constellation sign of the Zodiac.

5.3 Table Time to Orbit the Sun

Mystery Babylon The Great-er London

Planet / Star	Time to Orbit	Time of average passage through each Constellation
Sun		
Mercury	88 Days	1 week or 7.3 Days
Venus	225 Days	2.67 weeks 18.75 Days
Moon	13 months to Orbit the Earth	3.9 Weeks 27.275 Days
Mars	687 Days	8.035 Weeks or 56.25 Days
Asteroid Belt Ceres	4.61 years or 1,682.65 days	11.69 Weeks 140.22 Days
Jupiter	619.32 Weeks or 4,336 Days	51.61 Weeks or 361.31 Days
Saturn	29.4 years or 10,755.7 Days	109.75 Weeks or 896.30 Days
Uranus	84 years or 30,687 Days	365.21 weeks or 2,557.25 Days
Neptune	164.69 Years or 60,190 Days	716.55 weeks or 5,015.85 Days
Pluto	247.9 Years or 90,483.5 days	628.35 weeks 7,540.29 Days

The question is what happens or what do we find when we add 1 extra constellation to the previous 12. 1 constellation is 30 degrees $360 + 30 = 390$ degrees.

5.4 Table Total Days & Weeks

As you can see in Table 5.4 by adding 30 degrees or one Constellation sign to each of the planets cycles in table 5.3, this could easily change business and stock market cycles for example and it does.

It also changes when feasts and other celebrations are observed. Notably you can see in the table 5.1 Jupiter cycle has the warning number of Six Hundred and Sixty Six, (666) weeks.

Mystery Babylon The Great-er London

The warning cycle of 666 was not apparent until you add in 30 Degrees of time and space or 47 weeks to its cycle. 619 weeks + 51.61 weeks = 671 Rounded weeks. Then take 5 for Grace or Grace over Death.

Therefore the 13 in Jupiter's cycle adds on 30 degrees of Time and Space SPACETIME and its cycle becomes the warning cycle of 666 weeks.

This is why cycles change, while you think things will or may return to how they were (in business or life or stock markets for example), which they may do, but not quite, it may well be in 30 degrees difference in SPACTIME

This is because the 30 Degrees of time and space has moved the cycles, which may take many years to hundreds of years or even thousands of years to repeat once again.

Sometimes the planets are moving quickly sometimes slowly, which adds to the complexity of the Musical Clock, our Solar System see Appendix A - The Solar System being a Musical Clock.

After all if all the above changes in the table 5.3 did not happen, it would be fairly boring life and clock!

God has displayed his Majesty with this beautifully Orchestrated Clock called our Solar System and with the rest of the universe.

This concludes how cycles change then we move on to the Ten Horns of the despicable beast. People are involved but it is the system that is despicable and therefore our analysis is of Mystery Babylon The Great-er London and the

Mystery Babylon The Great-er London

systems that are built around the world that support the despicable system of the despicable beast. The Ten Horns have been a mystery for a long time until this author figured them out as it were in the next chapter.

Chapter 6 – Ten Horns

There are 10 Horns in the scriptures as mentioned in the Prelude. 3 of these 10 horns will be no more and be replaced with a little horn which will be allowed to rule and reign for 1260 days it says in Revelation 12. This should or may happen between now and 7:36am on Saturday the 23rd of September 2017.

Then I desired to know the truth about the fourth beast, which was different from all the rest, exceedingly terrifying, with its teeth of iron and claws of bronze, and which devoured and broke in pieces and stamped what was left with its feet and about the ten horns that were on its head Iron Monster next page, I wonder if he saw something like this dragon, Iron is a probably relating to England and

Mystery Babylon The Great-er London

a little horn (probably Prince Harry the eighth Head of the Beast) come out and pushes out 3 horns.

Off course Chivalry was an Iron and Steel age. From a Financial view Rio Tinto one of England's top miners (Stamped) leaves Massive foot prints in open cut mining.... It is also a company that the second beast has a massive stake and has done so for a very long time.

Due to that fact, that brings in the Ten Horns because the second Beast helped or setup the Club of Rome and ordered the United Nations to recognise it.

6.0 Picture Iron Monster

If 3 energy sectors are gone (or going to be merged) that must have some impact at least 3 Jurisdictions. Chart 8.0 Club of Rome shows the 10 energy sectors. Chart below for reference. Also notice it is on barrels of Wine.

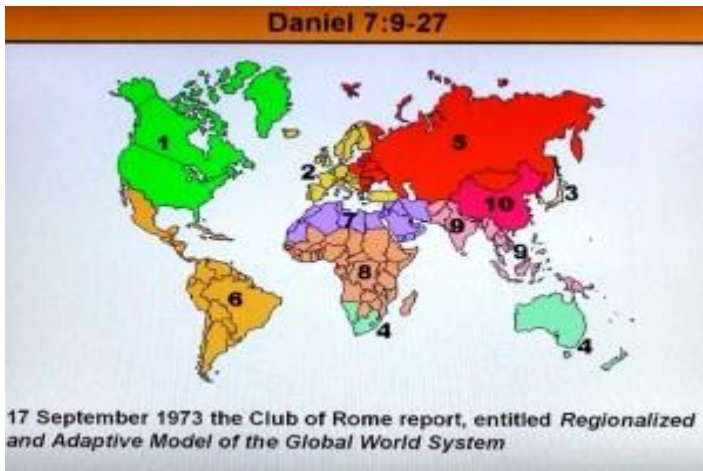

Mystery Babylon The Great-er London

Now if Modern Mystery Babylon (London and therefore UK) is destroyed then sector 2 may just be merged into the EU or some other institution the beast has planned.

Also in one of the end time films “we were warned 2012” a little blog of a lot of information is ref below.⁶⁸ You may wish to do a little more research.

According to this film “Australia is gone” last 5 minutes of the film. This seemed to be the theme of the planet X books (scientists) as well.

6.1 Chart Club of Rome

Where that leaves New Zealand, I am not sure if so then South Africa #4 may be merged into #8. That would leave one more to go and the obvious choice to me would be

⁶⁸ <http://vigilantcitizen.com/moviesandtv/the-hidden-symbolic-meaning-of-the-movie>

Mystery Babylon The Great-er London

Japan. Full of an aging population, nu-clear pollution and a high earthquake area, the Elite would not be planning to live there.

That takes the count down to 10 Banking Jurisdictions and the little horn replaces energy sector #2, which brings the Horns on the ugly beast a real monster down to 8 from 10.

BIS Bank to the report.

This report which is only covering a limited amount of Derivatives adds up to over 1 Quad Trillion in debt. Now there is maybe one family that has that much and if they have they will not be running to our financial salvation that is for sure.

If one could take in all the world liabilities in the Quad Trillions there is no way the whole world can pay them off. It is impossible. The only way to start again is destroy Mystery Babylon. Thereby destroying the Harlot. All the harlots' children will then need to be under the new rule of the beast.

Therefore verse 23 is fulfilled the whole earth has been deceived by the Harlot the Bank of England commencing with the 1.2 Million pound note in 1690.

Rev 18 v 24 And in her was found the blood of prophets and of saints and of all who have been slain on earth.

The greed and love of money, power and position has caused all the wars, all the Prophets and Christians that stood in the way all the soldiers went to fight against those who basically fought against the beast, (both or multiple

Mystery Babylon The Great-er London

sides) the beast being and including the secret societies freemasons just to name a couple.

This was the main cause of every war, someone wanting power or to maintaining power. i.e. someone or system wanting to control a countries currencies, because if you control a countries currency you control that country!

Why do third world countries have so much debt because they have to borrow to pay for the security they want and thereby in doing so partake in the harlot's sorcery (derivatives) markets, which in turn is feeding the beast. Therefore, the beast is fed no matter what! Particularly the second beast is fed the most!

This author wrote the above in the book London Harlot 666, after writing that book I found out what the 10 horns really were and from what Country! The country is Hungary⁶⁹ and the 10 horns are rate setters. Yes Interest rate setters. But why from Hungary. Well to understand this one must realise that the scripture is true in Revelation where it say the First Beast was allowed to stand in the presence of the Second beast who came from the Land. Revelation 13 v

12 It exercises all the authority of the first beast in its presence, and makes the earth and its inhabitants worship the first beast, whose mortal wound was healed.

⁶⁹ <http://revampyourmind.com/mystery-babylon/poland-phoenix-hungary/>

Mystery Babylon The Great-er London

AND:

The second beast hates the first beast. Therefore the beast from the land hates the beast from the sea,

Revelation 17 v 12-18

12 And the ten horns which thou sawest are ten kings, which have received no kingdom as yet; but receive power as kings one hour with the beast.

13 These have one mind, and shall give their power and strength unto the beast.

14 These shall make war with the Lamb, and the Lamb shall overcome them: for he is Lord of lords, and King of kings: and they that are with him are called, and chosen, and faithful.

15 And he saith unto me, The waters which thou sawest, where the whore sitteth, are peoples, and multitudes, and nations, and tongues.

16 And the ten horns which thou sawest upon the beast, these shall hate the whore, and shall make her desolate and naked, and shall eat her flesh, and burn her with fire.

17 For God hath put in their hearts to fulfil his will, and to agree, and give their kingdom unto the beast, until the words of God shall be fulfilled.

18 And the woman which thou sawest is that great city, which reigneth over the kings of the earth.

Mystery Babylon The Great-er London

Therefore it is the second beast system & the 10 horns soon to be seven horns that has the power and the money to wipe out the first beast if it wanted too.

It does not because the people that make up the second beast hide behind the first beast. That way they are private and just seen as rich people. Rich is an understatement.

Where does the second beast come from? Rev 13 KJV

Mystery Babylon The Great-er London

11 And I beheld another beast coming up out of the earth; and he had two horns like a lamb, and he spake as a dragon.

The Second Beast comes from the land and that land is Europe. We will go into this deeper later in this book.

As we can see from the table Hungary is reducing its rate setters from 10 down to 7. The little Horn to replace them being most probably Prince Harry will be revealed at a later day closer to the 23rd of September 2017.

Revelation 17 v 11 ¹¹ And the beast that was, and is not, even he is the eighth, and is of the seven, and goeth into perdition. Prince Harry is the eighth head of the Prince of Wales Beast.

Next we are going to look at unclean Animals and Aliens, Aliens are mentioned in the Bible, the reason we are going to look at them is because they help in the identification of who or what City is Mystery Babylon the great.

Chapter 7 Unclean Animals & Aliens

The Fall of Babylon 18

18 After this I saw another angel coming down from heaven, having great authority, and the earth was made bright (its going to get hot) with his glory.

2 And he called out with a mighty voice,

“Fallen, fallen is Babylon the great! She has become a dwelling place for demons, a haunt for every unclean spirit, a haunt for every unclean bird, a haunt for every unclean and detestable beast.

⁷⁰Haunt means to visit habitually or appear too frequently.

I thought I might add this in about unclean Birds, Spirits and unclean Beasts (animals)

This comes from the Old Testament when the Jewish people were told not to eat certain animals.

Below is from the United Church of God. I think it is a correct observation what they have said about unclean animals.⁷¹

⁷⁰ <http://dictionary.reference.com/browse/haunt%20?s=t>

⁷¹ <http://www.ucg.org/booklet/what-does-bible-teach-about-clean-and-unclean-meats/which-animals-clean-or-unclean/>

Mystery Babylon The Great-er London

Firstly the animals

Which Animals Does the Bible

Designate as 'Clean' and 'Unclean'?

God reveals which animals - including fish and birds - are suitable and unsuitable for human consumption in Leviticus 11 and Deuteronomy 14. Although the lists aren't exhaustive, He reveals guidelines for recognizing animals that are acceptable for food.

God states that cud-chewing animals with split hooves can be eaten (Leviticus:11:3; Deuteronomy:14:6).

These specifically include the cattle, sheep, goat, deer and gazelle families (Deuteronomy:14:4-5).

He also lists such animals as camels, rabbits and pigs as being unclean, or unfit to eat (Leviticus:11:4-8).

He later lists such "creeping things" as moles, mice and lizards as unfit to eat (Leviticus:11:29-31), as well as four-footed animals with paws (cats, dogs, bears, lions, tigers, etc.) as unclean (Leviticus:11:27).

He tells us that salt and freshwater fish with fins and scales may be eaten (Leviticus:11:9-12), but water creatures without those characteristics (catfish, lobsters, crabs, shrimp, mussels, clams, oysters, squid, octopi, etc.) should not be eaten.

God also lists birds and other flying creatures that are unclean for consumption (Leviticus:11:13-19). He identifies

Mystery Babylon The Great-er London

carrion eaters and birds of prey as unclean, plus ostriches, storks, herons and bats.

Birds such as chickens, turkeys and pheasants are not on the unclean list and therefore can be eaten. Insects, with the exception of locusts, crickets and grasshoppers, are listed as unclean (Leviticus:11:20-23).

Why does God identify some animals as suitable for human consumption and others as unsuitable? God didn't give laws to arbitrarily assert control over people. He gave His laws (including those of which meats are clean or un-clean) "that it might be well" with those who seek to obey Him (Deuteronomy:5:29).

Although God did not reveal the specific reasons some animals may be eaten and others must be avoided, we can make generalized conclusions based on the animals included in the two categories.

In listing the animals that should not be eaten, God forbids the consumption of scavengers and carrion eaters, which devour other animals for their food.

Animals such as pigs, bears, vultures and raptors can eat (and thrive) on decaying flesh. Predatory animals such as wolves, lions, leopards and cheetahs most often prey on the weakest (and at times the diseased) in animal herds.

When it comes to sea creatures, bottom dwellers such as lobsters and crabs scavenge for dead animals on the sea floor. Shellfish such as oysters, clams and mussels similarly consume decaying organic matter that sinks to the sea floor, including sewage.

Mystery Babylon The Great-er London

A common denominator of many of the animals God designates as unclean is that they routinely eat flesh or anything that eats anything that would sicken or kill human beings. When we eat such animals we partake of a food chain that includes things harmful to people.

As nutritionist David Meinz observes: "Could it be that God, in His wisdom, created certain creatures whose sole purpose is to clean up after the others? Their entire 'calling' may be to act exclusively as the sanitation workers of our ecology. God may simply be telling us that it's better for us believers not to consume the meat of these trash collectors" (Eating by the Book, 1999, p. 225).

The following list, based on Leviticus 11 and Deuteronomy 14, identifies many of the animals God designates as clean and unclean. The list uses their common names.

Clean Animals

Mammals That Chew the Cud and Part the Hoof Antelope, Bison (buffalo), Caribou, Cattle (beef, veal), Deer (venison), Elk, Gazelle, Giraffe, Goat, Hart, Ibex, Moose, Ox, Reindeer, Sheep (lamb, mutton)

Fish with Fins and Scales

Anchovy, Barracuda, Bass, Black pomfret (or monchong), Bluefish, Bluegill, Carp, Cod, Crappie, Drum, Flounder, Grouper, Grunt, Haddock, Hake, Halibut, Hardhead, Herring (or alewife), Kingfish, Mackerel (or corbia), Mahimahi (or dorado, dolphinfish [not to be confused with the mammal dolphin]),

Mystery Babylon The Great-er London

Spirits and Demons

There has been evil spirits and demons since before the fall of man. Reason being Satan fell before he deceived Eve. However Mental illness Visions and Dream are on the increase. Bible says this in the books of Acts Chapter Two.

What is different is they are on the increase and we will have plenty more of them on earth when Revelation 12 v 1&2 are fulfilled at 7:36AM 23rd of September 2017. There will be many more of them on Earth they will fall from the starry night sky about 1/3 of them.

Revelation 16 verse 13-14. For they are demonic spirits, performing signs, who go abroad to the kings of the whole world, to assemble them for battle on the great day of God the Almighty.

And I saw, coming out of the mouth of the dragon and out of the mouth of the beast and out of the mouth of the false prophet, three unclean spirits like frogs.

Rev 18 v 2 And he called out with a mighty voice,

“Fallen, fallen is Babylon the great! She has become a dwelling place for demons, a haunt for every unclean spirit, a haunt for every unclean bird, a haunt for every unclean and detestable beast.

“Cult” refers to a destructive group which uses mind control to deceptively influence its members. It has become fairly standard to use this term for any organization or group which uses mind control on its members. Cults are not necessarily religious. A cult may form around any

theme, such as a political, racial, psychotherapeutic, or even athletic agenda.

This is world-wide but England seems to take the cake as it were.

The world's oldest organisation associated with psychical research was established circa 1862.⁷³

It could be that the Harlot, Romans and Knighted Barons and Baronets have dwelt viciously with the people over the centuries. It is still going on today, taking assets from people. Removing private property from people.

In any event this scripture is fulfilled and will be until it is destroyed. Looking into it further what are Aliens that are absolutely named in the bible?

Revelation 9

3 And there came out of the smoke locusts upon the earth: and unto them was given power, as the scorpions of the earth have power.

4 And it was commanded them that they should not hurt the grass of the earth, neither any green thing, neither any tree; but only those men which have not the seal of God in their foreheads.

5 And to them it was given that they should not kill them, but that they should be tormented five months:

⁷³ <http://www.ghostclub.org.uk/>

and their torment was as the torment of a scorpion, when he striketh a man.

6 And in those days shall men seek death, and shall not find it; and shall desire to die, and death shall flee from them.

7 And the shapes of the locusts were like unto horses prepared unto battle; and on their heads were as it were crowns like gold, and their faces were as the faces of men.

8 And they had hair as the hair of women, and their teeth were as the teeth of lions.

9 And they had breastplates, as it were breastplates of iron; and the sound of their wings was as the sound of chariots of many horses running to battle.

10 And they had tails like unto scorpions, and there were stings in their tails: and their power was to hurt men five months.

Like this author says, the Holy Bible is very specific. These beings are DNA altered Part Lion Part human Part scorpion. These locust are what people give many names too. Annuraki, Endri and so on. Paranormal London

London has existed as a settlement for two millennia and has survived through many ages that have been fraught with plague, fire and warfare.

⁷⁵ <http://www.londonparanormal.com/>

Mystery Babylon The Great-er London

London has been a home to Romans, Vikings, Anglo Saxons, Middle Age settlements, Tudors, Stuarts, Georgians, Victorians, and the many people of “Modern” Britain. Be it King, Queen, Priest or peasant, generations upon generations of people have lived, loved and died in the City of London, some naturally, some at the hands of other and some by their own doing.

But where do the deceased go once they have passed over into the spiritual realm? Some believe that those who had a particularly dramatic exit from the world of the living, or who felt a strong affinity to a place whilst they were alive, have managed to somehow leave an imprint of themselves in the mortal realm. Are these imprints of ghosts?

Many visitors of the city have reported “weird” goings on, places with “strange feelings” unexplained sightings of ghost.

Chapter 8 - History - Bank of England the Mother of Harlots

8.0 Current Bank of England Building

Had to think hard about this in the end this author figured the best way would be to let the Bank of England incriminate herself by matching up the scriptures with today's current practices.

To do that I went to the Bank of England's website⁷⁶ I have reference some of their information and shown where it relates to scripture, my comments and scripture will be in Brackets made bold and italicised.

From the middle of the 17th century, England and London in particular, buzzed with ideas - indeed the era has been

⁷⁶ <http://www.bankofengland.co.uk/Pages/home.aspx>

Mystery Babylon The Great-er London

dubbed 'the age of projects' - but one which kept coming to the fore was the notion of a national bank.

People sensed that the country was on the brink of a tremendous expansion of trade, but one vital element was lacking: what was needed was a bank or "fund of money" *(the bases of what would eventually be Managed or Mutual Funds & including Superannuation 401k and Pension funds)* - more liquidity, in modern parlance - to drive the trade of the country. They looked with some envy across to the continent at the example of the Dutch who were then pre-eminent in Europe. Central to the success of the Dutch was the Amsterdam Wisselbank, which had been founded in 1609. It provided the motive power for the Dutch economy by lending to the City of Amsterdam, the State in the form of the Province of Holland and trade in the shape of the Dutch East India Company as well as being responsible for coinage and, of course, exchange.

Much later, in 1683, it was empowered to lend to private customers. Payments over a certain amount had to pass through it and it therefore was convenient for the important finance houses to hold accounts with it. Thus not only was it in a position to oversee the Dutch financial scene, it was also able to act as a stabilising influence on it. **(The thought of The Mother of Harlots born).**

Calls for a National Bank in England

In England the argument for some kind of bank to gather momentum after the Glorious Revolution of 1688 when William of Orange and Queen Mary jointly ascended the throne of England. The political economist Sir William Pet-

Mystery Babylon The Great-er London

ty had recognised from the example of the Dutch that successful credit- based trading could benefit a nation in many ways and help to enlarge its sphere of influence: he wrote in 1682 "What remedy is there if we have too little money?"

We must erect a Bank, (**seems to me like “let’s make an idol”**) which well computed doth almost double the Effect of our coined Money; and we have in England Materials for a Bank which shall furnish Stock enough to drive the Trade of the whole Commercial World".

(Thoughts of Dominance of World trade)

Dutch William had brought to his adopted country an understandable desire to help his native country in its war against the French and this proved to be the catalyst necessary for the idea of a national bank to be accepted, albeit grudgingly by some.

However, it took a London-based Scots entrepreneur, William Paterson, to propose the scheme that eventually found favour: his first, proposed in 1691, had been rejected for several reasons. This was partly because, as he wrote in 1695, "Others said this project came from Holland and therefore would not hear of it, since we had too many Dutch things already".

Under his scheme, in return for a loan of £1 million, the bills issued by his company should be made legal tender. This idea proved to be more than a century ahead of its time, and consequently unacceptable to the Parliamentary Committee. This idea proved to be more than a century

Mystery Babylon The Great-er London

ahead of its time, and consequently unacceptable to the Parliamentary Committee.

'A Fund for Perpetual Interest': The funded National Debt is born

After several more rejections, Paterson put forward a plan for a 'Bank of England' and a 'Fund for Perpetual Interest' although this time bills were not mentioned. Supported by two powerful personalities - Charles Montagu, Chancellor of the Exchequer, who looked after the Parliamentary lobbying, and Michael Godfrey a leading merchant who ensured the ideas acceptance in the City - it was inevitable, given the Government's pressing need for funds, that the scheme should be approved by Parliament.

So Paterson's plan was accepted and the necessary Act passed. The public were invited to invest in the new project and it was these subscriptions totalling £1.2 million that were to form the initial capital stock of the Bank of England and were to be on-lent to Government in return for a Royal Charter.

The Government's immediate motive for creating the Bank was its pressing need for money - Paterson himself said that the Government accepted his proposal only as "a lame expedient for £1,200,000". And for some time afterwards the Government saw the Bank in that light - renewals of its Charter had to be paid for with loans, often painfully negotiated, from the Bank to the Exchequer. There was little in the Act creating the Bank to hint at what it would become - certainly no suggestion of a central bank, scarcely a hint of banking at all. However, the Charter was enough.

Mystery Babylon The Great-er London

The Bank was big, it was incorporated with limited liability (extremely rare then) and it set out to take full advantage of this position.

(The Harlot was born Revelation 17 verse 15 and the angel said to me, "The waters that you saw, where the prostitute is seated, are peoples and multitudes and nations and languages." London fits precisely)

To start with, the Bank was the Government's banker: managing the Government's accounts; managing (at some expenses to itself) the re-coinage of 1696; providing and arranging loans to the Government.

It was also a commercial bank, dealing in bills - the then equivalent of overdraft finance, furnishing finance for trade. It took deposits and issued notes, and with the development of the issue function, it began to realise the dreams of some of the original projectors, of a Bank that would "double the Effect of out coined Money".

(Leverage now clearly seen and interest and fees clearly thought out and so the doubling effect of IOU's) *Rev 17 v 13 these are of one mind, and they hand over their power and authority to the beast.*)

A credit-based economy

One particularly significant development around this time lay in the perception of credit or 'imaginary money' as it was then called. It represented a fundamental and distinctive principle in the new thinking that was so prevalent during this age of ideas and experiments.

Mystery Babylon The Great-er London

Projectors had begun to recognise the existence of an untapped source of assets, albeit non-metallic, such as stocks of merchandise, tax receipts, revenues on land and commercial obligations, against which 'credit' or 'imaginary money' could be raised.

(Rev 17 verse 1&2 “Come, I will show you the judgment of the great prostitute who is seated on many waters, 2 with whom the kings of the earth have committed sexual immorality, and with the wine of whose sexual immorality the dwellers on earth have become drunk.

They are now getting drunk of credit.)

Credit could be, they argued, the seed corn of wealth. But what was the money? To the man in the street, money simply meant coins, but the new thinking was overturning that Shibboleth:

Dictionary.com says the following about the word Shibboleth: noun 1. a peculiarity of pronunciation, behaviour, mode of dress, etc., that distinguishes a particular class or set of persons. 2. a slogan; catch word. 3. a common saying or belief with little current meaning or truth. 1382, the Heb. word shibboleth

"flood, stream," also "ear of corn," in Judges 12:4-6. It was the password used by the Gileadites to distinguish their own men from fleeing Ephraimites, because Ephraimites could not pronounce the -sh- sound. At that time 42,000 of the Ephraimites fell. Now the bank is in the business of killing not by sword although that is still

Mystery Babylon The Great-er London

current but by something more insidious called a bill or some other fancy name.

Word Origin and History for mortgage Expanded mortgage

*1390, from O.Fr. morgage (13c.), mort gaige, lit. "dead pledge" (replaced in modern Fr. by hypothèque), from mort "dead" + gage "pledge;" so called because the deal dies either when the debt is paid or when payment fails. O.Fr. mort is from V.L. *mortus "dead," from L. mortuus, pp. of mori "to die" (see mortal). The verb is first attested 1467*

Once your in you need to succifice your life to payment of the Mort+gage (dead pledge).

Therefore anyone taking out a loan of any description is signing away their life to the financial Institution and therefore the Harlot the Bank of England being the Mother of Harlots).

It was suggesting that money could take other forms which would have no intrinsic value and yet still possess qualities to enable it to be used to make payments there-by fuelling and lubricating the economy. It was inevitable, therefore, that when theory became practice and the funded National Debt was born that crucial element, paper money, almost simultaneously completed the equation.

Banker to Government

Mystery Babylon The Great-er London

The 18th century was a period dominated by governmental demand on the Bank for finance: the National Debt grew from £12 million in 1700 to £850 million by 1815, the year of Napoleon's defeat at Waterloo. Reliance by government on the Bank had developed to such an extent that at the renewal of the Charter in 1781 the Prime Minister, Lord North, described the Bank as "from long habit and usage of many years.....a part of the constitution and that it was ".....to all important purposes the public exchequer" North went on to explain that ".....all the money business of the Exchequer" was "done at the Bank, and as experiences had proved, with much greater advantage to the public, then when it had formerly been done at the Exchequer."

Eventually, though, prudence and discretion proved insufficient. The Bank was the nation's bank, and at times of natural crisis its gold reserve was needed for national purposes.

(Which meant sometimes the resources would be drained to such an extent it the Harlot might be broken or destroyed). Monetary indiscipline leads to inflation

The wars with France which began in 1793 and lasted some 22 years put an enormous strain on the nation's finances. In 1797 the Government was obliged to protect the gold reserves for the war effort by declaring the Bank's notes inconvertible.

Mystery Babylon The Great-er London

This 'Restriction Period', as it was known, continued for six years after the end of the war, until 1821. (The same happened in 2008 in managed funds many were forced to restrict or stop altogether the withdrawal of public monies and some are still holding on to clients' money today in 2014.)

Because of the consequent shortage of coin the Bank issued £1 and £2 notes to keep the wheels of trade turning; but, inevitably, prices rose generally and this provoked a fierce debate and the setting up of a Parliamentary Select Committee which attributed the country's difficulties mainly to the Bank's over-issue of paper. (Issuing too much debt which was the cause of the 1929 crash and the 2007-2009 crash. It is not a lesson that can be learnt because the fundamental program is it exists).

The Committee argued that a paper currency which had ceased to be convertible into gold or silver coin could only be kept up to its proper value by limiting its quantity, in that way it would become again a sound currency. Monetarism was born.

There were many small banks issuing notes at this time and by no means were all of them sound. The hard time road to monetary discipline, which followed the return to convertibility, inevitably led to the failure of many of these partnerships which had irresponsibly expanded their note issues.

The Bank of England's difficulties were neatly summarised in 1830 by William Cobbett, who could never be de-scribed as a friend of the Bank: he wrote

Mystery Babylon The Great-er London

"The Bank is blamed for putting out paper and causing high prices; and blamed at the same time for not putting out paper to accommodate merchants and keep them from breaking,

It cannot be to blame for both and indeed is blameable for neither. It is the fellows that put out the paper and then break that do the mischief".

(This William Cobbett knew the problem only too well it was the people behind the governments and banks that cause the problem and then get the Governments and Banks to fix the problems so that they get richer more quickly.

Which beings one to consider Revelation 17 v 5 And on her forehead was written a name of mystery:

“Babylon the great, mother of prostitutes and of earth's abominations.” 6 And I saw the woman, drunk with the blood of the saints, the blood of the martyrs of Jesus. AND Revelation 17 v 12 And the ten horns that you saw are ten kings who have not yet received royal power, but they are to receive authority as kings for one hour, together with the beast.

13 These are of one mind, and they hand over their power and authority to the beast. (Conned or Black-mailed)

This is what William Cobbett was saying They cause a problem and then get the Governments and Banks to fix the problem. Being the Author's and Finishers of the problems means they get rich and drunk as

The Country Bankers Act, a milestone in the development of banking in England, was passed by Parliament in 1826.

Mystery Babylon The Great-er London

It breached some of the Bank's former privilege by permitting the establishment of joint-stock banks with more than six partners but not within 65 miles of London.

The Act allowed the Bank to establish branches in the major provincial cities from which it was able to increase its sphere of influence by sound note issue. In 1833, the Bank's notes were made legal tender for all amounts above £5, ensuring that in the event of a crisis, as long as the credit of the Bank remained good, the public would be satisfied with its notes and its reserves would consequently be safeguarded.

(In other words when it gets into trouble it just issues more debt and prints more money and does not rely on its Gold to prop it up anymore.

The Gold Standard: the Bank's notes backed by gold

Regarded by some as the first move towards nationalisation, the 1844 Bank Charter Act was also the key step to-wards the Bank achieving the monopoly of the note issue. There were to be no new issuers of notes and those whose issues lapsed, or who were taken over, forfeited their right to issue.

But the crucial clause of the Act was a monetary one: it provided that beyond the Bank's capital of £14 million, its notes were to be backed by gold coin or bullion. This, to-

Mystery Babylon The Great-er London

gether with a fixed price for standard gold, laid the foundation for the gold standard which, during the nineteenth century, spread worldwide and created a long period of price stability with monetary policy, in effect, on auto-pilot.

(This sounds really great but it was the foundation to what evil was about to take place.)

Bank assumes responsibility for financial stability

Monetary stability alone however was not enough. There were, of course, crises and in order to prevent systemic collapses the 1844 Act had to be suspended: this occurred in 1847, 1857 and in 1866 when Overend Gurney, one of the most prestigious City houses failed.

Walter Bagehot, the celebrated editor of the Economist wrote in 1866 about the Bank's part in the crisis of that year that the Bank held, should hold and should be responsible for holding "the sole banking reserve of the country".

If the Bank had been slow to recognise its responsibility for financial stability in earlier cases, its reaction in 1890, when Baring Brothers were threatened, heralded a new era in the Bank's stewardship of the Square Mile.

The Square Mile is Great-er London, Greater than any other in the world is the statement!

A rescue operation in the form of a guarantee fund was orchestrated by the Governor of the Bank and more than £17 million was promised, much of it from the by now powerful joint-stock banks.

Mystery Babylon The Great-er London

The crisis was averted but the leading role played by the Bank demonstrated the responsibility it had come to feel for the stability of the banking system as a whole.

The Bank's second century had thus seen the two key elements of central banking emerge - the concern for monetary stability, born during the inflationary excesses of the Napoleonic wars; and the responsibility for financial stability, developed in the banking crises of the mid-19th century.

1931: Britain off the Gold Standard

As with the French wars a century before, the First World War saw the link with gold broken and the issue of low denomination notes once more. A vain attempt was made in 1925 to return to the discipline of the gold standard but it failed and in 1931 the United Kingdom left the standard for good. The country's gold and foreign exchange re-serves were transferred to the Treasury although their day-to-day management was and still is handled by the Bank. The note issue became entirely fiduciary, that is to say not backed by gold.

(And therefore no standard. Revelation 17 v 4 “The woman was arrayed in purple and scarlet, and adorned with gold and jewels and pearls, holding in her hand a golden cup full of abominations and the impurities of her sexual immorality.” And therefore no standard.)

During and after the war internal changes began to take place at the Bank, presaging the modern Bank. The Governorship, which had until then generally been held for

Mystery Babylon The Great-er London

two years only, and then sometimes on a part-time basis, became a full-time professional post.

Lord Cunliffe served for five years; Montagu Norman for twenty-four. Specialists were recruited to the staff. Relations with overseas central banks were built up.

(Revelation 15 And the angel said to me, "The waters that you saw, where the prostitute is seated, are peoples and multitudes and nations and languages.")

During Montagu Norman's governorship (1920-44) the Bank deliberately moved away from commercial business and increasingly assumed the role of a central bank.

(Why? for more control, as per the near or near original vision the Bank the Harlot of Harlots.) Assistance was given in the rationalisation and redeployment of a war-based economy to one which might help to rebuild war-ravaged Europe, and Norman was one of the leading players in the establishment in 1931 of the Bank for International Settlements - a forum for central bankers - in Switzerland.

And the relationship with the Treasury changed. The funds which the Bank was deploying in its operations in the market were increasingly public funds. As noted earlier, the gold and foreign exchange reserves passed to the Treasury in 1931. Norman once famously remarked that he was "the instrument of the Treasury"

Chapter 9 - Begetting of Harlots

Central Banks & Financial Companies

When this author first began thinking about this book and chapter I thought the harlots from the Mother of harlots was about money and so it is, but it is also the fact that the central banks around the world are modelled on the Bank of England setup and money lending practices and the initial \$1,200,000. On top of that as you will see the children harlots are making physical harlots - their female staff into prostitutes.

Bank of England is held in the majority by private shareholders. Now when one person or group of persons holds the most shares in a central bank and in this case, Bank of England then that one-person control's its currency.

It is not the politicians it is the people who owned and have owned for a long time the central banks around the world. If they do not own them with public shares they will own them in a different class of shares or via the government.

Off course a lot of these people are in secret societies and their agents also. Agents being people they endorsed to act for them by proxy. To act in ones stead.⁷⁸ The next 'baby harlot' we will look at is the Federal Reserve of the United States of America.

We have five appointed members at commencement of the United States Federal reserve. Not anyone could become a member you had to have been picked for a certain reason and had the financial backing.

On December 23, 1913, the Federal Reserve System, which serves as the nation's central bank, was created by an act of Congress. The System consists of a seven member Board of Governors with headquarters in Washington, D.C., and twelve Reserve Banks located in major cities throughout the United States.⁶⁴

In the 12th District, the Seattle Branch serves Alaska, and the San Francisco Bank serves Hawaii. The System serves commonwealths and territories as follows: the New York Bank serves the Commonwealth of Puerto Rico and the U.S. Virgin Islands; the San Francisco Bank serves American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands. The Board of Governors revised the branch boundaries of the System in February 1996.

There are two countries without central banks and the European countries are part of the EU. The two banks that do not have central banks are Andorra and Monaco.

My object here in this not to prove who owns the banks. It is suffice to say that the everyday person owns very little of even the publicly owned banks.

This is easy because for example the owners that own the most may hold so many of "A" class shares with the public owns shares might be "C" class shares. Therefore it is pointless to me to try and prove who owns what out of the Public Share Issue.

However better is it to focus on who is what and how does it align with Revelations Chapter 12 verse 1 and 2. This is because the Astronomy of the Solar System gives an exact date and time of when these two verses are fulfilled.

The reason I mention just before World War 1 is that the weapons and other costs had to be funded from some-

Mystery Babylon The Great-er London

where. Australia paid a massive price in WW1 in terms of human cost to how old Australia was as a country.

Now if you were a head of the seven/eight headed beast and you were planning for a World War and planning to make a Trillion or two you would need the participant's governments to be able to borrow to fund the weapons and so on. The best way to do that is to get the governments of the day to put into place "ACTS" for the provision of Central banks to be set up.

Doing so means you can now lend to both sides of the War and receive interest from both sides while the soldiers were dying in there thousands on both sides.

That is what a Harlot does, gets money from their clients even if the clients are at war with one another! Who cares right? She does not care if person A has an argument with person B and both are her clients as long as she (the Harlot) is paid.

Having said that lets look at the Central bank of Germany.

A little bit of history first

⁸¹Banking in Germany is a highly leveraged industry, as its average leverage ratio (assets divided by net worth) as of 11 October 2008 is 52 to 1 (while, in comparison, that of France is 28 to 1 and United Kingdom is 24 to 1); its short-term liabilities are equal to 60% of the German GDP or 167% of its national debt.

⁸¹ http://en.wikipedia.org/wiki/Banking_in_Germany

Mystery Babylon The Great-er London

In other words it is bankrupt! AND it loves Fractional Reserve Banking. Off course, this is what is known and is on the balance sheet. Off the balance sheet, accounting is another thing all together as are Derivatives.

Also in other words using the above stated figures if you put 1 Euro as a deposit expect back no more than 48 cents and that is what they are declaring here and not including off the balance sheet and derivatives liabilities.

Now back to the Cycle Analysis.

⁸²Allianz AG was founded in Berlin on 5 February 1890 by then director of the Munich Reinsurance Company Carl von Thieme (a native of Erfurt, whose father was the director of Thuringia) and Wilhelm von Finck (co-owner of the Merck Finck & Co bank).

Now personally I do not like Allianz the reason being is that HIG in Australia had a profitable insurance business. I was selling some insurance for HIG via an insurance broking business. Then what seemed to be all of a sudden Allianz owned HIG's Business. A few weeks later HIG was bankrupt, why because its various departments were running at a so called loss. It did not own a profitable department.

Off course it didn't it was sold to Allianz a few weeks earlier. Thousands of people were unable to get paid on

their claims. I did not enjoy this situation at all. I had a couple of business making a claim for a large claim only about \$25,000 which the business had to wear and it was still in start-up phrase.

Start date 5th February 1890. Let's see if it is a business that works in opposition to God's Principles. I had to do this on a 540 degree basis this is because the parameters of the software were exceeded. 540 degrees is 360 +180 degrees and therefore 180 degrees literally.

Whenever a planet goes round the Sun more than once the 360 degrees is removed. For example if Mercury had gone around the sun 900 degrees, this would be

$360+360+180$ therefore the "2" 360 degrees orbit are withdrawn leaving the 180 degree movement. In this case the degree was 540.132 Degrees. Which equals 540 degrees and 7 minutes and 52 seconds.

It is also relevant to note that in Revelation 18 verse 4 it says *“come out from her my people, so that you will not share in her sins, so that you will not receive any of her plagues”*.

behaviour. Even smaller newer banks in Quana are making sales targets for female staff so high they are unachievable and thereby suggesting to them to do extra to win the sales targets.

⁸⁴Banks Expose Female Bankers To Prostitution By Giving Them Unrealisable Targets-Female Delegate.

It seems to be the whole deal chasing for targets and having staff do what the actual bank does sell services of all types. No wonder why God calls the banking financial services industry – a Harlot and Mother of Harlots!

My own experience when I was self-employed in South Australia I said my word is my bond, and tried to have very high moral/ethical standards with clients.

However, when I sold that business and moved to Sydney not knowingly accepted a job in a questionable practice. Slowly I was able to fix all the problems they had. The immediate one was to save their financial licence, which I did.

Then about a year down the track a client compliant came in and by andby the Managing Director suggested to me that I should make some adjustments to the file. I knew better than to refuse because he was more like a gangster.

⁸⁴ <http://ladunliadi.blogspot.com.au/2014/04/banks-expose-female-bankers-to.html>

Mystery Babylon The Great-er London

As it turned out, I handled the complaint without making any adjustments to the file and I had no intention of doing so either.

These types of things along with the prostitution is what the Revelation is saying 18 v 4 “come out from her my people, so that you will not share in her sins, so that you will not receive any of her plagues”.

The above establishes that the British Empire sits on many waters. Mystery Babylon the Great sits on many waters!

In fact in London there are 3 rivers that flow into the river Thames one of them right under Buckingham Place. Soon we may see Buckingham palace split in two.

Chapter 11 – What the Bank sits

The Bank of England called Harlot the Mother of Harlots in the book of Revelation is riding a system which the book of revelation calls a beast.

Revelation 17 v 3 And he carried me away in the Spirit into a wilderness, and I saw a woman sitting on a scarlet beast that was full of blasphemous names, and it had seven heads and ten horns.

Before we move on to the seven heads & the eighth is of the seven we need to find a scarlet beast. Where would find a Scarlet Colour Beast in England? Why England and more specifically London Mystery Babylon the Great? Because that is where the (woman) Harlot of Harlots is. Being England and the England that it is, one looks to the Coat of Arms.

It does not have to have the 7-8 Heads or 10 horns on it because we know that the 7-8 Heads and 10 Horns are people and kingdoms and rates-ettors.

11.0 Coat of Arms for the HRH The Prince of Wales

The Red Dragon of Wales

This coat of Arms Scarlet beast that the bank/harlot rides on is from Wales.

The next coat of Arms does have Seven Beasts and seven heads.

It is from Carmarthenshire Coat of Arms.

⁸⁸Carmarthenshire was granted arms in 1935. In 1974 the county was absorbed into Dyfed. When Carmarthenshire was recreated in 1996, the old arms were allowed with the addition of supporters.

⁸⁸ <http://www.internetbusinessdirectory.co.uk/arms/carmarthenshire-coat-arms.htm>

Mystery Babylon The Great-er London

The arms combine the traditional arms of the kings of South Wales with the red Welsh dragon. The red dragon appears again as crest and dexter supporter. The sinister supporter is a sea horse suggesting the county's maritime heritage.

The Inscription translated means “freedom of country folk boom”

7 Beasts 6 Land based and 1 Sea based.

Sea Horse ties in the British Navy that became the dominate power after the Bank of England (Harlot) was established and started with a 1.2 Million Pound upgrade of the British Navy, primary reason to dominate the World.

Now that we have identified the colour of the beast and Coat of Arms linking the colour to the country which is England, we cannot stop there we now need to find where the seven heads are from and we already know that the beast is a man.

11.1 Carmarthenshire Coat of Arms

Now for seven heads they must be related because they are all on one body.

The Beast is the “Prince of Wales” system.

Mystery Babylon The Great-er London

The Bible goes on to say that the beast is a man and the number of that man is 666.

Revelation 13 v 18

Here is a call for wisdom: Let the one who has insight calculate the number of the beast, for it is the number of a man, and that number is six hundred sixty-six.

Check out that chapter and verse number! 13 is Fibonacci change number either expansion or contraction and the verse number being 18 or (6+6+6). I see this all the time in the Bible that the chapter and verse matches up with what the relevant scripture is talking about. God knew in advance that man would split the Bible up into chapters and

Mystery Babylon The Great-er London

verses and inspired the writers to write in a fashion for our benefit in the modern age of Bible Prophecy or eschatology.

Now we know that the system of Prince of Wales is beastly and we know that the number of person is Six Hundred and Sixty Six.

There are currently 3 Prince of Wales alive today in 2015, we will start with the Oldest which is Prince Charles of Wales (name and title).

Astrology for the Prince of Wales

I personally am not into Astrology (not the soothsayers) having said that God uses and invented astrology in Chapter 12 of Revelation verse one and two.

Where it comes together for me is the mathematics of Astrology which is proven by Astronomy.

The Holy Bible has the following to say about Astrology.
Ezekiel 21 v 30 KJV

I will judge thee in the place where thou wast created, in the land of thy nativity⁹⁰.

When one is born in Astrology the house in which one is born at the Minute & Second of their birth, points of what type or certain characteristics of a person may turn out to be like.

⁹⁰ Ezekiel 21 v 30 KJV

Mystery Babylon The Great-er London

This scripture is certainly backing this up. However God is against the Soothsayers.

Jesus said "in my father's house there are many mansions if it were not so I would have told you"⁹¹

This tells me that Jupiter was opposite to Uranus, Jupiter being the 666 (671-5) clock in the Solar System Musical Clock.

Following are quotes in regards to Uranus from Astrology.

Mystery Babylon The Great-er London

81 Uranus is known in astrology as the "Awakener," since its aspects and transits bring sudden changes and shocks. It rules Aquarius, the quirky innovator, and sometimes these upheavals are a necessary break from restrictions in favour of a more liberated path.

Keywords:

sudden turns, rebellion, independence, invention, surprises, liberation, disruption, awakening.

Most of those words certainly fit an Antichrist.

The meaning of Uranus in astrology:

Uranus plays an important role as the provocateur, the bringer of the cosmic wake-up call for both individuals and the collective as a whole. Just when we relax into our comfortable, stable lives, Uranus disrupts the scene. It can be through an event that happens to us, or self-initiated acts spurred on by a desire for change.

Lets' have a look at Jupiter. What is Jupiter in the birth chart?

This is the sign and house position of the planet Jupiter at the moment of your birth. Traditionally known as the "Greater Fortune," Jupiter guides you to high ideals, a sense of purpose and what will bring you happiness. Jupiter determines whether your life journey will be smooth or rocky, whether you'll be stingy or generous, and your overall level of optimism.

Keywords:

Mystery Babylon The Great-er London

expansion, lucky breaks, generosity, life purpose, blessings, optimism, prosperity

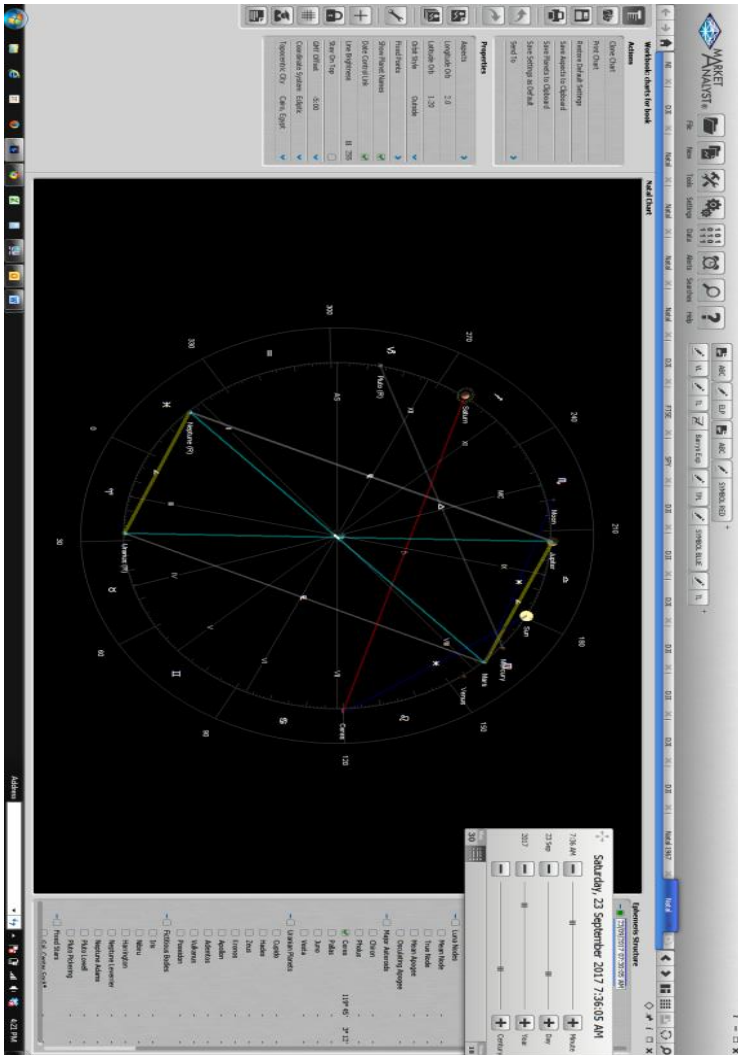

The Meaning of Jupiter in Astrology:

Jupiter is said to influence all the good and noble things of life, and lead each of us toward a higher purpose. With a favourable or prominent Jupiter, you could experience lucky serendipities at every turn. If your Jupiter has lots of frictions (squares) with major planets, you might have to make your own luck much of the time.

Well Jupiter's meaning in Astrology seems pretty good for Charles.

When researching this every position seemed to be opposite another, it was quite interesting. Time and date set for this chart if 7:36AM the 23rd of September 2017. Now we find

that Uranus is opposite to Jupiter and that Jupiter is Sesquiquadrate to Neptune. It is also semi-square to Mars.⁹²

The table of aspects defines the strength of the Mathematical time in space, known as SPACETIME. When the alignments become strong it is possible for good or bad things to happen.

Based on these alignments Two being tense and one not so tense, this time and date are going to be very controversial indeed.

God is warning us and the two beasts that He is not impressed with and is against what they are planning.

Mystery Babylon The Great-er London

The following has been reconstructed from the book by Tim Cohen, *The AntiChrist and a Cup of Tea*.⁹³ Chapter Three.⁹⁴

Unlike English, ancient Hebrew and Greek did not use Arabic or Roman numeral's to represent numbers. In-stead, the characters of the respective alphabets were themselves used. The numbers historically applied to the Hebrew character set, which actually antedate the largely occult Cabala, are today called cabalic.

With these numbers in mind, recall that the saints are told, ***“here is wisdom: let him who has understanding calculate the number of the beast; for it is the number of a man, and his number is 666”*** Rev 13:18 KJV

Despite the arguments of some to the contrary, there is no compelling reason, biblically or otherwise, to believe that a correct identification of the AntiChrist through a proper calculation of his name, as spoken of in Revelation 13:18, cannot precede the start of the Tribulation Period. In fact, if Prince Charles is the AntiChrist, then this has already been accomplished Prince Charles of Wales,' the prince's common name (and title), 2 is of the same form, for example, as "Messiah Je-sus of Nazareth.'³ unlike a manipulated or even contrived name or title (e.g., "Pope Caesar of Rome'), the Prince's real-life title not only

calculates to six-hundred and sixty-six (666) using the cabalic numbers, but it does so in more than one language!

This calculation may be performed in either English or Hebrew through a relatively simple procedure.

First, respectively apply the twenty two cabalic numbers (one for each character in the Hebrew alphabet-see below) to the first twenty-two letters in the English alphabet.

Next, because Hebrew has only twenty- two characters, assign the null value (zero) to the last four letters in English (i.e., W, X, Y, and Z). Finally, obtain the sum of the values corresponding to each letter in "PRINCE CHARLES OF WALES' or 0, ", 0,, □ 1"0 □ (modern Israeli Hebrew).

The following system, for calculations in English, He-brew, or Greek, uses the cabalic numbers as just described.

In English,

'PRINCE" (70 + 90 + 9 + 50 + 3 +5) = 227,

'CHARLES" (3 + 8 + 1 + 90 + 30 + 5 +100) = 237,

'OF" (60 + 6) = 66, and

'WALES" (0 + 1 +30 + 5 + 100) = 136.

227 + 237 + 66 + 136 = 666.

In Hebrew,

1"0 (50 + 60 + 10 + 20) = 140, 0,, (90

+ 200 + 30 + 60) = 380, and 0,", (40 + 6 + 10 +

30 + 60) = 146. 140 + 380 + 146 = 666.

Mystery Babylon The Great-er London

Three objections in particular might be raised to this system as it pertains to English.

First, it may be argued that any name calculation should be done using the original Hebrew rather than the English, or some other alphabet.

Second, the cabalistic numbers have been applied sequentially to the English alphabet, rather than phonetically as some might expect.

Third, the last four letters in the English alphabet are left without numeric values, and are thus assumed to represent zero. However, as shown below, these objections are not entirely sound.

First, it may be counter-argued that the calculation of the AntiChrist's name should be performed in his own native language, thereby eliminating any possible need to transliterate and translate it into a different tongue, which would normally yield only an approximation.

(We may also note that English is currently the world's most widely spoken language.) Second, a phonetic application of the cabalistic numbers to the English alphabet would also be an approximation, just as the trans-literation of a word from one language to another yields a word which sounds approximately like the original.

Given these difficulties, it seems quite reasonable to use the most straightforward application of the cabalistic numbers to the English alphabet (i.e., the sequential method) despite the aforementioned objections; such an application precludes all errors of approximation.

Mystery Babylon The Great-er London

Further, it must be pointed out that the ancient Greek numbering system was itself historically derived from the Hebrew system in precisely this manner.

Yet unlike the unmodified, non-supplemented cabalic numbers used in our English system, the Greek system originally omitted 6 and 90, and added 500, 600, 700, and 800 (after 400).

Also, provisions were later made for it to include 6 (final sigma) and 90 (arbitrary symbol Koppa), as well as incorporate 900 (arbitrary symbol Sampsi). This very system, which the early Church fathers employed to calculate the values of Greek names and other words,⁹⁵ is the basis for the number 666. Uniquely, in the original Greek text of Revelation 13:18.1 Therefore, apart from our omission of added numbers (i.e., 500, 600, 700, 800, and 900), the non-phonetic, sequential method used to apply the cabalic numbers to the English alphabet in our system is neither new nor unprecedented; rather, despite possible arguments to the contrary, it is the historically, biblically, and theologically accepted

Method.

Indeed, it is also the method recognized by Ladd and others.⁹⁶ The authoritative weight of such a calculation in

this system, scripturally speaking, is far greater than in any contrived system ever devised, and there are several.⁹⁷

Finally, in the author's opinion (Tim Cohen), the weight of the evidence presented herein regarding Prince Charles is so great that even if there were no known numbering system whereby his name calculated to 666, one would nonetheless be compelled to conclude that he is plausibly the Anti- Christ.

As it is, however, there are at least two languages-Hebrew and English in which the prince's name calculates to 666, and that on the same numbering system using entirely different combinations of numbers!

This would appear to make our "plausibility" a statistical certainty.⁹⁸

In fact, there is not a known supercomputer on Earth that is even capable of accurately calculating the odds of such a multiple occurrence.

Either way, we may be certain that if Prince Charles is the AntiChrist, then there must be such a system, and this system, for lack of one which may seem more palatable, works.

⁹⁷ The Greek letters assigned to the numbers 600, 60, and 6 are used together in Rev-elation 13:18 to specify the total number of 666. Other numbers in the Apocalypse are given using actual Greek words, not combinations of specific letters.

Chapter 12 - The Five Fallen Heads of the Beast

Revelation 17 V 9 & 10 KJV

And here is the mind which hath wisdom. The seven heads are seven mountains, on which the woman sitteth.

10 And there are seven kings: five are fallen, and one is, and the other is not yet come; and when he cometh, he must continue a short space.

Many to most have this wrong. They take Seven Mountains above and say it is Rome because Rome is built on Seven Hills. This method of thinking is incorrect because I could take 7 Hills in Greater London or indeed Seven Mountains in Great Britain, all I would have to do is pick the hills/mountains over a certain height – Bingo put the link in there and job done.

However lest first look at the Thesaurus a mountain can be a peak and a whole heap of other names!

Now let's look at the Oxford Dictionary meaning.

mountain air. living, growing, or located in the mountains:
mountain people. resembling or suggesting a mountain, as

Therefore a mountain can be anything that is large or a
Peak for example.

Let's read that scripture again

*The seven heads are seven mountains, on which the woman
sitteth*

The seven Heads are seven mountains! We are not looking
for a physical longitude latitude position, we are looking
for seven people.

Verse 10 again:

***10 And there are seven kings: five are fallen, and one is,
and the other is not yet come; and when he cometh, he
must continue a short space.***

Now mountains do not fall over generally, although lately

upon it; and it shall fall, and not rise again.***

What we are looking for is five Princes of Wales in
particular that have lived and yet are not because they fell –
they died!

Mystery Babylon The Great-er London

In the last chapter we established it was the Prince of Wales and currently it is the Prince Charles of Wales that is current. (and one is) And the other has not yet come.

Now we need to find the 5 Dead Princes of Wales.

90There has been 22 Prince of Wales as title of English or British heir apparent plus three who held the title "Prince of Wales independent.

Therefore it is a case of drilling down to see who they were.

First we cast away the three who held the Title independently. These were:

Name	Heir of	Birth
Dafydd ap Llywelyn	son of Llywelyn ab Iorwerth	c. April 1212
Llywelyn ap Gruffudd	N/A son of Gruffydd ap Llywelyn	c.1223
Dafydd ap Gruffydd	brother of Llywelyn ap Gruffudd	c.1238

The 22 who lived we are looking for 17 who do not qualify. The full list can be accessed here

http://en.wikipedia.org/wiki/Prince_of_Wales

There are five fallen Prince of Wales meaning they died while holding the title but never become King of England.

The Bible goes on to say the eighth is of the seven.

Revelation 17 v 11

Mystery Babylon The Great-er London

And the beast that was, and is not, even he is the eighth, and is of the seven, and goeth into perdition.

Therefore we are actually looking for 8 heads of the beast Prince of Wales System.

8th is Prince Harry of Wales

Prince Charles may need to ascend the Throne and become King of England in order for Prince William¹⁰⁰ to become the New Prince of Wales being the 7th and the 8th.

¹⁰⁰ This will be proven in the chapter of the beast to come

Mystery Babylon The Great-er London

This cannot happen ofcourse as that would disqualify him as a Prince of Wales of the 8 Headed beast.

Why is Prince Harry of the 7 Headed beast, why is he not a head?

The Answer is simple really, Prince William is first born of Prince Charles and Lady Diana Spencer, Prince Harry or his real name Prince Henry is second born and therefore is not a Head in terms of being the Head of the family being First Born.

Prince Henry the Ninth will have millions if not hundreds of millions be-headed where as Prince/King Henry the 8th only had about 60,000 people beheaded.

Before we move to the next Chapter we need to establish mathematically that the five Princes aligned with the 180 degrees opposition to God via cycle analysis. Cycle Analysis of the Five Fallen Heads

Now these five that are fallen died of course however they died at the top of their mountain! They die at their peak and **never** ascended to the Throne of England, the scripture is fulfilled.

In this case you take away 360 3 times being 1080 therefore $(1259.61299 - 1080) = 179.61299$ degrees. Level of tolerance is half of one degree or 0.05 which means he qualifies to be one of the Heads of the Beast that the Book of Revelation is talking about. One down four to go.

Old Frederick came in on time as well. Therefore this scripture is proven, Seven Heads five of them fallen. It was the five Prince of Wales who never ascended to the Throne and died while they still held the office titled “Prince of Wales”. Therefore they were at their peak they could go no further up the mountain. The mountain of Prince of Wales was the peak of their achievements. Revelation was talking about the mountain of each of our lives and not some physical place that has seven hills.

To make a claim of Seven Hills of Rome for example one must then qualify how tall a hill or a mountain has to be, to be called a hill or mountain. I see no qualification of such in the book of Revelation.

Chapter 13 – The Sons of the current Prince of Wales

Revelation 13 v 3

3 And I saw one of his heads as it were wounded to death; and his deadly wound was healed: and all the world wondered after the beast.

¹⁰¹This is very interesting because Prince William when he was almost nine had an accident at school.

June 17, 1991 Vol. 35 No. 23 titled “Questions for An Absent Father” By Louise Lague

IT HAPPENED IN A FLASH. ENGLAND'S Prince William and a few other boys were larking around on the putting green of the exclusive Ludgrove School, in Woking-ham, on Monday, June 3, when, says a witness, "one lad started swinging a putter around his head.

William happened to be in the way." Knocked to the ground, with blood seeping from a cut on his forehead, the Prince, who turns 9 on June 21, fought back tears while his Royal Protection Squad detective ran to a phone to put "Operation Prince," the palace's prearranged emergency plan, into action.

As the boy was rushed in a police car to the Royal Berkshire Hospital in nearby Reading, Princess Diana, after an

immediate telephone call from headmaster Gerald Barber, jumped behind the wheel of her green Jaguar to speed from Kensington Palace to the hospital 36 miles away. Prince Charles, alerted in Highgrove, the family's country estate where he has been living apart from his family during the work week, was driven to the hospital in his blue Aston Martin.

As the boy was wheeled in for a CAT scan, Charles and Di "were walking behind his stretcher, reassuring him," says eyewitness Sarah Prince, a 14-year-old schoolgirl.

Transferred later in the day to London's Great Ormond Street Hospital, a "brave, chatty and chirpy" William, according to a palace spokesman, rode in an ambulance with his mother. Charles followed in his car.

Diagnosed as having a depressed fracture of the skull (a slight indentation of the bone) on the left forehead, William underwent a 70-minute operation to push out the dent and cheek for bone splinters and brain lacerations.

Neurosurgeon Richard Hayward declared the procedure a "complete success" with little chance of the possible frightening complications in such cases: epilepsy and infection leading to meningitis. Diana spent two nights at the hospital and took Wills home on Wednesday.

Now that is amazing writing this section on the 17th June 2014, having earlier as the Lord to reveal what the deadly wound could be thinking it was financial when in fact it was Prince William injured at school and saved by the modern medical procedures of the day.

Seeing all this and writing about is strange. Many times through the years I thought why couldn't I be born into a privileged life?

When Diana and when Kate got married I thought they were lucky and now I think and believe I was lucky because I was not born or married into the beast or second beast of the book of Revelation.

These people are locked in as it were, and if you try to get out life changes dramatically.

Praise God I have chosen him after He first chose me!

I wonder was Kate warned of exactly whom she was marrying? Let's have a look at the cycle Analysis for Prince William.

William is also in range of the 2021 time frames.

Interestingly he falls just 18 hours short of the 7:36AM 23rd of September 2017.

Now 18 is obviously 6+6+6 or 666. The alignment for Prince William on a straight 180 degree Opposition to God, falls on the 22nd instead of the 23rd. This is interesting because in trading when using the Planets as an indication that a market will hit a top or a low and therefore change cycles, one always sees what the major slow moving planets like Saturn and Jupiter are at and then if a fast moving planet like the Earth, Mercury, Venus or Mars and Earth Moon hits a top or a low on slow moving cycle change, it is considered as the trigger for the change in cycle.

The earth rotates one degree every four minutes, and therefore using the Musical Clock called our Solar System one can time a market change down to a four minute window.

Have complete a cycle Analysis on Prince William wife Catherine the Duchess of Cambridge this shows that the Duchess of Cambridge does not align with the 180 degree opposition like Prince Charles and William do.

Mystery Babylon The Great-er London

Catherine cycle analysis aligns 22 days 11 hours and 2 minute before the birth of the Anitchrist.

Prince Harry(s) birth time and date do not align with the 180 degree opposition like Williams and Prince Charles does. However he aligns in another way and that is his four titles and names add up to 666. Which when calculated out is about 1 Trillion to 1 odds of that happening.

This is in a video on my Christian website here.

<http://revampyourmind.com/1-in-a-trillion-odds-of-having-4-names-referencing-666/>

Harry being the eight head of the Prince of Wales beast is or could be the little Horn with Human Eyes. He is the one that the second beast who comes from the Land being Europe will hide behind as we see in the next chapter.

Therefore again the eighth is of the seven and so out of alignment for HRH Prince Henry would be correct.....

Chapter 14 - the Second Beast & Two Horns

The Second Beast Revelation 13 v 11 to 18 ESV

11 Then I saw another beast rising out of the earth. It had two horns like a lamb and it spoke like a dragon.

14 Two Horn Lamb

12 It exercises all the authority of the first beast in its presence, and makes the earth and its inhabitants worship the first beast, whose mortal wound was healed (Prince William or if it is Prince Harry then scripture was talking about the beast in general).

Mystery Babylon The Great-er London

13 It performs great signs, even making fire come down from heaven to earth in front of people (Bombs of all types)

14 and by the signs that it is allowed to work in the presence of the beast it deceives those who dwell on earth, telling them to make an image for the beast that was wounded by the sword and yet lived.

5 And it was allowed to give breath to the image of the beast, (finances probably and laws) so that the image of the beast might even speak (Automated Speech ¹⁰²Recognition) and might cause those who would not worship the image of the beast to be slain. (killing of / depopulating the earth primarily Christians but all who do not and refuse to have the mark of the beast) (i.e. those who not comply).

16 Also it causes all, both small and great, both rich and poor, both free and slave, to be marked on the right hand or the forehead, (everyone under submission).

17 so that no one can buy or sell unless he has the mark, that is, the name of the beast or the number of its name. (in other words have the mark or starve to death).

This second beast having two horns exercises power and authority and supports as it were the first beast.

Evelyn's cycle analysis using 180 degrees comes in on the 9th of September 2017 a full 2 weeks before the birth of the Antichrist.

Mystery Babylon The Great-er London

In Revelation 13 verse 12 it says “ (The second beast) exercises all the authority of the first beast (Prince Charles) in its presence, and makes the earth and its inhabitants worship the first beast, whose mortal wound was healed (direct reference to Prince William).

This verse means to me that royal permission is given to the Rothschild’s to control and empower central, World and Local banks to introduce and exercise control, in order for the Mark of the Beast to work properly or efficiently. They will make everyone on Earth to do this and if you don’t you will be killed or starve to death.

The fact that the last line of verse twelve says “Whose mortal wound was healed” would indicate that Prince William will be given this job from his father the Prince of Wales.

Time will tell and from my cycle Analysis it fits Prince Charles the best as his cycle analysis aligns just 3 hours after the birth and with the 2021 dates for the Sun and Moon cycles of 1260 days after the 23rd of September 2017.

The fact that his cycle Analysis is late by 3 hours does not surprise me, the reason being is when William was recovering in Hospital Charles was nowhere to be seen according to Newspaper reports¹⁰⁴.

Diagnosed as having a depressed fracture of the skull (a slight indentation of the bone) on the left forehead, William

underwent a 70-minute operation to push out the dent and cheek for bone splinters and brain lacerations.

Neurosurgeon Richard Hayward declared the procedure a "complete success" with little chance of the possible frightening complications in such cases: epilepsy and infection leading to meningitis. Diana spent 70 Minute Operation is 7 times 10

Seven is the number called fatal number 7, this is because for example there is 7 days a week after that comes a new week. 7 is fatal you do not have 8 days a week.

Ten is for perfect mankind government but God's government number is 12 means He is in control and he will make sure what has been said will come to pass and mans' government falls short of God's government.

Therefore the wound of the beast is healed as Revelation 13 verse 12 says.

Also just aside here 13 is a number used as a change number which can have negative effects and 12 is also a number for perfect government. Coincidence? Maybe!

Back to the News article.

It might have been a moment for Charles and Diana to lend each other comfort and support. But even before the operation began, at 8:40 P.M.

Charles was on his way to keep a quasi-official royal engagement planned months ago: attending a performance of Tosca at the Royal Opera House with Environment

Mystery Babylon The Great-er London

Secretary Michael Heseltine and Agricultural Minister John Gummer.

Arriving after the first act, Charles assured his guests that the boy's condition was "not too bad," and after the operation two nights at the hospital and took Wills home on Wednesday. Performance travelled with them by night train to North York-shire for an environmental conference. He kept in touch by phone and visited Will's bedside for 42 minutes the next evening before going on to what the palace called a "private engagement."

The public—and the press—were appalled by Charles's curious choice of priorities. **WHAT KIND OF A DAD ARE YOU?** shrieked a headline in the Sun. Jean Rook in the Daily Express wondered, "What sort of father of an eight-year-old boy, nearly brained by a golf club, leaves the hospital before knowing the outcome for a night at the opera?" end quote.

Therefore the one who sits on the European Union chair marked with the number 666 will be Prince Charles or William or could well be William. We will find out soon enough.

Off course the Rothschild's (second beast) will be exercising the real power behind the scene. It is the Second beast who has the power this is proven with a Scripture.

Revelation 13

11 And I beheld another beast coming up out of the earth; (Germany (Rothschilds)/France (EU) Askenazi) and

he had two horns like a lamb, and he spake as a dragon.
Jacob & cousin Evelyn as at 19th October 2015

(arrogant) 12 And he exerciseth all the power of the first beast before him,(financial control) and causeth the earth and them which dwell therein to worship the first beast, whose deadly wound was healed. (Prince William) Queen has died or stepped down (Charles is King or Died). (Therefore William is to become the Prince of Wales). However as noted earlier it could be Prince Harry and God here was talking generally of the beast “The Prince of Wales.

13 And he doeth great wonders, so that he maketh fire come down from heaven on the earth in the sight of men, (Second Beast controls the armed forces)

14 And deceiveth them that dwell on the earth by the means of those miracles which he had power to do in the sight of the beast; (i.e. Put his insignia on Israel’s Flag.) **saying to them that dwell on the earth, that they should make an image to the beast, which had the wound by a sword, and did live.** (Micro-chip or mark)

(Prince William is the person the Rothschild’s control him (first beast whose wound is healed) and as (Rothschild’s have done for 3 centuries control British currency a modern maxium is said to be of the *Rothschild’s give me control of a countries currency and I care not who makes the rules.*)

It cannot be proven this was a Rothschild Maxium however it fits the bill fairly well. Rothschild’s control currencies and central bank’s.

Mystery Babylon The Great-er London

15 And he had power to give life unto the image of the beast, (money, currency and controlling central banks and therefore have the power) that the image of the beast should both speak, (Automated Speech Recognition) and cause that as many as would not worship the image of the beast should be killed. (Take it or not you will comply or you will die).

16 And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: *(The mark is a sign of worship or initiation). (No right hand means put it in your fore-head that why God cannot put his mark on your forehead naturally speaking)* **Revelation 22 v 4 KJV And they shall see his face; and his name shall be in their foreheads.**

Therefore this is a test comply and immediately you are on the side of the Devil (alive) and you will die forever later (just like Adam and Eve) or do not comply and you will die straight away or very soon but God will raise you up and you will live forever! ¹⁰⁵I choose this one which will you choose?¹⁰⁶

Chapter 15 – The Martyrs

Revelation 17 v 5 And on her forehead was written a name of mystery: “Babylon the great, mother of prostitutes and of earth's abominations.”

6 And I saw the woman, drunk with the blood of the saints, the blood of the martyrs of Jesus.

Seems to me two types of people here Saints and Martyrs.

Dictionary meaning for Saints.

British Dictionary definitions for saints saint (seint, (unstressed)

sənt)—n

1. A person who after death is formally recognized by a Christian Church, esp the Roman Catholic Church, as having attained, through holy deeds or behaviour, a specially exalted place in heaven and the right to veneration
2. a person of exceptional holiness or goodness
3. (plural) Bible the collective body of those who are righteous in God's sight There are so many murders then war's and battles' that no one person can trace them all and for the reason they were murdered.

Due to the Bank of England and many other central banks funding wars and conflicts saints and martyrs are everywhere.

Mystery Babylon The Great-er London

How Many People are Murdered Each Year?

How many people that are murdered in the world every year is not clear. The last count was in the year 2000 and the about is about 520,000 murders in the world each year.

The Unites States was number 24 on the list. There is approximately 16,500 murders in the U.S. each year. They (Governments) do not count them each year I think, because the number is growing and of the secret societies are increasing the number of people killed each year.

If you take a look at the Georgia Goldstones you can see in 12 languages the Secret Societies are planning a mass curl of people from 7.3 billion as of June 2014 to only 500,000,000 million (Five Hundred million) by 2021.

I think its 2021 because 2021 is 1260 days after the 23rd of September 2017. See Revelation 12. Or my website revampyourmind.com and book *The New World Order and The Woman in Heaven gives Birth*.

One thing for sure is they did not put those guide stones there just to look pretty!

There is a chapter in this book dedicated to these Goldstones further on.

Saints seems to mean a group of people and Martyrs are individual people.

There have been many over the years a list of a few are here <http://www.scionofzion.com/mcr.htm>

Or you can read the Fox's book of Martyrs. To me the people who went through what they did in the face of crippling procedures and then death by burning is incredible.

For modern day martyrs it is not hard to find some and from unexpected areas or disciplines.

16.1 Picture The Royal Cup Phoenix

More pictures of the cup on or in the secure site as mentioned in the introduction.

This cup is made of solid gold and lavishly decorated with translucent enamels. The scenes shown on it relate to the life and miracles of St Agnes.

Agnes was imprisoned in a brothel as punishment for refusing to marry Procopius, son of the prefect Sempronius, in the time of the Emperor Constantine (reigned AD 306-337). She subsequently restored Procopius to life when he was strangled by a demon.

Mystery Babylon The Great-er London

Although he was repentant, Agnes was not spared her fate, and was condemned to burn. However, the flames had no effect on her, and she had to be killed with a spear/sword. The cover of the cup is devoted to this section of the story, with each scene explained by a Latin inscription.

The bowl shows St Agnes' burial, the martyrdom of her sister Erementiana by stoning (St Agnes appears at the scene with three virgin martyrs carrying palms), and the healing of Princess Constantia of leprosy. The foot of the cup is decorated with the symbols of the Evangelists; the interior of the bowl and cover contain enamels of St Agnes receiving instruction, and God in Majesty.

That's the official story however take a closer look at the bottom of the cup in 16.0. I see two beasts one has lion legs another had the bears feet. On the top of the cup is a beast presumably the martyrdom of her sister Erementiana.

Now let's bring the description from Rev 13 here and re-examine. "***And the beast that I saw was like a leopard; its feet were like a bear's, and its mouth was like a lion's mouth.***"

That description matches the bottom of the cup perfectly.

Chapter 17 description.

3 And he (Great Angel) carried me away in the Spirit into a wilderness, and I saw a woman sitting on a scarlet beast (notice the cup was made first and there-fore sits on the base that was made later according to his-tory, therefore the scarlet woman is sitting on the beast) ***that was full of***

Mystery Babylon The Great-er London

blasphemous names, and it had seven heads and ten horns.

4 The woman was arrayed in purple and scarlet, and adorned with gold and jewels and pearls, (see CUP) holding in her hand a golden cup full of abominations and the impurities of her sexual immorality.

5 And on her forehead was written a name of mystery: "Babylon the great, mother of prostitutes and of earth's abominations."

It took me a long time to work this out and I believe I am the only one who has done it so far and that is; what are the abominations on her forehead. Remember we are talking about a Bank and what does a bank do?

The Bank sells **Financial Products**, these vary from bank to bank and department to department in each bank. The products all have titles and where are the titles placed? In the Head (header) section on the cover of each product. Following are some of the titles of abominations.

Mystery Babylon The Great-er London

Bonds and so on;

The question is why are these abominations? That is quite easy really and it is because they have no foundational value.

They are something made out of nothing and loaned to Governments and Kings & Queens and rulers of this world charging interest on which they the Banks and money lenders have no security against. They charge you interest and fees on loans which cost them nothing or almost nothing to loan to you. For example let's say you take out 500,000 loan, The Banks securitisation on that is around 5% 25,000 they must hold \$25,000 on the value of the loan. They charge you up to \$10,000 to set the loan up, now you owe 510,000 but you pay the 10,000, so you owe 500,000 but to the bank you have reduced the cost to \$15,000 over the course of a few months you have paid off 15,000 in interest and bingo any more than that the bank has won.

The above is a simple view point of what goes on. Then the bank will sell a batch of these loans to a fund manager and bingo they have their money bank and more and go and do it again and again and again. Hence why banks are so profitable, its money for nothing almost!

6 And I saw the woman, drunk with the blood of the saints, the blood of the martyrs of Jesus. When I saw her, I marvelled greatly.

(St Agnes and all those that are Christians past, present and future). Notice it is the Martyrs of Jesus and not a religious sect like the Roman Catholic Church for example).

Mystery Babylon The Great-er London

Now we move on to chapter 18's description.

16 “Alas, alas, for the great city that was clothed in fine linen, in purple and scarlet adorned with gold, with jewels, and with pearls! All on the cup!

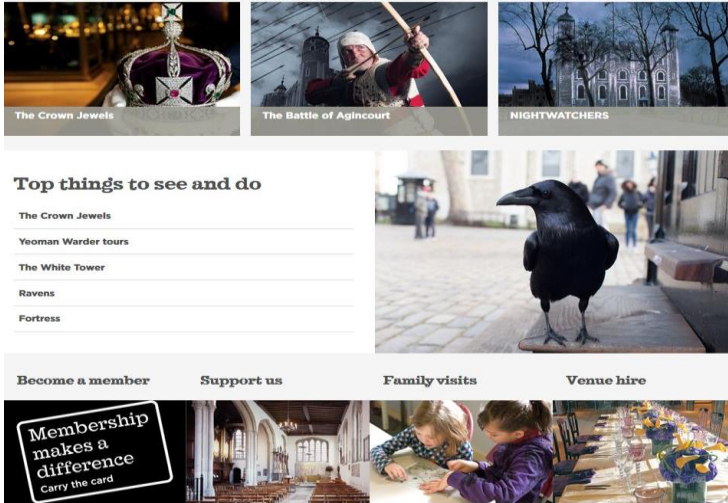

¹⁰⁹Tower of London Website

I just had to put this in here. When Noah sent the first bird out to find dry land he sent a raven, which did not return. The reason it did not return was because raven's eat and rest on anything like dead bodies for example. And on the Tower of London webpage, remember London is Babylon the Great, of earth abominations, there is a raven!

Now a phoenix is not real so it is also an abomination and is on the Harlots Cup.

God is so funny at times, He gets down to the finest of details and reveals who and what people fruits are, so that you may know them by their fruits – in this case the fruit is seeing the raven. Ravens are forbidden to be eaten in the Old Testament because they eat everything and therefore by eating forbidden things our bodies do not perform as they could. There are many Ravens in the tower on Google images.

Back to this scripture- Revelation 13 v 16 KJV

16 “Alas, alas, for the great city that was clothed in fine linen, in purple and scarlet adorned with gold, with jewels, and with pearls!

The cup was given formally to Charles VI of France (reigned 1380-1422) by Jean Duc de Berry (1340-1416) on the occasion of his visit to Tourraine in 1391.

Mystery Babylon The Great-er London

However, it is unlikely that it was made for this occasion since the two men had been on bad terms, and the meeting was something of a reconciliation. It is possible that the Duc de Berry had the cup made for his brother Charles V (who was born on St Agnes' day, 21 January). Charles died in 1381 before it was completed, and so it was given to Charles VI when he and his uncle met.

The cup later came into the hands of John, Duke of Bedford (1391-1447). It is then mentioned in various royal accounts of the Tudors. Two extra bands have been inserted in the stem of the cup, the first of which is decorated with enamelled Tudor roses dating to the period of Henry VIII (reigned 1509-47). The second carries an inscription which relates to the peace between James I of England (reigned 1603-25) and Philip III of Spain (reigned 1598-1621), in 1604.

At this point the cup left England and remained some where unknown in Spain, until 1883 when it was offered for sale on the Paris market by a convent in Burgos. It was bought by Baron Pichon, who subsequently sold it to a Bond Street dealer in London where Augustus Wollaston Franks purchased it for £8,000. The cup was acquired by the British Museum in 1892 through a combination of public subscription and Franks' own contribution.

Investigating the Cup

Investigation of the 'rouge clair' glass on the Royal Gold Cup

Mystery Babylon The Great-er London

The Royal Gold Cup is unique in many ways, and is a particularly fine example of medieval enamelling on gold, including use of the transparent red enamel, sometimes known as ‘rouge clair’ or ‘ruby glass’. This colour was so highly regarded at the time that it was considered worthy of mention in medieval inventories.

The cup itself dates to 1370–1380 while the stem seems to be a later Tudor addition. It is one of the rare survivors of the Commonwealth period in British history (1649–1660) when so many gold objects were melted down. It is also the product of a very high standard of craftsmanship and a superb example of bassetaille enamelling.

A scientific study of the transparent red enamel was carried out to establish how it was coloured. Ruby glass is coloured by metallic nano-particles (one millionth of a millimetre) of copper, silver or gold.

While the earliest ruby glasses are found in the Roman period (the Lycurgus cup in the British Museum is one of the most famous examples and is a gold ruby glass), the knowledge of gold ruby glass appears to have been lost and only rediscovered in the late seventeenth century by the German alchemist Kunkel.

The first copper ruby glasses were produced during medieval times and used for red stained-glass, but the knowledge of how to make this red glass was lost by the eighteenth century.

Detail

Mystery Babylon The Great-er London

Ruby glass is difficult to use as an enamel. It has to be melted to apply it to metal, which can change the size and distribution of the small metallic particles, spoiling the colour of the glass.

It can change either to an opaque liverish colour or to black. The sixteenth century goldsmith Benvenuto Cellini found it was impossible to enamel red onto silver or copper, though it could be done on gold.

The Royal Gold cup has large areas of brilliant red enamel. Examination in a scanning electron microscope of tiny fragments of this transparent red enamel from the cup and its stem confirmed that both are copper ruby glass.

Chapter 17 – Bank Harlot Seated

Rev 17 v 3 And he carried me away in the Spirit into a wilderness, and I saw a woman sitting on a scarlet beast.

Well we know that the Woman is the Bank of England, people to this day say ‘the Old Lady’ in reference to the bank. Now she is sitting on the beast.

Bank of England (Harlot) sat on Crown Land (the first beast’s Land).

Originally, I thought this was going to be a long process, It turned out to be a quick one instead. Below is a satellite photo of London focusing in on the Temple of Mithras,

The site of the original Bank of England and to my astonishment, there was a building belonging to the Rothschild family on the same block that the Old Lady the Bank of England and the Temple of Mithras were on.

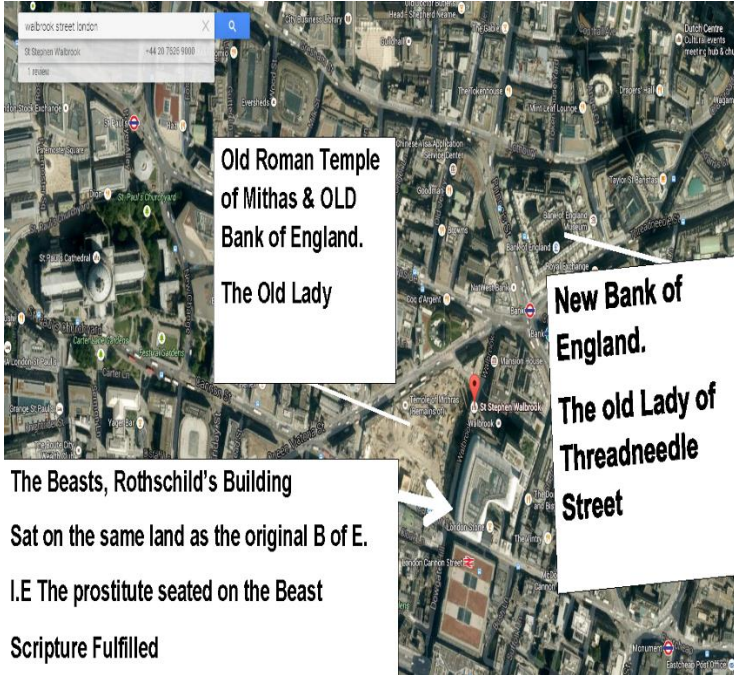

Therefore, the Prostitute, the Harlot the Bank of England is and was seated on the first beast being Prince of Wales and also on the 2nd Beast the Rothschild beast – Sitting on the same block of land just across the street. Amazing

The second beast God is saying is the Rothschild financial dynasty.

This proves what the scripture was saying in Rev 17 v 3.

It was first and is sat on Crown Land – The first Beast. After invading England, land-hungry Normans started pushing into the relatively weak Welsh Marches, setting up a number of lordships in the eastern part of the country and the border areas.

In response, the usually fractious Welsh, who still retained control of the north and west of Wales, started to unite around leaders such as Owain Gwynedd's grandson Llywelyn the Great (1173–1240), who is known to have described himself as "prince of all North Wales".

Llywelyn wrestled concessions out of the Magna Carta in 1215 and received the fealty of other Welsh lords in 1216 at the council at Aberdovey, becoming the first Prince of Wales.

Mystery Babylon The Great-er London

Of course he held the title as an independent title and therefore did not qualify as one of the Heads of the Beast.

It was Edward of Woodstock, the Black Prince became the Prince of Wales on the 12th May 1342, while being heir apparent of Edward III.

With Richard of York the Prince of Wales we find titles for Ireland and Scotland.

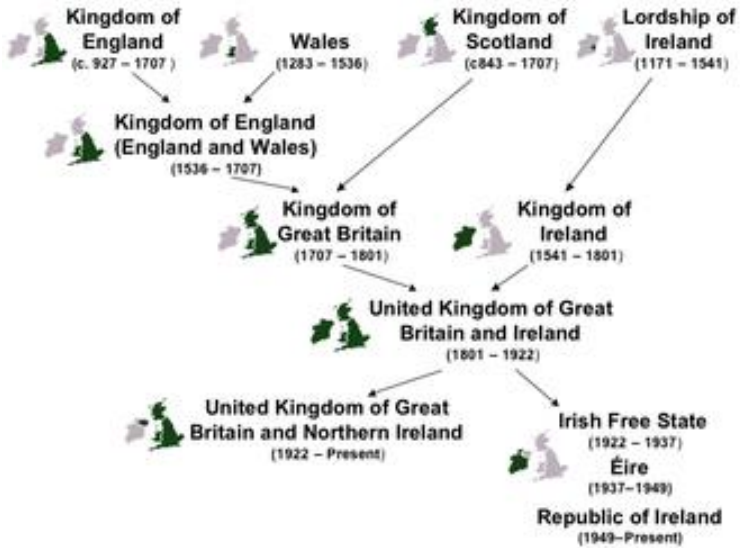

These were:

Lord Protector of England, Duke of Cornwall, Earl of Chester (all disputed with Edward of Westminster); Duke of York, Earl of Ulster (Ireland), Earl of March (Scotland), Earl of Cambridge, feudal Lord of Clare and Baron Mortimer of Wigmore.

This of course ties in Scotland as well as Scotland is part of Great Britain below is illustration of this and time line.

¹¹²Nemo me impune lacessit is the Latin motto of the Order of the Thistle and of three Scottish regiments of the British Army.

¹¹³Thistle is the common name of a group of flowering plants characterised by leaves with sharp prickles on the margins, mostly in the family

It is also alternatively translated into English as No one can harm me unpunished. Like the thistle, anyone trying to cut it gets a handful of painful barbs.

The motto of the Order of the Thistle (Nemo me impune lacessit) should not be confused with the motto of the Royal arms (In Defens), which appears on an escroll above the crest in the tradition of Scottish heraldry.

(In Defens being an abbreviated form of the full motto In My Defens God Me Defend).

Club of Rome¹¹⁴

curb the population growth and exhaust resources until the year 2000. And I quote “¹¹⁵The most probable result of that decision, as we have tried to show here, will be an uncontrollable decrease in population and capital” end quote.

Just a few years later China introduced birth control on the 25th September 1980. The policy was created after Chairman Mao launched a campaign to encourage families to have more children, leading to birth rates of over 4 children per family. At the same time, there was a food shortage that resulted in part from Mao’s failed economic planning of the Great Leap Forward, during which 30 million Chinese died of man-made famine.

¹¹⁶Up until that date, the government had campaigned locally and nationally for voluntary birth control and discouraged excess reproduction.

Even though the birth rate had dropped below 3 children per family by 1980, a new regime of Chinese leaders believed that forcibly restricting could lead to greater economic prosperity. As a result, a coercive policy was born that would impact the most intimate aspect of every Chinese citizen's life - their family.

The One-Child Policy restricts the majority of Chinese families to one child each. The consequences of having a child without a birth permit vary by province; with fines reaching as high as several times the average annual in-

¹¹⁶ <http://www.allgirlsallowed.org/one-child-policy>

come (7 Years average pay, i.e. if your poor that is a fortune that may never be paid). The policy was originally introduced as a temporary measure that would only be in place for 20 to 30 years, but it continues to this day.

To enforce the One-Child Policy, the Chinese government uses a quota reward system for Planning Officials who carry out the birth control policies. If they do not meet these quotas, they are either punished or lose the opportunity to earn promotions. (Plenty incentive to enforce it.)

In 1984 the policy was slightly relaxed, with rural families and other demographic groups able to receive permits for a second child. But those new exemptions varied dramatically from province to province, and no longer applied if rural families migrated to urban centres. The policy continues to be a major concern for parents who are at the mercy of local officials to approve their eligibility for ex-emptions.

The Chinese government boasts that the One-Child Policy has prevented over 400 million births, and announced in March 2013 that over the last four decades, they have aborted 336 million children, performed 196 million surgical sterilizations, and inserted 403 million IUD's (intrauterine devices). The loss of life and imposition on the rights of mothers is staggering.

A growing demographic crisis is emerging in China as the population ages, leaving a smaller workforce to care for a massive number of elderly citizens. Some call this the "4-2-1" problem because multiple generations have grown up as

Mystery Babylon The Great-er London

only-children: now, 1 child is often tasked with caring for 2 parents and 4 grandparents. Chinese scholars have pointed to the demographic situation as a major concern in calling for the government to change the One-Child Policy.

The policy also draws criticism because of its brutal enforcement—officials meet quotas by compelling pregnant women to undergo abortions, often under threat of job loss, colossal fines, and even personal harm. Women who still refuse such coerced abortions have been arrested and restrained for forced abortions. End quote.

China's problems are more or less exactly what the report to the Club of Rome showed and explained.

The humans have a problem limited resources and an expeditious growth in population. The Club of Rome and other heads of organizations revealed in this book "The New World Order & Woman In heaven gives Birth" need too in their minds and ways of thinking, reduce the population on the earth and only have enough humans alive in an equal balance of birth and death rates to maintain the state of Global Equilibrium.

As the example above in China for the last 34 years a lot of hurt and pain is caused physically, mentally and socially and on the descendants financially.

The interesting thing to a Christian is "mankind" is trying to fix a problem that God already had worked out before he created the Earth and all its population of every part and living thing of His creation including Humans. As the quote

Mystery Babylon The Great-er London

above states loss of life and imposition on the rights of mothers is staggering and that is just the mothers!

The Club of Rome's birth as previously stated was the 17th of September 1973 which is 44 years and six days before on the 23rd of September 2017. A little Cycle Analysis here which will be explained further in this book. I will now show you that 44 years and six days is almost 180 degrees using the sidereal cycle of Saturn. 180 degrees is a strong point in Time and Space and 180 degrees shows it is in opposition.

In Roman mythology, the Planet Saturn is the god of agriculture. "Resources" (Club of Rome) The associated Greek god, Cronus, was the son of Uranus and Gaia and the father of Zeus (Jupiter).

The mythology and cycle of 180 degrees in opposition in Time and Space shows that the adaptive model of the Global World system / Order (New World Order) is against what God would want. It is not only what God does not want it is moving in the opposite direction.

are controlled globally by the Rothschild syndicate. This power and control was not at first obvious.

In a two volume series, “The Rothschild’s,” Japanese journalist Takashi Hirose exposed the well-concealed mechanisms for the Rothschild syndicate’s control of nuclear power. A Rothschild serves as the business manager for the Queen of England, who privately and secretly the Rothschild’s owns massive interests in uranium holdings in Africa, Canada and Australia through Rio Tinto Mines.

Hirose’s charts of Rothschild intermarriages in his books reveal that the Rothschild syndicate has for centuries extensively intermarried with royal families and nobility globally. He also revealed that Princess Diana’s mother was a Rothschild through intermarriages several generations back. It is easy to understand how the ruling elite and London Money Power have shared common interests and goals, since they mutually benefit by forming alliances. And they know elected officials are easy to bribe.

RIO TINTO – Uranium

However, Spain's mining operations there were inefficient, and the government itself was otherwise distracted by political and financial crises, leading the government to sell the mines in 1873 at a price later determined to be well below actual value.

The purchasers of the mine were led by Hugh Matheson's, Matheson and Company, which ultimately formed a syndicate consisting of Deutsche Bank (56% ownership),

Mystery Babylon The Great-er London

Matheson (24%), and railway firm Clark, Punchard and Company (20%).

At an auction held by the Spanish government for sale of the mine on 14 February 1873, the group won with a bid GB£3,680,000 (ESP 92,800,000). The bid also specified that Spain permanently relinquish any right to claim royalties on the mine's production.

Following purchase of the mine, the syndicate launched the Rio Tinto Company, registering it on 29 March 1873.

At the end of the 1880s, control of the firm was passed to the Rothschild family, who greatly increased the scale of its mining operations.

Let's have a look at the cycle analysis, and see if they align against God

¹¹⁸The Balfour Declaration justified the brutal seizure of Palestinian lands for the post-WWII establishment of Israel.

Israel would serve, not as some high-minded “Jewish homeland”, but as lynchpin in Rothschild/Eight Families control over the world’s oil supply.

Baron Edmond de Rothschild built the first oil pipeline from the Red Sea to the Mediterranean to bring BP Iranian

Mystery Babylon The Great-er London

oil to Israel. He founded Israeli General Bank and Paz Oil and is considered the father of modern Israel.

The Rothschild's are the planet's wealthiest clan, worth an estimated \$100 trillion. They control Royal Dutch/Shell, BP, Anglo-American, BHP Billiton, Rio Tinto, Bank of America and scores of other global corporations and banks.

They are the largest shareholders in the Bank of England, the Federal Reserve and most every private central bank in the world. They needed a footprint in the Middle East to protect their new oil concessions, which they procured through Four Horsemen fronts like the Iranian Consortium, Iraqi Petroleum Company and Saudi ARAMCO.

The Brothers / Cousins Rothschild

Rothschild's Shell and BP formed these cartels with the Rockefeller half of the Four Horsemen- Exxon Mobil and Chevron Texaco. This new alliance required a "special relationship" between Great Britain and the US, which still exists today.

Rothschild and other wealthy European shareholders could now utilize the United States military as a Hessianized mercenary force, deployed to protect their oil interests and paid for by US taxpayers.

Israel would serve the same purpose in closer proximity to the oilfields. The Israeli Mossad is less a national intelligence agency than it is a Rothschild/Rockefeller family security force.

Mystery Babylon The Great-er London

The Rothschild's exert political control through the secretive Business Roundtable, which they created in 1909 with the help of Lord Alfred Milner and Cecil Rhodes- whose Rhodes Scholarship is granted by Cambridge University, out of which oil industry propagandist Cambridge Energy Research Associates operates. Rhodes founded De Beers and Standard Chartered Bank.

The Roundtable takes its name from the legendary knight King Arthur, whose tale of the Holy Grail is synonymous with the Illuminati notion that the Eight Families possess Sangreal or holy blood - a justification for their lording over the people and resources of the planet.

According to former British Intelligence officer John Coleman, who wrote Committee of 300, "Round Tabler's armed with immense wealth from gold, diamond and drug monopolies fanned out throughout the world to take control of fiscal and monetary policies and political leadership in all countries where they operated."

¹¹⁹The horrific Holocaust that ensued assured sympathy for the already planned state of Israel. Towards the end of WWII, the murderous Haganah and Stern Gangs were deployed by the Rothschild bankers to terrorize Palestinians and steal their land. Jews who escaped Hitler's gas chambers were those of means who bought into Zionism.

For a fee of \$1,000 – lots of money at that time – these right-wingers bought passage to Israel and escaped the fate of the poor Jews, Serbs, communists and gypsies. The whole affair was a massive eugenics project. It had more to do with culling the herd along class lines, than it did with ethnicity or religion.

¹²⁰The key to this historic puzzle is to understand that the Rothschild Rockefeller angreal international bankers supported both the rise of the Nazis and the creation of Israel. None of this has anything to do with religion. It has everything to do with oil, arms, drugs, money and power.

The Rothschild's say they are Jewish. The Rockefellers claim to be Christian. These are irrelevant smokescreens. Any demagogue - who blames injustice a religion or race of people - is sadly misinformed. Through-out history the Illuminati Satanists have sacrificed people of all race and religion to further their agenda of total planetary control.

Therefore the Rothschild's control most if not all the uranium in the world enabling them to call down fire from heaven. – Nuclear Bombs and missiles and the rod of god weapon in space.

There is a committee of 300 people mostly leaders of the world today. The power behind the Committee of 300 is the Anglo-Jewish cousinhood that dominates the financial and political systems of the world.

This cousinhood includes the Rothschild, Rockefeller, Oppenheimer, Goldsmid, Mocatta, Montefiore, Sassoon, Warburg, Samuel, Kadoorie, Franklin, Worms, Stern and Cohen families.

These families hold monopolies over the worldwide banking system, the oil and gas industry and the metals and mining industry.

Through this domination of the financial markets, they pull the strings of every government in the world. They also control the illegal drugs trade, human trafficking and illegal arms trafficking causing continuous pain and suffering worldwide.

Chapter 19 Analysis

Pentagram Cycle Analysis.

In this chapter we see how a pentagram is “made” if you will and how we can use the pentagrams to predict future time points that are strong points in Space and Time. Good and not so good things happen at these strong points in time and space, SPACETIME.

Some people don't like the Pentagram because of its way it is used by the opposition the devils dark side of things. Pastors' & People have commented when I use and then they put a 5 point Star for decorations at Christmas not realising it is a pentagram!

Also when people complain or just comment on it, I ask them to take off their 5 spoked wheels on their car, off course they object, and I say you see its (the pentagram) is just a tool, and should only be used as such.

We will then go back in time using the Pentagram cycle to view history from the death of Christ.

The five points of the pentagram are separated 72° (degrees) around the centre.

Equally important is that 144, or the Square of Twelve, define points on the same isosceles triangle composing of the triple triangles which are located at,

Teacher's Curriculum Guide: Golden Triangle

Introductory Information about the Golden Ratio

About the Golden Ratio: The Golden Ratio can be illustrated within special dimensions of Spirals, Triangles and Rectangles, where the ratio of the length of the short side to the long side is .618, was noted by ancient Greek architects as the most visually pleasing rectangle and its dimensions were used to construct buildings such as the Parthenon.

The Golden Ratio has also been used extensively in classical paintings where it was believed to produce the most visually pleasing figures. The ratio also appears all over nature, such as the number of petals on some flowers, biological forms like the nautilus shell, mollusks, animal antlers, leaves, human proportions, galaxy spirals, and the relations between harmonious tones in music.

Let us start with the date that Jesus died which mathematically aligns with the Revelation 12 verse one and two.

And a great sign (wonder)—[warning of future events of ominous significance] appeared in heaven: a woman clothed with the sun, with the moon under her feet, and

with a crown like garland (tiara) of twelve stars on her head.

2 She was pregnant and she cried out in her birth pangs, in the anguish of her delivery. AMP

Having found that the time and date that scripture is fulfilled which is at 7:36AM Israeli time on the 23rd of September 2017. This is the birth of the Antichrist – Mark of the Beast. Therefore knowing that God is against that then he is in opposition to it. This on a compass is 180 degrees

Many scholars believe that Jesus died on the 17th April 32AD at the third hour.

Bible tells us he died in the third hour being 3:00PM. If this were exact, I should be able to see that in Cycle Analysis. I put in the data and the results were 7:28AM on the 23rd of September 2017. I could not believe it. Measuring within a 60th of one degree Jesus was opposing this day i.e. He was at 180 degrees against this date.

Let me explain the data. I used Jupiter which is the 666 (671-5) clock on a Synodic viewed from the sun with Mercury being the second planet.

Now the degrees of movement at 180 degrees are a few thousand revolutions by mercury because mercury travels around the Sun every 88 days. The standard process in Astronomy as stated previously when a planet goes round the Sun more than one you drop of 360 degrees and you're left with say 40 degrees if the movement was 400 degrees in total.

Mystery Babylon The Great-er London

Therefore if I use 360 degrees 18 times plus 180 degrees I come to a figure of 3420 degrees. Add on 0.5053. Degrees for the alignment.

Take away the 18 times 360 degrees we are left 180 degrees and 30 minutes and 19 seconds.

In the Left Red Ellipse you can see that the cycle lands on the 23rd of September 2017 and at 07 hours: 29 minutes.

Mystery Babylon The Great-er London

Divide 3420 degrees by 180 = 19 times (360 degrees times 6 = 3240) + 180 = 3420 + the adjustment of 0.5053 degrees.

Now the next figure is Total movement of $2907426.30/180 = 16152$. The Roman Mathematician Fibonacci found the mathematical of Phi or Golden Cycle.

It works like this:

0,01,1+1=2, 2+1=3, 3+2=5, 5+3=8 8+5=13,13+8=21 and so long, by adding on the found number to the last one the cycles will eventually bring you to 1.618 factor or very close to it and in this example $2907429.18/180 = 16152$. Quite close to 1.618.

This table is illustrating that everything was aligned properly at the start of creation and Jesus's death for us.

Key numbers from Jesus death to 7:36am on the 23rd of September 2017 when the mark of the best will come in i.e. Jupiter's birth via Virgo (Woman in Heaven giving birth) and is in verses 1&2 of Revelation 12. Will come true the mark of the beast and now above is extra proof on the subject.

For a straight 180 degree opposition to Jesus dying at 3PM on the 28th July 32AD we find that by using Mercury and Jupiter - the opposition lands on the 23rd of September 2017 at (1:00PM and 50 minutes and 4 seconds) or 13th Hour and 50 minutes and 40 seconds.

As to which is the correct day of Jesus death I do not know. If I am correct then he may have died on the 28th of July 32AD. However it may have been the 8th July.

Now we need to confirm that the 28th July 32 AD maybe the correct date of death. To do this we will use the number 144 which is said to be the HOLY Number of the Face of God.¹²³

Also 144 is a number that is in the Holy Bible in book of Revelation. Chapters 7 and 14.

The above analysis have been constructed with Heliocentric view (as viewed from the Sun) the next analysis is constructed with Geo view (as viewed from the Earth).

I will use the Planet Pluto although mankind has said it no longer fulfils their definition of a Planet, but God made it for a reason. One of these reasons was to Square out Australia's weather pattern. Which I proved above and in my book

“The New World Order & the Woman in Heaven gives Birth”.

We will now see another reason God created the planet Pluto.

Now when I did this I somehow inputted 8th July 32 instead of 28th July 32. I do not know why, I can only guess the spirit lead me to the 8th July 32. I made an error on my

¹²³ <http://www.ridingthebeast.com/numbers/nu144.php>

inputs by 20 days but the error turned out correct! The table on the next page shows that using the number 144 as angle from the 8th July 32AD Pluto lands on the 28th of September 2017 Just 5 days after the Birth of 666 (671 weeks less 5) and lands on 27th April 2021 which is 13 days after the moon cycle previous proven MH370 which is the 14th April 2021.

Both number 5 and 13 are Fibonacci sequence numbers. 5 for Grace to square the number 5 out of the Pentagram of (Satan worship) and 13 being an expansion and squaring out number (and used in Satan worship).

Therefore it is could be likely that the date of Jesus's death was the 28th of July 32AD or the 8th July 32AD and not April.

The mathematical evidence and alignments of 144 degrees going forward instead of backward point to 8th July 32AD.

The fact that 8th July alignment of 144 degrees using Pluto a slow moving planet and not the fast speed of Mercury seems to me more correct.

Anyway it led me some fascinating information.

Now starting with 8th July 32AD we will plot some history on the Great Pentagram.

I will use the planet Uranus as it takes 84.3 years to go round the Sun and divides the cycle into almost 5. 17 year periods.

Rothschild's' friendship with Napoleon, despite the latter's initial prejudice against them for being "upstarts", came in handy to do business with France.

8. ¹³⁹3rd July 1907 - Towards the end of the 19th century the banks controlled by the Rothschild has started a big campaign to get the rich American economy under their control. Around 1900 the Rothschild's sent a further agent to the U.S., PAUL WARBURG, to collabo-rate with the banking firm of Kuhn Loeb & Co. Take note of this name: he was yet to interlink many more

9. Organizations! JACOB SCHIFF and PAUL WARBURG started a campaign for the creation of the FEDERAL RESERVE BANK as an established PRIVATE central bank in America.

In 1907, Jacob Schiff said before the New York Chamber of Commerce:

“If we don't get a central bank with sufficient credit control this country will experience the most severe and far-reaching financial panic in its history.”

(Des Griffin: Descent Into Slavery).

No sooner said than done. They went on to hurl the U.S. into a monetary crisis the resulting panic at the financial market of which ruined the lives of tens of thousands of people all over the country. The panic at the New York

U.S.\$ - the success they hoped for. Cunningly planned, the panic was used as an argument for the establishment of a central bank to stave off similar occurrences. Paul Warburg then told the bank and currency committee:

“In the Panic of 1907, the first suggestion was ‘let us have a national clearing house’ (Central Bank).”

(Gary Allen: None Dare Call It Conspiracy).

The final version of the decision to introduce the FEDERAL RESERVE SYSTEM (the private central bank of the U.S.) was conceived on J.P. Morgan's estate on Jekyll Island, Georgia.

According to H.G. Dorsey the meeting was attended by A. Piatt Andrew, Senator Nelson Aldrich, Frank Vanderlip

(president of Kuhn Loeb & Co.), Henry Davidson (senior partner in the J.P. Morgan Bank), Charles Norton (president of Morgan's First National Bank), Paul Warburg and Benjamin Strong (president of Morgan's Bankers Trust Co.). The introduction in 1913 of the Federal Reserve System enabled the international bankers to consolidate their financial powers in the U.S. Paul Warburg was the first chairman of the Federal Reserve Bank of New York

The Federal Reserve Act was soon followed by the 16th Amendment to the Constitution, which enabled Congress to levy taxes on the personal income of U.S. citizens. This was the consequence of the fact that the U.S. government

could no longer print its own money to finance. For the first time since the founding of the U.S., in-come tax was levied.

The foremost shareholders of the FEDERAL RE-SERVE (The FED) were: e its operations.

Rothschild banks in London and Paris Lazard Brothers Bank in Paris Israel Moses Seif Bank in Italy Warburg Bank in Hamburg and Amsterdam Lehman Bank in New York Kuhn Loeb Bank in New York Rockefeller's Chase Manhattan Bank in New York Goldman Sachs Bank in New York.

Congressman CHARLES LINDBERGH already then described the new Federal Reserve System as the "Invisible Government" by its financial power.

The Japanese soldiers who weren't killed in battle committed mass suicide, and a search of the island found no survivors. Of the 2,500 Japanese who originally tried to hold the Alaskan island, only 28 prisoners were alive at the battle's end, while the American losses were 600 dead.

The result left the Rothschild's SLN as a holding company with a fifty percent interest in Société Metallurgique.

I do not have the space to do it in this book, what one would do how is place the Minor Pentagram dates on the Great Pentagram but on the pentagram points of F,G,H,I & J.

This would mean at every 36 degrees they would be an alignment. I have used various news or events in History.

When working out Cycle Analysis on the Financial Markets this is the process that would be done by those who wish to.

Olympic Games

Interestingly The letter “X” is the “double cross” and is the 24th letter in the alphabet. $2+4 = 6$. The Olympic Games were held in London in 2012 are the thirtieth Olympiad which is XXX (666).

Chapter 20 Baby Horn

As shown earlier in this book the Baby Horn will probably be Prince Harry or Prince William of Wales.

Prince Harry is the eighth head and He is the youngest of the eight Prince of Wales or at least He is the most logical to take the position of AntiChrist because he fits the scriptures. Five of them dead off course and Charles and William alive. The second Beast will be calling all the shots and will cause people to admire or worship Prince of Wales.

However having said that Revelation 13 says in verse 12
KJV

12 And he exerciseth all the power of the first beast before him, and causeth the earth and them which dwell therein to worship the first beast, whose deadly wound was healed.

As we know it was Prince William of Wales who almost died and only a 90 minute operation saved him. We therefore know that it is either Prince Harry or Prince William.

We read on in Revelation 13 v 13-15 KJV

13 And he doeth great wonders, so that he maketh fire come down from heaven on the earth in the sight of men,

Mystery Babylon The Great-er London

14 And deceiveth them that dwell on the earth by the means of those miracles which he had power to do in the sight of the beast; saying to them that dwell on the earth, that they should make an image to the beast, which had the wound by a sword, and did live.

15 And he had power to give life unto the image of the beast, that the image of the beast should both speak, and cause that as many as would not worship the image of the beast should be killed.

V 14 The second beast system will organise a world wide TV show really and a system to make people spend their time listening to one of the Princes of Wales.

This will be done via Project Blue Beam. I have been taking Videos and Photographs of people setting up the Project Blue Beam equipment off the coast of Coffs Harbour New South Wales Australia. Links to this massive worldwide TV show are below.

The Chemical trails that Jet Planes have been spraying are holographic chemicals so that when a projection from a ship, satellite, sand or drone are beamed to projector the projectors display images.

This off course when it does not happen for real will be a big letdown for people and some may lose their faith in God. That is the aim of the false rapture event anyway – deception.

Chapter 23 – London’s Burning the Great Fire

By Bruce Robinson

Last updated 2011-03-29

In September 1666 the heart of England's capital, the City of London (now London's financial district), was devastated by fire. Everyone knows the Great Fire of London started in a baker's shop in the aptly named Pudding Lane, but was it an accident or a pernicious Papist plot?

154

23.1 Picture London News report on fire of 1666

Introduction

Late summer, 1666: London was an emotional and physical tinderbox. Following decades of political and religious upheaval, the restoration in 1660 of the Protestant

Charles II ensured that suspicion lingered around republicans and Catholics alike. With the country also at war with the French and Dutch, paranoid xenophobia - a familiar English trait of the period - was rife.

Fires in London were common, even inevitable, given the capital's largely timber construction. Yet for years there had been warnings of London's total destruction by fire: in 1559 Daniel Baker had predicted London's destruction by 'a consuming fire'.

In April 1665, Charles had warned the Lord Mayor of London of the danger caused by the narrow streets and overhanging timber houses. Furthermore, a long, hot summer had left London dry and drought had depleted water reserves.

Yet the greatest fear among Londoners was not fire. Plague had killed over 68,000 people in the previous two years. Although Charles II had returned to Whitehall in February 1666, London remained unsafe, with death carts still commonplace. What worried inhabitants most was the strong east wind. This, combined with the dry, dusty air, was known to be particularly effective in carrying plague. It would prove as equally efficient as fire in taking lives.

Thus by September 1666, all that was required was a spark. This was provided at the house of Thomas Farynor, the king's baker in Pudding Lane, near London Bridge.

At 2.00am on Sunday 2nd September his workman smelled smoke and woke the household. The family fled across the nearby roofs, leaving only a maid, too scared to run, who soon became the first of the four listed casualties of the fire.

Mystery Babylon The Great-er London

Earthy Insurance; Earthly insurance seems to be born in the form of fire insurance the XVII the century after the Great Fire of London in 1666 (where four-fifths of the city was destroyed by fire).

By the following dawn, the fire was raging north and west, and panic reigned. The Duke of York took control of efforts to stop the fire, with militias summoned from neighbouring counties to help the fight, and stop looting.

But the flames continued relentlessly, devouring Gracechurch Street, Lombard Street, the Royal Exchange, and heading towards the wealthy area of Cheapside. By mid-afternoon the smoke could be seen from Oxford, and Londoners had begun to flee to the open spaces of Moorfields and Finsbury Hill.

The aftermath

By Thursday the fire was effectively extinguished, having destroyed 373 acres of the City - from the Tower in the East to Fleet Street and Fetter Lane in the West – and burning around 13,200 houses, 84 churches and 44 company halls.

Let have a look at this fire that started on the 2nd of September 1666. In the fire that destroyed 84 churches which could well have been the Mithras Temple that the Bank of England was built on.

In London was a ¹⁵⁵Jupiter Temple. Therefore on this

Analysis because of the long time period I have use Jupiter only and viewed from the Sun. Interesting is the year 1,666. God is certainly pointing to London being the Mystery Babylon the Great and Harlot and Harlot of Harlots and sat on the beast.

The table on the next page is using Jupiter only a slow moving planet below is a synodic Heliocentric view. i.e. using two planets and viewed from the Sun.

Now to have this fire there had to be a drought of sorts the year before, Back then only God could arrange that.

These days people say Governments can do it.

But back then in 1665 God arranged a dry spell, so the wooden buildings would burn. One year later in 1666 (drop the thousand) = 666 a massive fire recorded. God was back then some 351 years before making sure one would know that London was Babylon the Great.

Chapter 24 – Interest or Usury

¹⁵⁶The Hebrew Bible regulates interest taking. Interest can be charged to strangers but not between Hebrews.

Deuteronomy 23:19 Thou shalt not lend upon interest to thy brother: interest of money, interest of victuals, interest of anything that is lent upon interest.

Deuteronomy 23:20 Unto a foreigner thou mayest lend upon interest; but unto thy brother thou shalt not lend upon interest; that the LORD thy God may bless thee in all that thou putteth thy hand unto, in the land whither thou goest in to possess it.

Israelites were forbidden to charge interest on loans made to other Israelites, but allowed to charge interest on transactions with non-Israelites, as the latter were often amongst the Israelites for the purpose of business anyway, but in general, it was seen as advantageous to avoid getting into debt at all to avoid being bound to someone else.

Debt was to be avoided and not used to finance consumption, but only when in need. However, the laws against usury were among the many which the prophets condemn the people for breaking.

Johnson contends that the Torah treats lending as philan-

thropy in a poor community whose aim was collective survival, but which is not obliged to be charitable towards outsiders.

¹⁵⁶ <http://en.wikipedia.org/wiki/Usury>

Mystery Babylon The Great-er London

A great deal of Jewish legal scholarship in the Dark and the Middle Ages was devoted to making business dealings fair, honest and efficient.

Usury (in the original sense of any interest) was at times denounced by a number of religious leaders and philosophers in the ancient world, including Moses,

Plato, Aristotle, Cato, Cicero, Seneca, Aquinas, Muhammad, Jesus, Philo and Gautama Buddha. For example, Cato said: "And what do you think of usury?"—"What do you think of murder?"

Interest of any kind is forbidden in Islam. As such, specialized codes of banking have developed to cater to investors wishing to obey Qur'anic law. (See Islamic banking)

As the Jews were ostracized from most professions by local rulers, the church and the guilds, they were pushed into marginal occupations considered socially inferior, such as tax and rent collecting and moneylending.

Natural tensions between creditors and debtors were added to social, political, religious, and economic strains. ...financial oppression of Jews tended to occur in areas where they were most disliked, and if Jews reacted by concentrating on moneylending to non-Jews, the unpopularity—and so, of course, the pressure—would increase.

Thus, the Jews became an element in a vicious circle. The Christians, on the basis of the Biblical rulings, condemned interest-taking absolutely, and from 1179 those who practiced it were excommunicated.

Mystery Babylon The Great-er London

Catholic autocrats frequently imposed the harshest financial burdens on the Jews. The Jews reacted by engaging in the one business where Christian laws actually discriminated in their favour, and became identified with the hated trade of moneylending.

In England, the departing Crusaders were joined by crowds of debtors in the massacres of Jews at London and York in 1189–1190.

In 1275, Edward I of England passed the Statute of Jewry which made usury illegal and linked it to blasphemy, in order to seize the assets of the violators.

Scores of English Jews were arrested, 300 were hanged and their property went to the Crown. In 1290, all Jews were expelled from England, and allowed to take only what they could carry; the rest of their property became the Crown's.

Mystery Babylon The Great-er London

Funny always wondered how the Crown owned so many residential buildings now it makes sense just kill or excommunicate those who own them.

As they have done with my family!

The usury was cited as the official reason for the Edict of Expulsion. However, not all Jews were expelled: it was easy to convert to Christianity and thereby avoid expulsion.

Many other crowned heads of Europe expelled the Jews, Although again conversion to Christianity meant that you were no longer considered a Jew (see the articles on marranos or crypto-Judaism).

The growth of the Lombard bankers and pawnbrokers, who moved from city to city was along the pilgrim routes.

Chapter 24 – Bankrupting the Vatican

This is one of the areas where people who are calling the Pope the Beast are incorrect. If the Pope was the beast then why would the Vatican, let the beast control its money flow?

No way unless one can get it back. The Vatican would have seen what the beast has done in the past by way of finance.

Financing Brittan via the Bank of England while Financing German via its German Bank. If the Vatican did not like what the beast is doing and has done, there is simply nothing they could do about it.

Why?

The reason is simple really the Rothschild's control the Harlot's the Bank of England and the American¹⁵⁷ Federal Reserve and therefore Fort Knox. Now here is the interesting thing that the Vatican has not worked or at least know, but realise they are trapped because the Rothschild's would find out about the transfer of Gold from the banks to the Vatican. Hence although the Vatican control via ownership more wealth than the Rothschild's the Rothschild's control the currency and the Gold Bullion. Vatican is in real trouble!

¹⁵⁷ <http://servantofthelight.com/content/view/71/101/>

Mystery Babylon The Great-er London

As previously shown in this book the Rothschild's the beast hates the Harlot of Harlots and Babylon the Great. They hate Great Britain twice they have financed wars against them while financing Great Britain against the Germans. Twice the over throw was lost in two world wars.

The third world war will see the Beast and the Vatican destroyed. The beast hates the Harlot the Bank of England.

Rev 17 v 15 And the angel said to me, "The waters that you saw, where the prostitute is seated, are peoples and multitudes and nations and languages. 16 And the ten horns that you saw, they and the beast will hate the prostitute. Now why would that be when the Bank of England has done so much for the Rothschild's' Simple really if you are going to call down fire Revelation 13 verse 13 It performs great signs, even making fire come down from Heaven to earth in front of people.

Nuclear War and or part of the Planet X or Wormwood star falling to earth. It could also be a reference to all types of rockets and guns. So if I was going to have a wicked thought and I controlled the Vatican's Gold Bullion and I wanted to take over the Vatican and all its possessions then the logical thing to do is bankrupt the Vatican.

Therefore the Gold that the Beast has must be stored somewhere incredibly safe and where only a few relatives and friends would know where. Like for example the Rockefellers.

Mystery Babylon The Great-er London

Therefore, the Beasts Gold or majority of it would be held in a “Safe Haven” and why not store the Vatican’s Gold Bullion in the Bank of England and a bit in the USA Fort Knox just to show diversification.

After all if you hate the Bank of England why have your own Gold there why not use the Vatican’s then down the track destroy it with a Nuclear bomb make it a few want to do the job right.

That way when the earth population has fallen to their “acceptable levels” arise out of the pit in complete and utter control knowing you have bankrupted the Vatican and now the only religion is the religion of the beast....

This makes perfect sense to this author. It’s all about world domination the Rothschild’s and the Rothschild’s friends & Relatives way.

Which is exact opposite to God, the Holy Spirit, and Christ Jesus Lord of Lords and King of Kings.

The second Beast controls the Vatican’s money.

The second Beast is also an Antichrist and along with the

Iron of Rome.

They will be melted down when the Harlot and Babylon the Great are melted down. This will be nothing by the second beast himself! He will just issue the order, and someone else will press the buttons.

I.e. gives the order to blow up London and bankrupt the Vatican! Off course this will happen, however the Holy Bible says that Jesus will return early if he does not no Flesh or Human beings will survive!

Mystery Babylon The Great-er London

Chapter 25 Dragon Snake & Phoenix Worship

Let me start in this chapter by stating that the worship of Idols is forbidden. Anything can be an Idol, such as Cars, collections, property, financial markets, a piece of stone or wood or any other material whatsoever including badge or logo. Some preachers these days have more than one Jet plane, as if one was or is not enough!

Genesis Chapter 3 v 14& 15

The Lord God said to the serpent, “Because you have done this, cursed are you above all livestock and above all beasts of the field; on your belly you shall go, and dust you shall eat all the days of your life.

15 I will put enmity between you and the woman, and between your offspring and her offspring; he shall bruise your head, and you shall bruise his heel.”

Notice it say “between your offspring and her offspring.

I sorry to say I never looked at that critically until recently, and when I did I was amazed, the Devil or at least the

“humanoid” reptiles can multiply?

The evidence of this on the internet & you tube is amazing.

Mystery Babylon The Great-er London

Now the book of Enoch was never included in the Bible, as the original translator's thought it was too hard to believe, so they left it out, so not to alarm people.

The book of Noah says this about certain Angels.

3) *REBELS AMONG THE WATCHERS*¹⁵⁸

6.1 And it came to pass, when the sons of men had increased, that in those days there were born to them fair and beautiful daughters.

6.2 And the Angels, the sons of Heaven, saw them and desired them. And they said to one another: "Come, let us choose for our-selves wives, from the children of men, and let us beget, for ourselves, children."

6.3 And Semyaza, who was their leader, said to them:

"I fear that you may not wish this deed to be done and that I alone will pay for this great sin."

6.4 And they all answered him, and said:

"Let us all swear an oath, and bind one-another with curses, so not to alter this plan, but to carry out this plan effectively."

6.5 Then they all swore together and all bound one another with curses to it.

¹⁵⁸ <http://www.forbiddengate.com/BookOfEnoch.pdf>

Mystery Babylon The Great-er London

6.6 And they were, in all, two hundred and they came down on Ardis, which is the summit of Mount Hermon. And they called the mountain

Hermon because on it they swore and bound one another with curses.

6.7 And these are the names of their leaders:

Semyaza, who was their leader, Urakiba, Ramiel, Kokabiel, Tamiel, Ramiel, Daniel, Ezeqiel, Baraqiel, Asael, Armaros, Ananel, Zaqiel, Samsiel, Satael, Turiel, Yomiel, Araziel.

6.8 These are the leaders of the two hundred Angels and of all the others with them.

7.1 And they took wives for themselves and everyone chose for himself one each. And they began to go into them and were promiscuous with them. And they taught them charms and spells, and they showed them the cutting of roots and trees.

7.2 And they became pregnant and bore large giants. And their height was three thousand cubits.

7.3 These devoured all the toil of men; until men were unable to sustain them.

7.4 And the giants turned against them in order to devour men.

7.5 And they began to sin against birds, and against animals, and against reptiles, and against fish, and they devoured one another's flesh, and drank the blood from it

Mystery Babylon The Great-er London

(It may be that sin against wildlife is or possibly cross in fertilization).

They turned into Cannonballs! My thought also was if the ladies were our size today how did they bear Giants? Was it C section, surely not normal delivery?

7.6 Then the Earth complained about the lawless ones.

8.1 And Azazel taught men to make swords, and daggers, and shields, and breastplates. And he showed them the things after these, and the art of making them; bracelets, and ornaments, and the art of making up the eyes, and of beautifying the eyelids, and the most precious stones, and all kinds of coloured dyes. And the world was changed.

8.2 And there was great impiety, and much fornication, and they went astray, and all their ways became corrupt.

8.3 Amezarak taught all those who cast spells and cut roots, Armaros the release of spells, and Baraqiel astrologers, and Kokabiel portents, and Tamiel taught astrology, and Asradel taught the path of the Moon.

8.4 And at the destruction of men they cried out; and their voices reached Heaven.

Well after reading that is it any wonder how man became so advance so quickly. These giants were in the Land of Israel.

Numbers 13 v 31 to 33 ESV

Mystery Babylon The Great-er London

31 But the men who had gone up with him said, “We are not able to go up against the people, for they are stronger than we.”

32 And they gave the children of Israel a bad report of the land which they had spied out, saying, “The land through which we have gone as spies is a land that devours its inhabitants, and all the people whom we saw in it are men of great stature.

33 There we saw the giants (the descendants of Anak came from the giants); and we were like grasshoppers in our own sight, and so we were in their sight.”

Forty days earlier they had seen the Angel of Death kill the first born of all those who did not have the sacrificial blood on the door posts. All dead! Then they seen God part the waters of the red see. Evidence of that is seen today.¹⁵⁹

Yet they did not think apart from two that God will destroy the Giants before them. So they doubted and spent 40 years in the desert wilderness. An only two plus the others sons and daughters entered the Promised Land.

Following is a few pictures of the Giants¹⁶⁰

Now fast forward to the last days, we look in the book of Revelation 16 v 12 – 16.

12 The sixth angel poured out his bowl on the great river Euphrates, and its water was dried up, to prepare the way for the kings from the east.

13 And I saw, coming out of the mouth of the dragon and out of the mouth of the beast and out of the mouth of the false prophet, three unclean spirits like frogs.

14 For they are demonic spirits, performing signs, who go abroad to the kings of the whole world, to assemble them for battle on the great day of God the Almighty.

15 (“Behold, I am coming like a thief! Blessed is the one who stays awake, keeping his garments on, that he may not go about naked and be seen exposed!”)

16 And they assembled them at the place that in Hebrew is called Armageddon.

First we find that in verse 12 the Angel pour its vial into the great river Euphrates and its water was dried up.

In late April early May of 2014 after the First Blood Moon on April 15th 2014 that Turkey has turned off the water to the Euphrates!¹⁶¹

Why before the first 5 Angles pour there vials? Easy it takes time for the water to dry up.¹⁶²

It just so happens we can and they are on display as well. On and in Buckingham Palace!

Musical Clock & Squaring out

Let's tackle Squaring out first. Squaring out, is keeping everything in balance. How does the Lord do that?

Mystery Babylon The Great-er London

I presume with time and space or SpaceTime as it is becoming known. Well how did Jesus do that when he was on Earth? Two scriptures needed to show you this.

¹⁶⁴Peter Denies Jesus

66 Meanwhile, Peter was in the courtyard below. One of the servant girls who worked for the high priest came by 67 and noticed Peter warming himself at the fire. She looked at him closely and said, “You were one of those with Jesus of Nazareth.”

68 But Peter denied it. “I don’t know what you’re talking about,” he said, and he went out into the entryway. Just then, a rooster crowed.

69 When the servant girl saw him standing there, she began telling the others, “This man is definitely one of them!” 70 But Peter denied it again.

A little later some of the other bystanders confronted Peter and said, “You must be one of them, because you are a Galilean.”

71 Peter swore, “A curse on me if I’m lying—I don’t know this man you’re talking about!” 72 And immediately the rooster crowed the second time.

Suddenly, Jesus’ words flashed through Peter’s mind: “Before the rooster crows twice, you will deny three

¹⁶⁴ Mark 14:66-72 NLT

Mystery Babylon The Great-er London

times that you even know me.” And he broke down and wept.

So how did Jesus square this negative out in Peters’ life?

¹⁶⁵15 After breakfast Jesus asked Simon Peter, “Si-mon son of John, do you love me more than these?”

“Yes, Lord,” Peter replied, “you know I love you.”

“Then feed my lambs,” Jesus told him.

16 Jesus repeated the question: “Simon son of John, do you love me?” “Yes, Lord,” Peter said, “you know I love you.”

“Then take care of my sheep,” Jesus said.

17 A third time he asked him, “Simon son of John, do you love me?”

Peter was hurt that Jesus asked the question a third time. He said, “Lord, you know everything. You know that I love you.”

Jesus said, “Then feed my sheep.

This is a simple example howbeit a profound one. Jesus squared out the negative in Peter’s life, by healing the wound Peter did to himself by denying the Lord 4 times.

¹⁶⁵ John 21 v 15 - 17

Mystery Babylon The Great-er London

When the talking about squaring out Time and Space we are talking about the mathematics of a matter.

For example the square of 12.

You have a grid on the Y axis you have it labelled 1 to 12 and on the X axis you have 1 to 12.

12 times 12 is 144 as pre the table below. Draw a line from #1 to #144 you will note that the rising line has risen at approximately an angle of 45 degrees.

Mystery Babylon The Great-er London

Appendix A - A.1.0 The Square of Twelve

12	24	36	48	60	72	84	96	108	120	132	144
11	23	35	47	59	71	83	95	107	119	131	143
10	22	34	46	58	70	82	94	106	118	130	142
9	21	33	45	57	69	81	93	105	117	129	141
8	20	32	44	56	68	80	92	104	116	128	140
7	19	31	43	55	67	79	91	103	115	127	139
6	18	30	42	54	66	78	90	102	114	126	138
5	17	29	41	53	65	77	89	101	113	125	137
4	16	28	40	52	64	76	88	100	112	124	136
3	15	27	39	51	63	75	87	99	111	123	135
2	14	26	38	50	62	74	86	98	110	122	134
1	13	25	37	49	61	73	85	97	109	121	133

This is squaring out time and space axis of Y and X become equal at #144.

This square is the square of 12 ($12*12$) is 144
Now if you have the square of 7 for example you will come to 49 which is the square of 7 ($7*7 = 49$)

As you can see from the Square of Twelve spread sheet if you draw lines at 45 degree angles there becomes strong points. These strong points are time and space.

By doing this if trading on Financial Markets and there is target of 144 for Example or ten times $144 = 1440$ that, that this is a very strong support or very strong resistance indicating the direction is changing.

The square of 144 is $144*144 = 20,736$. Therefore the square if we say in the second square of 144 we know that the SPACETIME is a number between 144 and 288 because $144+144$ is 288.

Now we move on to the Musical clock.

This was not my discovery but as far as I know Bradley Cowans¹⁶⁶

The planets travels at different speeds the planets rotate around the Sun they speed up and slow down and the overall travel time ratio's are the same or very similar to Musical Tones.

The following has been used with permission from Bradley. F. Cowan's Four Dimensional Stock Market Structures and Cycle book pages 105 to 107.

Which clearly show his workings and how the Musical Interval Corresponding Frequency Ratio to the Fundamental Ratios.

¹⁶⁶ www.cycle-trader.com

Mystery Babylon The Great-er London

Note that these musical intervals consist solely of octaves, fifths, and octaves of fifths. This is the same system used by Pythagoras when he developed the "Diatonic Major" musical scale. In this system, called the "succession of fifths", a tone is defined, such as C, as the fundamental tone. One fifth, a ratio of three to two, is taken below this tone. Then a fifth is taken above the fundamental, defining the tone G. Another fifth is taken from G, then another fifth from this tone, and this process is repeated until five notes are covered. These tones are all reduced into a single octave⁵⁷, creating the "Diatonic Major" musical scale with frequency ratios shown in Table 6.1.

Table 6.1
Frequency Ratios of Diatonic Major Scale
With C As The Fundamental Tone (Key of C)

Musical Tone ⁵⁸	Interval	Frequency Ratio Relative to Fundamental Tone (C)
C	FUNDAMENTAL	1
D	SECOND	9/8
E	MAJOR THIRD	5/4
F	FOURTH	4/3
G	FIFTH	3/2
A	MAJOR SIXTH	5/3
B	SEVENTH	15/8
c	OCTAVE	2/1
g	TWELFTH	3/1

⁵⁷ Reducing tones to a single octave simply means removing the value of unity and keeping the remaining fraction. For example, $3/2 \times 3/2 = 9/4$. From 9/4 unity is removed, (4/4 in this case). The result is 5/4, which is the frequency ratio of the tone "E", (see Table 6.1), within the single octave of the musical scale.

⁵⁸ Upper case is traditionally used to denote the fundamental tone (C). Lower case letters represent the first octave from the fundamental tone (c). Hyphenated lower case letters represent each successive octave (c', c'', etc.). This is the notation used in Figures 6.1, 6.2, and 6.3.

Appendix B - Displacement Factor.

The points (corners) of the Great Pyramid does not square up with True North and South of the pass. One would expect them to do so seeing the whole structure is so accurate on all of its other measurements.

In fact the Great Pyramid is off its true alignments of the North South East and West points of the compass by 2° and 28 minutes. (2 degrees and 28 Minutes).

I first read this in Alan Oliver's book Titled "Trading with the Gods"¹⁶⁷ In his book he says that in 1798 Napoleon was predisposed to conquer Europe and his main adversary in this was England. Napoleon and his navy were outclassed by the English navy fleet.

Desperate for Victory he was open to any suggestion that might further his cause. Alan goes on to say that Napoleon decided to send his Military, Architects, Surveyors, Engineers, artists, Mathematicians Astronomers and other learned scholars and individuals to Egypt. His plan was to attempt to reduce the power of his main adversary by using the secret that he would find left behind by a highly intelligent lost civilization.

Mystery Babylon The Great-er London

Alan states that he found many numbers related to the financial markets in Napoleon teams studies. In particular of note for this book is the number 228.

This is a very important point we also know that the earth over time has tilted at 22.8 Degrees. Actually the tilt moves from 22.1 to 24.5 degrees over time.¹⁸⁸

What is so often the case is one just needs to delete the

decimal place out of the figure to see the similarities in the numbers one is looking for or double or half the number.

In this example, The Pyramid is out of square with the compass points of north east south and west by 2 degrees and 28 minutes.³⁴

By moving the decimal point one space to the right you have 22.8 degrees which within the range of the tilt on the Earth axis.

By removing the decimal point completely it becomes 228. A number I come up with trading the Sydney Futures Market (SPI and XJO) as well as a lot among other numbers seen in the Bible. I am not the only one who has seen this. Alan Oliver also mentions this in his book. An old age question is answered in the next chapter. Also 2.29 is the Height of the ascending passage. Another confirmation that 2.28 - 2.29 is a measurement of significance. The term for Axis tilt to Astronomers is "Obliquity" which according to the Collins dictionary is in the terms of planetary science a deviation from the perpendicular or horizontal.

For example Earth current tilt or obliquity is approximately 23.45 degrees.

Mystery Babylon The Great-er London

The eleventh Moon of Neptune by the name of Sao has an interesting fact and that is that its semi-major Axis is 22,228,000 Kilometres¹⁸⁹

The Semi-Major or Minor Axis is the longest in diameter. A line (line segment) that runs through the center and both foci, of an ellipse with the ends at the widest points of the shape.

Appendix B – B.1.1 Ellipse

Mystery Babylon The Great-er London

The ellipse can be useful in the financial markets in Technical Analysis. I will not go into it here, however a simple but effective website for reference and working model for you to play with or use is

<http://www.mathsisfun.com/geometry/ellipse.html>

The perimeter of an ellipse is not that easy to work out and nor is the incline.

One can calculate it much earlier if they wish. Although I do not bother due to finding an easier way to measure targets on financial markets with an targeting accuracy measured to the fourth decimal point 99.9999% to 100%.

As just shown there is another example of the number 228 magnified this time by the three zero's.

Number 228 is a composite number. Factors of 228 are $2 * 2 * 3 * 19$. Number 228 has 12 divisors: 1, 2, 3, 4, 6, 12, 19, 38, 57, 76, 114, 228.

Sum of the divisors is 560. Number 228 is not a Fibonacci number.

Number 228 is an abundant number and therefore is not a perfect number.

Square of the number 228 is 51984.

(52 if you insert a dot and round up). (52 Weeks).

Earth & the number 228

Let's have a look closer to home if we divide 228 by 2

$$(228/2) = 114.$$

Is 114 special in relation to Earth?

In the argument of perihelion we see the number:

$$114.20783^{169}$$

The argument of Perihelion is the orientation of an elliptical orbit can be specified by three orbital elements: the inclination, the ascending node and the argument of perihelion and is best referenced here.

<http://astronomy.swin.edu.au/cosmos/A/Argument+Of+Perihelion>

The Pyramid has so many qualities that are very relative to earth one wonders if they have all been found as yet.

Saturn & 114

Longitude of ascending node: 113.642811°

Argument of perihelion: 336.013862°

It should be noted also that the number 228 is in the second square of 12.

12 times 12 is 144

2nd square of 12 is 288 in which 228 resides.

As you can see now the Lord God or some prefer to call nature uses the same numbers, multiplication or division of

the number that is in focus over and over again. This is reasonable because it obviously makes work easier.

Also the Displacement factor gives this effect on the Circle and therefore cycles I believe and is shown on the next page in Drawing 4.1 Displacement Factor effect.

DIAGNOSTIC NOTES

Skin diseases of swine

Alan R. Doster, DVM, PhD

The skin is the largest body organ and in the normal state, forms a complete anatomic and physiologic barrier between the animal and its environment. While providing protection against a variety of noxious physical, chemical, and microbiological agents, it serves as a sensory organ which is in constant communication with internal body systems and reflects pathological processes that may be either primary or secondary in origin (Figure 1). In addition, the skin is responsible for thermoregulation, vitamin D synthesis, and immunoregulation.

Skin disease in a swine herd can adversely impact production by causing a significant decrease in growth rate and feed efficiency.¹ Skin lesions can decrease carcass value by causing damage to the hide and excess trimming at the packing plant. In the case of breeding stock and feeder pigs, poor cosmetic appearance can have a detrimental effect on reputation and sales.

The number of important skin diseases in swine are fewer than encountered in companion animal medicine, but diagnosing and treating them can be no less challenging. As with all diseases, a complete clinical history is an essential component of a thorough diagnostic workup. Note the age, morbidity and mortality, distribution of lesions, appearance and progression of lesions, and any other clinical signs that exist concurrently. Then, physically examine a number of animals in various stages of disease. Often the location and gross appearance of lesions can lead to a presumptive diagnosis and initiation of proper therapy.

It may be necessary to collect appropriate samples to obtain a definitive diagnosis. Many tests can be performed in the veterinary clinic by trained personnel. Skin scrapings are useful for diagnosing dermatomycosis and mange. When you suspect dermatophytosis, take scrapings from the edge of several lesions (Figure 2). Transfer the material to a commercially available dermatophyte culture medium (Fungassay, Symbiotics Corp., San Diego, California 92127; and InTray DM™, Biomed Diagnostics, San Jose, California 95112) or submit it to a veterinary diagnostic laboratory for fungal culture. Include hairs plucked from the edge of the lesion in the sample. Hair and material from suspected lesions

can be examined directly for the presence of mites or dermatophytes after placing them in 10% solution of potassium hydroxide. However, remember that *Microsporium nanum* does not invade hair shafts. Growth is limited to keratinized skin. Therefore, epidermal crusts are the specimens of choice and must be examined carefully in order to demonstrate mycelial filaments of *M. nanum*.

Take skin swabs for bacteriologic culture in cases of exudative dermatoses. Because of the likelihood of secondary contamination, results of surface cultures should be interpreted with caution. Comparing results from bacteriologic cultures collected from several different lesions or sites may yield useful information regarding the bacterial flora that may be involved in the disease process.

Vesicular diseases may be diagnosed by collecting fluid from vesicles and submitting samples for virus isolation and electron-microscopy examination. However, if lesions have progressed and vesicles are no longer present, other methods for diagnosis must be used.

Skin biopsies are important in diagnosing dermatoses. Your primary goal is to submit samples characteristic of primary lesions and to avoid sampling areas that may not yield useful information. If possible, multiple samples that are representative of the disease process should be included. Most "wedge biopsies" can be obtained using local anesthesia and minimal chemical or physical restraint. The area selected for biopsy should not be scrubbed, cleansed, or unduly prepared in any manner as surface materials are important components of the specimen and may yield significant information regarding the condition in question. The biopsy should include normal epidermis, dermis, and subcutis. Prior to placing them in 10% buffered formalin, samples may be touched to the surface of a blood agar plate, which can be submitted for bacterial culture and sensitivity testing. With widespread lesions, it may be beneficial to include large areas of skin from a necropsy for laboratory evaluation.

Bacterial dermatoses

Exudative epidermitis (greasy pig disease)

Exudative epidermitis is caused by *Staphylococcus hyicus* and is most commonly seen in pigs 1–8 weeks of age.² Lesions generally start on the face and progress over the body. In the acute form, affected pigs are covered by an odoriferous, moist, greasy exudate comprised of sebum and bacteria (Figure 3). In the chronic

form, lesions consist of scabby patches of skin, which are most prominent over the head and shoulders (Figure 4).

Porcine cutaneous spirochetosis

Porcine cutaneous spirochetes may be occasionally encountered in a group of pigs but frequently go undiagnosed because lesions resemble those caused by a variety of other bacteria, including *Fusobacterium necrophorum* and *Actinomyces pyogenes*. Lesions consist of a severe ulcerative dermatitis.⁵ *Borrelia suis* is the etiologic agent. Lesions are seen most often in young pigs shortly after weaning. They often develop secondary to trauma inflicted by ear biting, fighting, or castration and are frequently associated with poor sanitary conditions. The most common site of occurrence is at the base of the pinna and extending along the ventral margin to the tip of the ear. Lesions are characterized by necrosis and ulceration, which may result in extensive granulation tissue formation (Figure 5). In sows, affected areas are seen on the ventral abdomen and consist of a severe ulcerative dermatitis. Diagnosis is based on observing numerous motile spirochetes by dark-field examination of smears of fresh tissue. Silver stains can be used to identify organisms in histological sections.

Porcine necrotic ear syndrome

This skin condition may occur as a progression of porcine cutaneous spirochetosis although spirochetes have not been demonstrated in typical lesions, which consist of massive necrosis of the pinna. *Staphylococcus hyicus* and beta hemolytic streptococci have been recovered from cultures of typical lesions but their presence may reflect secondary involvement.⁴ The pathogenesis of the lesion is complex and thought to be initiated by damage to the epidermis followed by bacterial invasion.

Vesicular and viral dermatoses

When confronted with acute vesicular disease in swine, you should be aware of the possibility of a reportable or foreign disease. While the probability of an exotic disease is remote, you should immediately seek the diagnostic assistance of state and federal authorities. Vesicular diseases of swine include foot and mouth disease, vesicular stomatitis, vesicular exanthema, and swine vesicular disease. Vesicular stomatitis is not a foreign animal disease but clinical signs and gross lesions are indistinguishable from other exotic vesicular diseases. Laboratory tests are required for identification. Consider each case of vesicular disease in swine to be foot and mouth disease until laboratory tests confirm otherwise because of its highly contagious nature and huge economic consequences.³

Parvovirus dermatitis

A vesicular-like dermatitis has been described in young pigs ranging from 1–4 weeks of age.⁶ Lesions initially consist of vesicles on the snout, coronary band, interdigital band, and tongue, which rupture to form erosions (Figure 6). Concurrently diarrhea, conjunctivitis, and rhinitis may be observed. Gross and microscopic lesions are not pathognomonic. Diagnosis relies on demonstrat-

ing parvovirus in the lesions using fluorescent antibody microscopy or virus isolation. Similar lesions have been described in swine acutely infected with *Staphylococcus hyicus*, suggesting that the condition may occur as a result of concurrent viral and bacterial infections.⁷

Swine pox

Swine pox is a common skin disease that has little economic impact and is often associated with poor sanitation. Clinical signs are typical of those seen with a pox virus infection. Pigs less than 3–4 months of age are more commonly infected than adults. Animals become immune after clinical disease subsides and serve as the reservoir of infection for the remainder of the herd. Congenital infection is occasionally noted.⁸ Lesions are most obvious on the nonhaired portions of the body (Figure 7). Pox lesions are self-limiting and resolve over 3–4 weeks. Secondary bacterial infection is common and may obscure the primary condition unless you carefully examine affected animals early in the course of disease.⁹ The swine louse, *Haemaphysalis suis*, has been implicated as a vector in the spread of swine pox.

Mycotic dermatoses

Ringworm

Microsporum nanum and *Trichophyton verrucosum* are the most common dermatophytes of swine, although *M. canis*, *M. gypsum*, and *T. mentagrophytes* have been reported to occur.¹⁰ Each is a zoonotic pathogen. Incidence of infection with *M. nanum* and *T. verrucosum* is sporadic but may reach 100% in groups of closely confined sows. Lesions begin as small reddish brown foci, 1 to 2 cm in diameter, that spread concentrically and may reach up to 12 cm in diameter (Figure 8). Foci may be covered with a thin loose crust and may be either single or coalescent. They may occur anywhere on the body but are most commonly found behind the ears. Hair loss and pruritus are generally minimal. Diagnosis is based on typical gross lesions and demonstrating the organisms in skin scrapings or histological sections. Culture and identification are needed for an etiologic diagnosis.

Parasitic dermatoses

Sarcoptic and demodectic mange

Parasitic skin diseases of swine include sarcoptic mange, demodectic mange, lice, and flies.¹¹ Other biting insects, such as fleas, are rarely important in swine production. *Sarcoptes scabiei* var. *suis* is the most economically important ectoparasite of swine and can significantly reduce the rate of gain and efficiency of feed conversion.^{11,12} Infection is often unrecognized due to its ability to become endemic in a herd. Infection can be manifested as a chronic dermatitis affecting a few pigs or a cutaneous allergic response to the mites that involves most members of the herd and produces intense pruritus.¹³ Sarcoptic mites are permanent parasites of the epidermis and live in tunnels within the epidermis. Lesions resembling a hypersensitivity reaction occur as early as 3 weeks after contact with the mites. They begin as small

focal erythematous papules over the back and abdomen (Figure 9). Hair loss and skin abrasions may result as sequelae to rubbing. Few animals develop chronic dermatitis even though incidence of infection in the herd may be quite high (Figure 10). Auricular infections are probably the most common. Diagnosis is made by use of deep scrapings from affected skin and examination of exudate from the external auditory canal for the presence of mites. Often samples obtained from the auditory canal are more rewarding than skin scrapings for demonstrating the mites.¹³

Demodectic mange is relatively uncommon in swine. The causative agent, *Demodex phylloides*, lives in hair follicles and produces a mild to moderately severe dermatitis over the snout, inside the thighs, and over the flanks (Figure 11). Occasionally, whole body involvement can occur and lead to excessive trimming or condemnation at slaughter. Infestation may produce skin nodules that resemble swine pox. Nodules contain a mixture of cheesy exudate and mites.¹¹

Lice

Clinical signs produced by *Haematopinus suis* infection in swine are often confused with mange as both provoke an intense pruritus. Pediculosis and sarcoptic mange are common concurrent infections, but swine herds routinely treated for mange seldom are infected with lice. Observing clinical signs coupled with close examination of affected swine for lice leads to a definitive diagnosis.¹¹

Biting flies

Biting flies such as the stable fly (*Stomoxys calcitrans*) and black flies (family *Simuliidae*) are important pathogens in swine health management.¹⁴ Not only are flies a nuisance and a source of annoyance, they are blood suckers and can produce an intense nonspecific dermatitis that can be confused with other parasitic skin diseases. Diagnosis is based on observation of clinical signs. Biting flies have also been incriminated as vectors in the spread of eperythrozoonosis and swine pox virus.

Miscellaneous dermatoses

Pityriasis rosea

Skin lesions associated with pityriasis rosea may be clinically indistinguishable from those caused by ringworm.¹⁵ The cause of pityriasis rosea is unknown but is thought to have a hereditary disposition in the Landrace breed.¹⁶ No infectious agent has been identified and attempts to transmit the condition to susceptible animals have been unsuccessful. Lesions consist of small erythematous papules which develop on the medial thigh and ventral abdomen (Figure 12). Papules become scaly, expand centrifugally, and may coalesce to form a mosaic pattern where the centers return to normal. Rarely are lesions seen on the dorsum of the body. Diagnosis is made from physical examination and recognition of characteristic lesions. The condition is usually self-limiting and resolves within 4 weeks.

Physical and chemical dermatoses

Sunburn, photosensitization, frost-bite, and exposure to dermatotoxic chemical agents are occasionally encountered in swine practice.¹⁷ Physically examining affected animals and collecting a thorough clinical history usually leads to a definitive diagnosis without laboratory assistance. Photodynamic substances found in alfalfa, clover, rape, oats, buckwheat, St. John's-wort, lucerne, and various drugs including phenothiazine, tetracyclines, and sulfonamides may cause an acute exudative dermatitis upon exposure to sunlight. Initiating proper husbandry measures and in the case of photosensitization or chemical-induced dermatitis, removing the causative agent leads to an uneventful recovery.

Nutritionally induced dermatoses

Nutritionally induced dermatoses in swine are rare as optimal diet formulation and feeding practices are becoming standard procedures in swine production during the course of producing quality pork at a lower price. Detailed information regarding dietary needs, ingredient quality, and milling procedures are readily available to the average producer and have an acceptable margin of error built into their recommendations. Dietary deficiency is usually only a temporary event that has minimal effect on the appearance of skin disease. Nevertheless, evaluating nutritional status and feeding practices should be part of a routine investigation of an outbreak of skin disease in a swine herd.

Summary

After you've made a definitive diagnosis of skin disease, you can implement specific treatment or control measures. While treatment is of concern at the outset, prevention is more important. To avoid a recurrence of the problem, use your knowledge of swine practice and medicine to review management and husbandry practices.
